

J. H. R., of Mass.—Your small engine of 2 inches bore and 6-inch stroke has a piston area of 3.1416 inches, and at a speed of 200 revolutions per minute and 50 pounds mean pressure, would exert 5360 of a horse-power, or a little more than half a horse power.

B. G. A., of N. H.—A mere verbal description of an invention to another who would not entitle a party to a patent in the face of the fact that another party had reduced it into tangible form either by a drawing or model.

J. F. C., of Canada West.—The idea of constructing a shot with spiral surfaces to produce a rotary motion by the resistance of the atmosphere in firing from a smooth-bore gun is very old. We have now in our office numerous models of shot so constructed. Some have wings as you propose, and some spiral passages through them, others have grooves in front and others grooves in the sides and base. It has been also proposed to construct them with spiral surfaces to be acted upon by the gases of the powder in firing. All experiments that we know of, with such projectiles, have resulted in a failure.

A. C., of N. Y.—If you step into the nearest telegraph office you can see in what direction the wire of an electro-magnet must be wound on its core. By mixing a small quantity of tallow or soap with the shellac it will become tough and not be liable to crack when the wire is wound round the core.

Money Received.

At the Scientific American Office, on account of Patent Office business, from Wednesday, March 9, 1864, to Wednesday, March 16, 1864:—

- A. B., of Cal., \$25; C. B., of Cal., \$20; J. H. S., of N. Y., \$15; J. E., of N. Y., \$50; G. S., of Maine, \$16; L. C., of Minn., \$15; C. B., of Mich., \$15; E. J. J., of Mich., \$15; E. H. W., of N. Y., \$25; W. W., of N. Y., \$41; H. M., of Pa., \$45; J. T. D., of N. Y., \$41; H. G. D., of N. Y., \$16; H. L., of N. Y., \$32; M. B. D., of Colorado Territory, \$16; L. D. W., of Mich., \$20; T. & L., of N. J., \$20; W. H. J., of Ind., \$45; A. H. T., of R. I., \$20; J. C., of N. Y., \$20; J. T., of N. Y., \$20; C. S., of Austria, \$40; J. F. R., of N. J., \$45; S. F. L., of Wis., \$20; C. T. B., of N. J., \$20; B. M., of N. Y., \$16; J. A., of Pa., \$20; J. P. B., of Ill., \$20; W. S., of N. Y., \$16; R. H., of Ill., \$20; H. L., of N. Y., \$10; J. C., of N. Y., \$16; H. L., of Mich., \$60; J. H. W., of N. Y., \$20; A. & H., of Conn., \$20; G. F., of Conn., \$20; W. W., of Conn., \$45; M. & B., of N. Y., \$20; G. A. S., of Conn., \$20; M. McM., of N. Y., \$16; P. & S., of N. Y., \$20; R. A. C., of N. Y., \$20; J. H. T., of N. J., \$31; J. A. H., of Maine, \$28; H. W. G., of N. Y., \$25; J. B. R., of N. Y., \$22; C. S., of N. Y., \$25; C. A. C., of N. Y., \$25; W. B. I., of N. Y., \$25; C. R. O., of N. Y., \$25; W. H. C., of N. Y., \$25; J. Van de C., of N. Y., \$25; J. F. E., of N. Y., \$25; F. B. & D. F. D., of N. Y., \$12; N. & H., of N. Y., \$10; G. B. H., of N. Y., \$20; J. B. W., of N. Y., \$31; A. T. T., of N. Y., \$25; J. T. D., of N. Y., \$25; J. H. V., of N. Y., \$25; W. W., of N. Y., \$25; E. H. C., of Mich., \$25; D. H. B. A., of Vt., \$16; J. G. F., of Mass., \$15; D. & M., of Ill., \$16; G. W. B., of Ohio, \$22; R. B. W., of Ohio, \$16; F. O. W., of Mass., \$16; E. J. S., of Md., \$25; J. T. H., of Vt., \$25; A. J. A., of Mich., \$20; F. M. M., of Ind., \$25; J. A. T., of Mass., \$10; T. F. B., of N. Y., \$25; H. B., of Conn., \$25; E. A. P., of Mass., \$25; C. B., of Ind., \$16; J. N. C., of Ohio, \$25; U. B. Y., of Pa., \$25; T. H., of Iowa, \$25; P. & H., of N. J., \$25; B. F. C., of Mich., \$25; L. D. C., of Mich., \$41; J. F. P. H., of N. H., \$16; H. M., of Pa., \$25; S. W., of Wis., \$16; W. C. S., of Ill., \$16; E. H. H., of N. Y., \$191; T. J. E., of Ind., \$20; N. C., of N. Y., \$16; W. & C., of Mich., \$10; J. C. B., of Wis., \$16; J. O. G., of Ill., \$25; J. B. A., of Ill., \$45; C. M. J., of Ill., \$16; R. W. A., of Mich., \$25; F. S., of Pa., \$41; J. L. H., of N. Y., \$16; D. G. M., of N. Y., \$100; J. B. P., of N. Y., \$16; K. & Co., Pa., \$48; A. L., of Ohio, \$66; J. C., of Pa., \$20; D. G. H., of Mass., \$41; G. F. B., of Mass., \$16; L. C., of Vt., \$40; J. S., of Conn., \$25; J. R. P., of Ohio, \$16; N. & J. C., of Ill., \$30; H. L., of Mich., \$60; B. E. M., of Ill., \$25; J. M., of Iowa, \$16; H. A., of Pa., \$25; T. D. H., of Conn., \$25; A. H. W., of Canada, \$25; J. N., of Ill., \$16; S. W. D., of N. Y., \$15; L. & T., of N. Y., \$191; S. A. H., of Conn., \$25; R. D., of Pa., \$30; D. P., of R. I., \$25; L. H. C., of Ill., \$20.

Persons having remitted money to this office will please to examine the above list to see that their initials appear in it and if they have not received an acknowledgment by mail, and their initials are not to be found in this list, they will please notify us immediately, stating the amount and how it was sent, whether by mail or express.

Specifications and drawings and models belonging to parties with the following initials have been forwarded to the Patent Office, from Wednesday, March 9, 1864, to Wednesday, March 16, 1864:—

- J. B. W., of N. J.; G. B. H., of N. Y.; N. & H., of N. Y.; F. B. & D. F. D., of N. Y.; J. T. E., of N. Y.; W. W., of N. Y.; E. P., of N. Y.; J. Van Dec., of N. Y.; W. H., of N. Y.; W. B. I., of N. Y.; C. A. C., of N. Y.; C. S., of N. Y.; J. B. R., of N. Y.; 2 cases; H. W. G., of N. Y.; J. A. H., of Me.; J. H. T., of N. J.; A. T. T., of N. Y.; J. H. W., of N. Y.; W. W., of N. Y.; T. D. H., of Ct.; B. E. M., of Ill.; W. S. W., Jr., of Ill.; U. B. V., of Pa.; F. S., of Pa.; H. B., of Ct.; T. F. B., of N. Y.; A. J. A., of Mich.; T. H., of Ohio; H. M., of Pa.; P. & H., of N. J.; J. B. A., of Ill.; J. N. C., of Ohio; E. H. C., of Mich.; E. J. S., of Md.; J. T. H., of Vt.; F. M. M., of Ind.; R. W. A., of Mich.; G. T., of Madeira; J. O. G., of Ill.; J. C. B., of Wis.; J. S., of Ct.; J. W. F., of Pa.; J. A. T., of Mass.; S. W., of Mass.; J. A. H., of Maine; C. R. O., of N. Y.; D. P., of R. I.; L. H. C., of Ill.; S. A. H., of Ct.; J. T. D., of N. Y.; C. H. W., of Ct.

RATES OF ADVERTISING.

TWENTY-FIVE CENTS per line for each and every insertion, payable in advance. To enable all to understand how to calculate the amount they must send when they wish advertisements published, we will explain that ten words average one line. Engravings will not be admitted into our advertising columns, and, as heretofore, the publishers reserve to themselves the right to reject any advertisement they may deem objectionable.

CHEMISTRY.—QUANTITATIVE CHEMICAL ANALYSIS, by C. R. Fresenius, 82. Qualitative Chemical Analysis, edited by Professor S. W. Johnson (nearly ready). 83. Chemistry, Theoretical and Practical, by S. Muspratt, 2 vols. sup. royal, \$3 7/8 (32). Elements of Chemistry, by W. A. Miller.—Part I, Chemical Physics; Part 2, Inorganic Chemistry; Part 3, Organic Chemistry. 2 vols. 8vo., \$2 1/2. Electricity and Magnetism, by W. A. Miller, 1 vol. 8vo., \$2.50. For sale by JOHN WILEY, 535 Broadway.

SCIENTIFIC WORKS.

RIFLED ORDNANCE. A practical treatise on the application of the Rifle to Guns and Mortars of every Calibre, to which is added a new theory of the initial action and force of fired Gunpowder. First American, from the Fifth Revised English Edition. By Lynnal Thomas, F.R.S.L. In one volume octavo, with illustrations. Price \$2.

PRACTICAL TREATISE ON LIMES, HYDRAULIC CEMENTS, AND MORTARS. Papers on Practical Engineering, U. S. Engineer Department No. 9, containing reports of numerous experiments conducted in New York city, during the years 1853 to 1861, inclusive. By O. A. Gilmore, Brig.-Gen. U. S. Volunteers, and Major U. S. Corps of Engineers, with numerous illustrations. One volume, 8vo. \$3 50.

"It is a work unsurpassed by any of the many excellent productions of the French writers, and is superior to anything in the English language on these important subjects."—Geo. W. CULUM, Brig.-Gen. and Lt.-Col. of Engineers.

LESSONS AND PRACTICAL NOTES ON STEAM. The Steam-Engine, Propellers, &c., for Young Marine Engineers, Students, and others. By the late W. R. King, U. S. N. Revised by Chief Engineer J. W. King, U. S. Navy. Ninth Edition, enlarged. 8vo. cloth, \$2.

"This is one of the best, because eminently plain and practical treatises on the Steam Engine ever published."—Philadelphia Press.

"Its republication at this time, when so many young men are entering the service as naval engineers, is most opportune. Each of them ought to have a copy."—Philadelphia Evening Bulletin.

HOLLEY'S RAILWAY PRACTICE. American and European Railway Practice, in the Economical Generation of Steam, including the materials and construction of Coal-burning Boilers, Combustion, the Various Engines, &c., for Young Marine Engineers, Students, and Heating Feed-water, &c., and the adaptation of Wood and Coal-burning Engines to Coal-burning, and in Permanent Way, including Road-bed, Sleepers, Rails, Joint Fastenings, Street Railways, &c., &c. By Alexander L. Holley, B.P. With 77 lithographed plates. 1 vol. folio, cloth, \$10.

"All these subjects are treated by the Author, who is a first-class railroad engineer, in both an intelligent and intelligible manner. In Press and will soon be published."

EUROPEAN ORDNANCE AND IRON-CLAD DEFENSES. By Alex. L. Holley. 1 vol., 8vo. cloth, with several hundred illustrations. Either of the above works sent free by mail on receipt of price. D. VAN NOSTRAND, Publisher, 142 Broadway.

THE SEALS BROKEN! JUST PUBLISHED: A book of novel character and of intense interest to the religious world—a metrical translation of, and a most elaborate and impressive commentary on the Book of Job; otherwise entitled a Song in the Night; by Rev. Henry W. Adams, M.A., of the Diocese of Massachusetts.

Genuine inspiration and the highest elements of sacred poetry are found in this obscure book. It required profound learning and a clear spiritual insight to open the book to the common mind. Happily this is accomplished in this rhythmic rendering of the Hebrew poet, and by one called to minister at the altar. Leaving the outer courts of the Temple, this man—a poet of rare beauty and power—enters the inner sanctuary, and follows the divine footprints, and whatever he touches appears to ignite and burn with an all-illuminating flame. A profound impression must be created by this book. Even the irreligious reader must appreciate its dramatic features and effects, and find in its thrilling and heroic measure and perfect rhyme, a rare intellectual entertainment. The student will now discover its deep significance, while the weak and afflicted will derive new strength and inexpressible consolation from the sweet repose and solemn trust so sublimely illustrated.

The book is a large and elegant octavo, gilt edges, and embellished with a fine portrait of the author on steel, and numerous tinted illustrations. Price, with usual discount to the trade, published by OAKLEY & MASON, Publishers and Booksellers, No. 21 Murray street, New York.

IRON.—HISTORY OF THE RISE AND PROGRESS OF THE IRON TRADE IN THE UNITED STATES. By H. F. French 1 vol. 8vo. \$2. History of the Iron Trade, &c., by H. Scribner, 1 vol. 8vo., \$3.50. W. Truran on the Iron Manufacture of Great Britain, 100 plates, royal 4to., second edition, \$3 10s. 0d. Fairbairn on Cast and Wrought Iron for Building Purposes, 1 vol. 8vo., \$2. Kirkcaldy on the Comparative Tensile Strength of Wrought Iron and Steel, 1 vol. 8vo. \$3. For sale by JOHN WILEY, 535 Broadway.

NOTICE TO MANUFACTURERS.—A FINE OPENING for Millers, Iron-founders, and Manufacturers of Agricultural Implements, &c., now presents itself at Kansas City, Missouri. The facts that Kansas City is the market for the vast agricultural regions of Southern Kansas and Western Missouri, and that, within a few months, three railroads will center here, are a sufficient guaranty of the profitability of such an investment of capital. A woolen factory, and a soap and candle factory, will also pay largely. For further particulars, address CORRESPONDING SECRETARY, Chamber of Commerce, Kansas City, Mo. P. O. Box 125.

NOTICE TO MACHINE BUILDERS.—PROPOSALS will be received by the Monongahela Water Company for the building and erection of a Steam Engine, with Pumping Apparatus, for the New Water-works of South Pittsburgh, Birmingham, and East Birmingham, Alleghany County, Penna. The machinery will be required to pump water at the rate of one million gallons in 12 working hours to an elevation of about 187 feet above Monongahela River; the distance of basin from river is about 2,000 feet. Bidders will state the price of machinery delivered at Birmingham and put up ready for use, and accompany their proposals with plan of machinery. Address: C. J. SEULTZ, Letter-box 1332, Pittsburgh, Pa.—The Committee on Machinery, Monongahela Water Company.

PATENT SHOVEL AND LIFTER COMBINED.—State and County Rights for Sale for Davis's Patent Shovel and Lifter combined. See this paper of Nov. 21st, 1863, for cut of same. Address—W. E. DAVIS, 83 Orange street, Brooklyn N. Y. 13 1*

A SURE FORTUNE FOR AN ENTERPRISING MAN.—The whole of the Patent for Post's Combined, Sawing, Planing, Boring, and Moulding Machine will be sold cheap; the proprietor being engaged in other business cannot give it his attention. For information and circulars, address—JOHN P. POST & SONS, Carpenters and Builders, Paterson, N. J. Application for State rights will be received. 13 6*

FOR SALE.—SASH, BLIND, AND DOOR MACHINERY, in good order. Address—ROBERT L. SMITH, Stockport, N. Y. 13 2*

GUN AND TOOL MAKERS WANTED AT OUR ARMSORY, in Hamilton, Ohio, where steady employment and good wages will be given.—GWIN & CAMPBELL. 13 2*

TO WRENCH MAKERS.—FOSTER'S PATENT UNYIELDING GRIP WRENCH is for sale. It is the best and only Wrench that will work equally well on round or square forms. It is invaluable to Gas-fitters, &c. Address—D. P. FOSTER, Shelburne Falls, Mass. 13 3*

INVENTORS, MANUFACTURERS, &c., TAKE NOTICE.—An experienced Patent Agent, just closing an engagement, will undertake the sale of a good Patent; or the inventor of a new and improved article of merit, either by establishing a central wholesale depot, or by travelling, or both. Good reference. Address, for one week, A. B. HOLMES, Dowagiac, Michigan, with all particulars, or letters will not be noticed. 13 4*

THE EVANS & BURGESS PATENT WATER FRONT FORGE is the best for using Lehigh or other hard coal now known to the public. Will save 35 per cent of fuel over any other forge now in use. Builders will so protect their workmen from the gas and heat as to remove all objections whatever. They are being extensively adopted in many of the first armories and workshops in the country. Please send for a circular and price list. H. B. BICELOW, sole proprietor, 8 Whitney ave., New Haven, Conn. 13 4*

GIROUD'S PATENT MARINE CLOCKS, REGISTERED. Steam, Vacuum, Water, and Open Siphon Gauges, Hot Well and Engine-room Thermometers and Indicators. Models made and Instruments repaired.—DAVIDSON, DICKINSON & CO., 225 Broadway; Factory, 191 Lewis street. 13 4*

DAVIDSON, DICKINSON & CO., CIVIL, MINING and Mechanical Engineers, 229 Broadway, New York. Manufacturers and Dealers in New and Second-hand Machinery. Hair and Wool Felt. Rollers and Pipe Felted. Cast and Wrought Iron Pipe. Fitting of all kinds. Belting and Brass-work for sale. 13 4*

CHICAGO STEAM SUGAR REFINERY.—CHICAGO, February 6th, 1864.—Mr. J. R. Riggs, Dear Sir:—I witnessed today with great satisfaction your new, simple and effectual process of separating from Sorghum sugar the sirup, gum, and sticky grape sugar, by which process, and with an entirely harmless agent, you render the sugar dry and of bright color, and free from the clammy feeling which I have always noticed in Sorgho sugar. Your process is of that simple kind that any person of ordinary capacity can successfully practice it.—Yours respectfully, WM. H. BELCHER. For particulars, address—RIGGS, NAVE, McCORD & CO., Omaha, Nebraska. 13 1*

WEAVING, DYEING, &c.—GILROY'S ART OF Weaving by Hand and Power. 1 vol. 8vo., \$5. Gilroy & Macfarlane's Practical Treatise on Dyeing and Calico Printing, and Recent Discoveries in Color Chemistry, 1 vol. 8vo., \$3. For sale by JOHN WILEY, 535 Broadway, New York. 13 2

CARPENTERS' AND JOINERS' HAND-BOOK.—By H. W. Holly, Practical Architect and Builder. 1 vol. 18mo., cloth, with plates, price 60 cents. "It is a valuable and convenient pocket guide for builders, apprentices, and workmen." Published by JOHN WILEY, 535 Broadway. Copies mailed and prepaid on receipt of the price. 13 1

CHLORATE OF ZINC FOR BURNETTIZING TIMBER.—A Pure Article. For sale by BOYD BROS., 159 Front street, New York. 13 12

SHEEP WASH TOBACCO.—JAGUES PURE EXTRACT OF TOBACCO.—Will not injure the most delicate animals. Kills Ticks on Sheep. Cures Scab on Sheep. Kills all Vermin on Animals and Birds. Cures all Skin Diseases on Animals. Kills Bugs on Roses, Lice on House Plants. Kills Canker Worm on Apple Trees. Kills Bed-bugs and Water-lice. Kills all Vermin that infest Grape and Strawberry Vines. One Pound of this Extract will make Sixteen Gallons Wash. For sale by all Druggists, and at Country and Agricultural Stores. Price 75 cents per pound. A liberal discount to the trade and large purchasers. Orders promptly sent by express. JAMES F. LEVIN, Agent South Down Co., 23 Central Wharf, Boston. 13 4*

PATENT COMMISSION HOUSE.—SNYDER & WALTER, 229 Broadway, New York.—Valuable Patents sold for Cash in New York in 30 days, or converted in 90 days, through our Agents. Patents exchanged for Mortgages, Real Estate, Western Lands, &c. Manufacturing contracts made. Agents wanted. Address, enclosing stamp—SNYDER & WALTER, 229 Broadway, New York. REFERENCES.—We, the undersigned, do authorize Snyder & Walter to refer to us, and believe they will conduct their business upon strictly honorable principles.—New York, Feb. 23d, 1864.—Signed, W. H. Kirby, Metropolitan Bank; W. S. Taylor, banker, 76 Wall street; Sheppard, Seward & Co., importer, 214 Pearl street; John McKewan, importer, 55 Maiden lane, New York. 13 4*

TUCK'S CELEBRATED PATENT ELASTIC PACKING, 109 John street, New York. H. Toulin, sole agent. Caution.—All Round Rubber and Duck, or similar Packing, not stamped "Tuck's Patent" is spurious, and the seller and purchaser are equally liable with the manufacturer therefor. 1*

FAIRMAN & WILLARD, COMMISSION MERCHANTS in Machinery, buy and sell on commission all kinds of machinery and supplies. All orders or inquiries promptly attended to. FAIRMAN & WILLARD, 53 John street, New York. 1*

CHUCK'S.—FAIRMAN'S, WASHBURN'S, CUSHMAN'S & Horton's Chucks, also, all kinds of Scroll and Screw Chucks, constantly on hand and for sale at 53 John street, New York. FAIRMAN & WILLARD. 1*

ROUND AND SQUARE MATCH MACHINES, Woolen Cards, Rag Pickers, &c., Manufactured by RICHARDSON & CO., Athol Depot, Mass. 10 13*

IMPORTANT TO CARPENTERS AND WOOD WORKERS.—Talpey's Patent Self-feeding Hand-sawing Machine saves labor, timber, time, and money. This is the unanimous testimony of hundreds who are using them. Descriptive circulars sent on application to HOAG & HAMPSON, 90 Maiden Lane, New York. 11 5*

IRON PLANER FOR SALE.—MANUFACTURED IN Worcester, Mass. Has been used but little. Planes 4 1/2 feet long, 25 1/2 inches wide, and 24 inches high. Address C. R. & J. O. TADLOCK, Salem, Ohio. 11 5*

DRAFTING INSTRUMENTS FOR ENGINEERS, SURVEYORS, ARCHITECTS, MACHINISTS, and Schools, Engineers' and Surveyors' transits, levels, compasses, and chains, Chesterman's Metallic and Steel Tape-measures, for sale, wholesale and retail, by JAMES W. QUINN & CO., 224 Chestnut street, Philadelphia. Priced and illustrated catalogues gratis. 11 10*

WANTED.—AMERICAN OR ENGLISH IMPROVEMENTS in machinery for manufacturing cotton or wool, old or new, patented or unpatented. CHARLES A. SHAW, Boston, Maine. 12 10*

GROVER & BAKER'S HIGHEST PREMIUM ELASTIC Stitch Sewing Machines, 495 Broadway, New York. 12 1*

PATENT IMPROVED SOLID EMERY WHEELS, FOR Cutting, Grinding, and Polishing. No Metal-worker can afford to be without them. Orders promptly filled. Smyrna Emery by the Keg, warranted Pure and Best Quality. NEW YORK EMERY WHEEL COMPANY, 51 Beekman street, New York. 12 4*

FOREIGN LABOR.

INVITE THE CORRESPONDENCE OF MANUFACTURERS wanting Miners, Rollers, Puddlers, Machinists, Molders, Steel, Edge-Tool, File, Saw and Cutlery Makers, and Manufacturers of Hardware generally, as I am now prepared to enter into Contracts for the supply of such Labor. I have made such arrangements through my agent in Great Britain as will enable me to furnish any reasonable number of men that may be required.—JOHN WILKINS, Editor Hardware Reporter, 80 Beekman street, New York. 12 8*

HACKLE, GILL, COMB CARD PINS, &c., &c., promptly supplied by J. W. BARTLETT, 442 Broadway, New York. Refer to leading Flax, Hemp, Linen and Cordage Machinery manufacturers. 12 11*

THE CELEBRATED CRAIG MICROSCOPE, COMBINING Instruction with Amusement, is mailed, prepaid, for \$2.25; or with 6 beautiful Mounted Objects for \$3; with 24 Objects, \$5, by HENRY CRAIG, 336 Broadway, New York. 12 8*

HARRISON'S GRIST MILLS—20, 30, 36 AND 48 inches diameter, at \$100, \$200, \$300 and \$400, with all the modern improvements. Also, Portable and Stationary Steam Engines of all sizes, suitable for small mills. Also, Bolters, Elevators, Belting, &c. Apply to S. C. HILLS, No. 12 Platt street, New York. d

AGENCY FOR THE INTRODUCTION AND SALE OF PATENT INVENTIONS.—Inventors and manufacturers desirous of having their inventions introduced into this country and abroad, will find it to their interest to send descriptive, illustrated pamphlets and circulars to A. SCHILLER, 50 Bowery, New York. 14 3*

THE PRACTICAL METAL-WORKER'S ASSISTANT.

NOW READY.—THE PRACTICAL METAL WORKER'S ASSISTANT; comprising Metallurgical Chemistry, and the Arts of Working all Metals and Alloys; Forging of Iron and Steel, Hardening and Tempering, Melting and Mixing, Casting and Founding, Works in Sheet Metal, the Processes dependent on the Ductility of the Metals; Soldering and the most Improved Processes, and Tools employed by Metal Workers, with the Application of the Art of Electro-Metallurgy to Manufacturing Processes. Collected from original sources, and from the works of Holtzapffel, Bergeron, Leupold, Plummer, Napier, and others. By Oliver Byrne. A new revised and improved edition, with additions by John Scofield, M.B., William Clay, William Fairbairn, F.R.S., and James Napier. With five hundred and ninety-two engravings, illustrating every branch of the subject. In one volume, 8vo. Price SIX DOLLARS. Sent by mail, free of postage, to any address.

The extensive and varied character of the matter in the book may be judged from the following, which only gives a portion of it:— CONTENTS. CHAPTER I.—ON METALLURGICAL CHEMISTRY. The useful metals and metallic ores defined. History of metallurgy. Refining processes. New refining processes and advantages of cast iron. Crystallizing tendency of wrought-iron in large masses. Classification of metals. Alloys. Affinity of metals. Theory of alloys. Metallic oxides. Reduction of metallic oxides. Carburetted hydrogen. Sulphides. Chlorides. Calcination and roasting. Carburets and carbons. Metallic salts.

II.—SPECIAL METALLURGICAL OPERATIONS. Volatile combinations. Metallic distillation processes. Fluxes and fuming. Furnaces. The combustive junction. Products of combustion. Natural and artificial blasts. Blast machines. Catalan trompe. Chain blast. The Cagniardelle.

III.—RECENTLY-PATENTED REFINING PROCESSES. Plant's, Martien's, and Clay's processes. Bessemer's process. Bessemer's converting vessel. Application of the tuyeres. Pouring out the fluid metal. Preparing the vessel. Process of conversion explained. Bessemer's squeezer. Bessemer's hammer and gauge. Analyses of Bessemer's iron and of ordinary puddle-iron. Reductions on Bessemer's process.

IV.—REFINING AND WORKING OF IRON. Iron-furnaces in the United States. Dickerson's method. Malleable iron. Puddling. Winslow's machine. Rollers or rolls. Varieties of iron.

V.—MANUFACTURE OF STEEL. Cementation. Blistered steel. Sheer steel. Cast-steel. Qualities of steel.

VI.—FORGING IRON AND STEEL. Fires. Blast. Furnaces, forges, and hearths. Ordinary practice of forging.

VII.—ON WROUGHT-IRON IN LARGE MASSES. Forge tools. Limits of welding power. Auxiliary tools. Forge-hammers. Nasmyth's steam-hammer. Effects of Nasmyth's hammer. Materials for forging. Tendency of over-refined iron to deteriorate. Cast and wrought-iron for ordnance. Tensile strength of the monster gun. Material used in forging. Varieties of treatment required. Modes of working large forgings. Different modes of forging large iron masses. Forging the monster gun. Crystallization explained. Crystalline tendency of iron. Causes of fissures and their remedy. Danger of forgings in cooling. Report of the Franklin Institute on the "Princeton's" gun. Effects of hammer hardening. Importance of metallurgy to engineers.

VIII.—GENERAL EXAMPLES OF WELDING. Trip and tilt-hammers.

IX.—HARDENING AND TEMPERING. General view. Hammer hardening. The quantity of carbon in cast-iron. Steel and glass-polarized. Practice of hardening and tempering steel. Examples of hardening and tempering steel. Razors, pen-knives, hatchets, adzes, cold chisels. Saws and springs. Jacob Perkins's discovery. Oldham's process.

X.—HARDENING CAST AND WROUGHT IRON. Chilled iron castings. Malleable iron castings. Case-hardening wrought and cast-iron.

XI.—ON THE APPLICATION OF IRON TO SHIP-BUILDING. Constructions of iron vessels for ocean traffic. Half cross section of a frigate. Ribs. Keels. Decks. Form of the deck-beams. Riveting of the plates. Single and double rivets. Lash joints. Wood and iron as materials for ship-building. Resistance to tension and compression in iron-ships. Practical tests of iron-ships. Durability. Economy. Effects of shot on iron-ships.

XII.—THE METALS AND ALLOYS MOST COMMONLY USED. Description of the physical character and uses of the metals and alloys. Antimony. Bismuth. Copper. Alloys of copper and zinc. Alloys of copper and tin. Alloys of copper and lead. Alloys of copper, zinc, tin, and lead. Gold alloys. Nickel. Palladium. Platinum. Rhodium. Silver. Silver alloys. Tin. Zinc. Babbitt's anti-friction metal. Fenton's anti-friction metal. Alloy of the standard measure used by government. Tug-iron. Expansion metal. Tables of the cohesive force of solid bodies. Tabular view of the properties of metals. Weights of wrought-iron, steel, copper, brass, and plates.

XIII.—REMARKS ON THE CHARACTER OF THE METALS AND ALLOYS.

Hardness, fracture, and color of alloys. Malleability and ductility of alloys. Strength and cohesion of alloys. Alloy-balance. Table for converting decimal proportions into divisions of the pound avoirdupois. Fusibility of alloys. M. Mallet's process for the protection of iron from oxidation. Palladiumizing process.

XIV.—MELTING AND MIXING THE METALS. The various furnaces, &c., for melting the metals. Antimony, copper, gold, and silver, and their alloys. The management of the furnace and mixing alloys. Britannia metal. Barron's furnace.

XV.—CASTING AND FOUNDING. Metallic, earthen, and complex molds. Metal molds for pewter works. Bearings for locomotive-engines. Type founding. Plaster of Paris molds and sand molds. Stereotype founding. Molding sand and flask. Patterns, molds, and moulded simple objects. Foundry patterns. Cores of molds. Molding-cored worms. Core-boxes. False core and drawback. Reversing and figure-casting. Casting figures, ornaments, branches, and foliage. Guns and metal. Sand metal. Patterns for iron-castings. Loam molding. Melting and pouring iron. New method of manufacturing drop shot.

XVI.—WORKS IN SHEET METAL MADE BY JOINING. On malleability, &c.—division of the subject. Terrestrial globes. Works in sheet metal made by cutting, bending, and joining. A hexagonal box. Polygonal figures. Prismatic vessels. Pyramids. Frustums of pyramids. Mixed polygonal figures. Radiating pieces for polygonal vases. Polygonal vases of unequal sides. Tools. Modes of bending curved work. Improved machine for rolling up sheet-metal pipe. Angle and surface joints. Francis's metallic life-boats.

XVII.—WORKS IN SHEET METAL MADE BY RAISING; AND THE FLATTENING OF THIN PLATES OF METAL. Circular works spun in the lathe. Works raised by the hammer. Solid and hollow blows. Raising and hollowing. Raising globes. Vases. Jelly molds. Stamping. Peculiarities in the tools and methods. Flattening thin plates of metals with the hammer.

XVIII.—PROCESSES DEPENDENT ON DUCTILITY. Drawing wires, metal tubes, &c.

XIX.—SOLDERING. General remarks and tabular view. Tabular view of the process of soldering. Hard soldering. Soft soldering. Soldering per se, or burning together. Alloys and their melting heats. Fluxes. Modes of applying heat in soldering. The use of the blow-pipe. Examples of hard and soft soldering. Richemont's afro-hydrogen blow-pipe.

XX.—SHEARS.

XXI.—PUNCHES.

XXII.—DRILLS.

XXIII.—SCREW-CUTTING TOOLS. Originating screw. Cutting internal screw with taps. The principle of chamfering. Transverse sections of taps. Die-stocks. Master-taps. Bolt-screwing machine. Shaping machine. Screws cut by hand in a common lathe. Cutting screws in lathes with traversing mandrels. Cutting screws in lathes with traversing tools. Healey's screw-cutting apparatus. System of change-wheels for screw-cutting. Screw-tools for angular threads. Screw-tools for square threads. Various modes of originating and improving screws. Fusee engine. Ramsden's screw-cutting engine. Clement's mode of originating the screw-guide. Chucking and reaming lathes. Engine-lathe. Screw-threads considered in respect to their proportions, forces and general characters. The measures and relative strengths of screw-threads. Sections derived from the angular thread and from square threads. Table for angular thread-screws. Table for small screws of fine angular threads. Approximate values of Holtzapffel's original screw-threads. Holtzapffel's original taps.

XXIV.—HISTORY OF THE ART OF ELECTRO-METALLURGY. XXV.—DESCRIPTION OF GALVANIC BATTERIES AND THEIR RESPECTIVE PECULIARITIES.

XXVII.—MISCELLANEOUS APPLICATIONS OF THE PROCESS OF COATING WITH COPPER.

XXVIII.—BRONZING.

XXIX.—DEPOSITIONS OF METALS UPON ONE ANOTHER.

XXX.—ELECTRO-PLATING.

XXXI.—ELECTRO-GILDING.

XXXII.—RESULTS OF EXPERIMENTS ON THE DEPOSITION ON OTHER METALS AS COATINGS.

XXXIII.—THEORETICAL OBSERVATIONS.

The above or any other of my Practical and Scientific Books sent free of postage at the publication price. My catalogue of Books, covering nearly every branch of Industry, sent free of postage to any one applying for it. Address HENRY CAREY BAIRD, Industrial Publisher, 406 Walnut street, Philadelphia. 122

A VALUABLE WORK FOR INVENTORS PATENTEES AND MANUFACTURERS.

The publishers of the SCIENTIFIC AMERICAN have just prepared with much care, a pamphlet of information about Patents and the Patent Laws, which ought to be in the hands of every inventor and patentee, and also of manufacturers who use patented inventions. The character of this useful work will be better understood after reading the following synopsis of its contents:—

The complete Patent Law Amendment Act of 1861—Practical Instructions to Inventors, how to obtain Letters Patent, also about Models—Designs—Caveats—Trade-marks—Assignments—Revenue Tax—Extensions—Interferences—Infringements—Appeals—Rescission of Defective Patents—Validity of Patents—Abandonment of Inventions—Best Mode of Introducing them—Importance of the Specification—Who are entitled to Patents—What will prevent the granting of a Patent—Patents in Canada and European Patents—Schedule of Patent Fees; also a variety of miscellaneous items on patent law questions.

It has been the design of the publishers to not only furnish, in convenient form for preservation, a synopsis of the PATENT LAW and PRACTICE, but to answer a great variety of questions which have been put to them from time to time during their practice of upwards of six years, which replies are not accessible in any other form. The publishers will promptly forward the pamphlet by mail, on receipt of six cents in postage stamps. Address MUNN & CO., Publishers of the SCIENTIFIC AMERICAN, No. 37 Park Row, New York.

JUST WHAT EVERYBODY WANTS.—OUR NEW

Pocket Album (for soldier and civilian), holding 16 pictures, is the cheapest and best ever offered to the public. Sent by mail to any address post-paid on receipt of seventy-five cents. It can be filled with pictures (16) and sent by mail to soldiers in the army, or friends anywhere in Uncle Sam's domains, at the very trifling sum of thirty cents postage. All orders promptly filled by SAMUEL BOWLES & CO., Photograph Album Manufacturers, Springfield, Mass. 12

BAIRD'S PATENT

INCORUSTATION PREVENTER, AND REMOVER, FOR STEAM BOILERS in either Salt or Fresh Water.—No invention connected with Steam Power combines so many advantages as this. THE ECONOMY IN FUEL ALONE, from its use, repays the cost of the preventive. Certificates from Engineers and owners of Steam Boilers, at sea and on shore, can be seen at the office of JAS. F. LEVIN, 23 Central Wharf, Boston, Mass. 9 10*

STEAM ENGINES AND BOILERS OF EVERY DESCRIPTION.

Shafting; Pulleys and Machinists' Tools, for Sale by C. GAY, 29 Doane street, Boston, Mass. 9 20*

HEMP, FLAX AND JUTE PREPARING AND SPINNING Machinery, new and second-hand, all built on the most improved system. All kinds of Steel-plate Wood Clothing and Leather Filleting. Hackles, Gills, and Gill Pins. Sole Agent for Grimston's Patent Self-acting Baling Machine. Also, the Excelsior Horner's Heckling Machine—producing more yield, with less labor, than any machine heretofore known. THOMAS JENNINGS, Machinery Merchant, Leeds, England. 9 6*

TO WIRE DRAWERS.—I have patented and brought

into practical operation, a Machine for Pointing Wire in the Coil for drawing, without the use of files or emery, and for pointing all kinds and sizes of wire where a perfect taper is required. C. JILLSON, Worcester, Mass. 9 8*

PECK'S PATENT DROP PRESS FOR FORGING PURPOSES.

All sizes manufactured by MILO PECK & CO., New Haven, Conn. 9 12*

JAMES HORNER & CO. MANUFACTURERS OF CAST

Steel and Files. Orders solicited for all kinds, shapes and sizes. Office and Warehouse, 28 Cliff street, New York. 7 6m*

SELF-REGISTERING CALIPERS.—GIVING THE

sizes without recourse to a rule. See engraving in SCIENTIFIC AMERICAN, of Aug. 8, 1863; 1 1/2-inch (pocket) size, at 75 cents; 2-inch size (with set screw attached to indicator), \$1.25. Now ready and will be delivered free of expense to purchasers on receipt of the price. A limited number of the 3-inch size are in process to supply demand only. Early orders will secure them. Larger sizes will be made if sufficient orders are received. Send for illustrated circulars. Liberal discount to the trade. Reliable agents wanted for all parts of the United States. KIMBALL & TALBOT, Worcester, Mass. 7 5*

AMERICAN NEEDLE COMPANY, 442 BROADWAY,

New York. J. W. Bartlett, Needle manufacturers for all the Sewing Machines, the Burmish and Needles. "We find Bartlett's Burmish Needles a wonderful improvement over others for sewing machine or hand sewing."—MME. DEMOREST. 12 1f

SAVING OF FUEL TO PARTIES USING STEAM.—

DAMPER REGULATORS. Guaranteed to effect a great saving in fuel and give the most perfect regularity of power. For sale by the subscribers, who have established their exclusive right to manufacture damper regulators, using diaphragms of flexible vessels of any kind. CLARK'S PATENT STEAM AND FIRE REGULATOR COMPANY, No. 5 Park Place, New York 24 26*

WM. CLEVELAND HICKS, CIVIL AND MECHANICAL

Engineer, 480 Broadway, New York.

PORTABLE STEAM ENGINES OF ALL SIZES, ON

hand and built to order. Send for description and our prices, and get the best, cheapest, and most economical Engine made. 5 10* HOAG & HAMPSON, 96 Maiden Lane, N.Y.

GUN AND PISTOL SCREWS.—COMSTOCK, LYON

& CO., Manufacturers (Office, 74 Beekman street, New York), are always prepared to furnish Gun and Pistol Screws to sample. Send us your address in your language native. Envoyez nous un dessin et une description concise pour notre examen. Toutes communications seront regues en confiance. MUNN & CO., Scientific American office, No. 37 Park Row New York 10 23

A MESSIEURS LES INVENTEURS.—AVIS IMPORT-

ANT Les inventeurs non familiers avec la langue Anglaise, et qui ne peuvent adresser leurs inventions en Francais, peuvent nous adresser dans leur langue natale. Envoyez nous un dessin et une description concise pour notre examen. Toutes communications seront regues en confiance. MUNN & CO., Scientific American office, No. 37 Park Row New York 10 23

THE CHEAPEST MODE OF INTRODUCING INVENTIONS.

INVENTORS AND CONSTRUCTORS OF NEW AND useful Contrivances or Machines, of whatever kind, can have their inventions illustrated and described in the columns of the SCIENTIFIC AMERICAN on payment of a reasonable charge for the engraving.

No charge is made for the publication, and the cuts are furnished to the party for whom they are executed as soon as they have been used. We wish it understood, however, that no second-hand or poor engravings, such as patentees often get executed by inexperienced artists for printing circulars and handbills from, can be admitted into these pages. We also reserve the right to accept or reject such subjects as are presented for publication. And it is not our desire to receive orders for engraving and publishing any but good Inventions or Machines, and such as do not meet our approbation in this respect, we shall decline to publish.

For further particulars address— MUNN & CO., Publishers of the SCIENTIFIC AMERICAN, No. 37 Park Row, New York City.

OIL! OIL!

For Railroads, Steamers, and for machinery and Burning. PEASE'S Improved Engine and Signal Oil, indorsed and recommended by the highest authority in the United States. This Oil possesses qualities vitally essential for lubricating and burning, and found in no other oil. It is offered to the public upon the most reliable, thorough and practical test. Our most skillful engineers and machinists pronounce it superior to and cheaper than any other, and the only oil that is in all cases reliable and will not gum. The "Scientific American," after several tests, pronounces it "superior to any other they have ever used for machinery." For sale only by the Inventor and Manufacturer, F. S. PEASE, No. 61 Main street, Buffalo, N. Y. N. B.—Reliable orders filled for any part of the United States and Canada. 13*

WHAT EVERY ONE OUGHT TO HAVE—ONE OF

Farr's Tool Chests, fitted with complete sets of tools, sharpened and set ready for use and packed in cases for shipping, suitable for mechanics, amateurs, farmers and boys. Prices from \$2 to \$35 each, and containing from 8 to 92 tools, according to size. To be obtained of all respectable hardware dealers or shipped on receipt of price by the manufacturer, GEORGE FARR, Buffalo, N. Y. Send for descriptive circular. 25 14*

REYNOLD'S TURBINE WATER-WHEELS.—THESE

celebrated water-saving and powerful wheels, now so extensively used on limited streams, are furnished and adapted to every head and supply of water, by TALLCOT & UNDERHILL, 170 Broadway, New York. 13 5

BISULPHIDE OF CARBON, CHEMICALLY PURE.

For sale in quantities from one to fifty carboys. Address DU BOIS D. PARMELEE, Chemist, 22 East 41st street, New York. 11 3*

PAGE'S PATENTED LIME KILN WILL BURN 300

bushels lime per day, with three cords wood or 1 1/2 iron coal, hard or soft. Address C. D. PAGE, Grand Rapids, Mich. 9 13*

HOLSKE & KNEELAND, MODEL MAKERS. PAT-

ENT Office Models, Working Models, and Experimental Machinery, made to order at 100 Walker street, between Center and Elm, New York. Refer to Munn & Co., SCIENTIFIC AMERICAN Office. 6 1f

FAN BLOWERS—DIMPPEL'S, ALDEN'S, MCKEN

ZIE'S and others, for Steamboats, Iron Works, Foundries, Smith Shops, Jewelers, &c., on hand for sale by LEACH BROTHERS, 86 Liberty street, New York. 3 13*

VULCANIZED RUBBER—

Adapted to mechanical purposes—MACHINE BELTING, STEAM PACKING, VALVES, HOSE, EMERY VULCANITE WHEELS, &c., &c. Directions, prices, &c., can be obtained on application to the NEW YORK BELTING AND PACKING COMPANY, Nos. 37 and 38 Park Row, New York, JOHN H. CHEEVER, Treasurer. 11f

PORTABLE STEAM ENGINES—COMBINING THE

maximum of efficiency, durability and economy with the minimum of weight and price. They are widely and favorably known, more than 200 being in use. All warranted satisfactory or no sale. A large stock on hand ready for immediate application. Descriptive circulars sent on application. Address J. C. HOADLEY, Lawrence, Mass. 5 1f

GUILD & GARRISON'S CELEBRATED STEAM

Pumps—Adapted to every variety of pumping. The principal styles are the Direct Action Excelsior Steam Pump, the improved Balance Wheel Pump, Duplex Vacuum and Steam Pumps, and the Water Poppet, an entirely new invention for pumping large quantities at a light lift. For sale at Nos. 55 and 57 First street, Williamsburgh, and No. 74 Beekman street, New York. 11f GUILD, GARRISON & CO.

WHEELER & WILSON'S HIGHEST PREMIUM SEW-

ING MACHINES and Foot's Patent Umbrella Stands, 505 Broadway, New York. 17 32*

IRON PLANERS, ENGINE LATHES, DRILLS AND

other machinists' tools, of superior quality, on hand and finishing for sale low. For description and price address NEW HAVEN MANUFACTURING COMPANY, New Haven, Conn. 11f

BOLTS, NUTS AND WASHERS OF ALL SIZES

constantly on hand for sale by LEACH BROTHERS, 86 Liberty street, New York. 3 13*

Zur Beachtung für deutsche Erfinder.

Die Unterzeichneten haben eine Anstalt, die Erfindern das Verhalten anzeigt, um sich ihre Patente zu sichern, herauszugeben, und veranlassen solche gratis an dieselben. Erfinder, welche nicht mit der englischen Sprache bekannt sind, können ihre Mittheilungen in der deutschen Sprache machen. Stützen von Erfindungen mit kurzen, deutlich geschriebenen Beschreibungen beliebe man zu adressiren an Munn & Co., 37 Park Row, New York.

Auf der Office wird deutsch gesprochen.

Beachtet die zu haben!

Die Patent-Gesetze der Vereinigten Staaten.

neben den Regeln und der Geschäftsanordnung der Patent Office und Anleitungen für den Erfinder, um sich Patente zu sichern, in den Ver. St. sowohl als in Europa. Ferner Auszüge aus den Patent Gesetzen fremder Länder und darauf bezügliche Nachrichten; ebenfalls müssen Blätter für Erfinder und solche, welche Patente zu erlangen wollen. Preis 25 Cts., bei Post 26 Cts.
