

CORRESPONDENTS

W. A. B., of Cal.—The specimen of rock which you have sent us is white flint.
W. M. B., of Ct.—The best engineering school in New England is Yale College. Endeavor to obtain a situation in some able civil engineer's office, so as to acquire practical knowledge.
T. H., of N. Y.—We really cannot make out your sketch nor what you mean to accomplish, or expect to gain, by such a complication of cranks, rods and lazy-tongs levers.

Y. J. O., of N. Y., \$30; J. J. O., of Miss., \$25; J. F. & E. W., of N. Y., \$30; W. W. B., of N. Y., \$30; D. C. T., of Wis., \$20; H. H., of N. Y., \$25; H. G., of L. I., \$25; J. K., of N. J., \$25; W. M., of La., \$25; J. & S., of N. Y., \$25; C. W., of N. H., \$35.
Specifications and drawings belonging to parties with the following initials have been forwarded to the Patent Office during the week ending Saturday, June 20, 1857:
L. & T., of France; H. H., of N. Y.; L. & B., of S. C.; J. C. T., of Ill.; J. D. H., of Ill.; H. G., of L. I.; S. L. W., of Pa.; T. G., of N. Y.; J. J. O., of Miss.; A. R. K., of N. Y.; A. F. A., of Ct.; L. & B., of Mass.; J. K., of N. J.; W. M., of La.; J. & S., of N. Y.; C. W., of N. H.
Important Items.
COMPLETE SETS OF VOLUME XII EXHAUSTED.—We regret that we are no longer able to furnish complete sets of the present volume. All the back numbers previous to No. 27 are entirely exhausted.
GIVE INTELLIGIBLE DIRECTIONS.—We often receive letters with money enclosed, requesting the paper sent for the amount of the enclosure but no name of State given, and often with the name of the post office also omitted. Persons should be careful to write their names plainly when they address publishers, and to name the post office at which they wish to receive their paper, and the State in which the post office is located.
Subscribers to the SCIENTIFIC AMERICAN who fail to get their papers regularly will oblige the publishers by stating their complaints in writing. Those who may have missed certain numbers can usually have them supplied by addressing a note to the office of publication.
Terms of Advertising.
Twenty-five cents a line each insertion. We respectfully request that our patrons will make their advertisements as short as possible. Engravings cannot be admitted into the advertising columns.
All advertisements must be paid for before inserting.
IMPORTANT TO INVENTORS.
The rapid growth of our Patent Agency Business, during the past three years, has required a great addition to our ordinary facilities for its performance, and we are now able to announce the completion of a system which cannot fail to arrest the attention of all who have business of this kind to transact.
OUR PRINCIPAL OFFICE
will be, as usual, at No. 123 Fulton street, New York. There is no other city in the Union so easy of access from every quarter as this, consequently there are greater advantages in regard to the transmission of models, funds, &c., through the various channels that center in New York. Two of the partners of our firm reside here, and during the hours of business are always at hand to counsel and advise with inventors. They are assisted by a corps of skillful Examiners, who have had many years of active experience in the preparation of cases for the Patent Office.
To render our Patent Agency Department complete in every respect, we have established a BRANCH OFFICE IN THE CITY OF WASHINGTON, on the corner of F and Seventh streets, opposite the United States Patent Office. This office is under the general care of one of the firm, assisted by experienced Examiners. The Branch Office is in daily communication with the Principal Office in New York, and personal attention will be given at the Patent Office to all such cases as may require it. Inventors and others who may visit Washington having business at the Patent Office are cordially invited to call at our office.
A SPECIAL REQUEST.
Our facilities for the speedy preparation of cases previous to the application for the patent being much more extensive in New York than at Washington, we especially require that all letters, models and remittances should be made to our address here.
EXAMINATION OF INVENTIONS.
We have been accustomed from the commencement of our business—twelve years since—to examine sketches and descriptions, and give advice in regard to the novelty of new inventions, without charge. We also furnish a printed circular of information to all who may wish it, giving instructions as to the proper method which should be adopted in making applications. This practice we shall still continue, and it is our purpose at all times to give such advice freely and candidly to all who apply to us. In no case will we advise an inventor to make application unless we have confidence in his success before the Patent Office.
Our extensive experience in mechanical and chemical improvements enables us to decide adversely to nearly one half of the cases presented to us for our opinion, before any expense has occurred in the preparation of the case for a patent.
When doubt exists in regard to the novelty of an invention, we advise in such cases a PRELIMINARY EXAMINATION to be made at the Patent Office. We are prepared to conduct such examinations at the Patent Office through our "Branch Agency," upon being furnished with a sketch and description of the improvement. Our fee for this service will be \$5.
After sufficient experience under this system, we confidently recommend it as a safe precautionary step in all cases before application is made for a patent—not that there will be no rejections under the system. It is impossible to avoid such rejections, and we enter upon an exceedingly wide range taken by the Examiners in the examination of cases; but, nevertheless, many applicants will be saved the expense of an application by adopting this course. Applicants who expect answers by mail must enclose stamp to pay return postage.
THE COSTS ATTENDING AN APPLICATION for a Patent through our Agency are very moderate, and great care is exercised in their preparation. No cases are lost for want of care on our part in drawing up the papers, and if the claims are rejected, we enter upon a speedy examination of the reasons assigned by the Commissioner of Patents for the refusal, and make a report to our clients as to the prospects of success by further prosecution.
A circular containing fuller information respecting the method of applying for Patents can be had gratis at either of our offices.
REJECTED APPLICATIONS.
We are prepared to undertake the investigation and prosecution of rejected cases, on reasonable terms. The close proximity of our Washington Agency to the Patent Office affords us rare opportunities for the examination and comparison of references, models, drawings, documents, &c. Our success in the prosecution of rejected cases has been very great. The principal portion of our charge is generally left dependent upon the final result. All persons having rejected cases which they desire to have prosecuted are invited to correspond with us on the subject, giving a brief history of their case, enclosing the official letters, &c.
FOREIGN PATENTS.
We are very extensively engaged in the preparation and securing of Patents in the various European countries. For the transaction of this business we have offices at Nos. 66 Chancery Lane, London; 29 Boulevard Saint Martin, Paris, and 3 Rue Therienne, Brussels. We think we may safely say that three-fourths of all the European Patents secured to American citizens are procured through our agency.
Inventors will do well to bear in mind that the English law does not limit the issue of Patents to inventors. Any one can take a Patent there.
Circulars of information sent free on application.
Remember the SCIENTIFIC AMERICAN PATENT AGENCY, No. 123 Fulton street.
MUNN & COMPANY, Proprietors.

READ ALL YE THAT ARE FOND OF FISHING—I will send for \$1 a secret art of catching fish as fast as you can pull them out. This is no humbug. Address N. R. GARDNER, Peace Dale, R. I. 42 4*
WANTED—To purchase or sell on commission, new articles for housekeeping or domestic use. Address I. S. CLOUGH, New York City. 1*
MACHINISTS' TOOLS—LEONARD & CLARK, 11 Platt st., New York, manufacturers of Lathes and Planers, and dealers in Steam Engines, Boilers, Wood Tools, Belting, &c. Awarded the gold medal 1855 and '56 of the American Institute, and bronze medal of the World's Fair 1853, for the best lathes on exhibition. Machineshop at Woodna, Orange co., N. Y. 42 4*
THERE IS A TIDE in the affairs of men, which, taken at the flood, leads them to make money by selling or using I. S. Clough's New York device for hiving Croton bugs, ants and cockroaches, and the Patent Tumbler and Revolving Fly and Mosquito Trap. Approved by scientific men, and acknowledged by testimony to be one of the greatest inventions of the age. Two premiums awarded. Clough's Improved Trap, complete in itself, for hiving Flies, Mosquitoes, &c. Extensively sold throughout the country by storekeepers. Capable of catching 3000 per hour. Suitable for southern trade and shipping. Address for agency or traps, I. S. CLOUGH 166 Broadway, N. Y. 1*
AGENCY FOR INTRODUCING NEW INVENTIONS.—Having been engaged the last ten years in introducing new inventions in the housekeeping line, I offer my services to inventors (on very reasonable terms) to sell any new invention used by housekeepers. WM. BURNETT, 166 Broadway. 1*
MACHINISTS' TOOLS—CARPENTER & PLASS 479 First ave., New York, have constantly on hand and make to order all kinds of machinists' tools of superior quality, particularly adapted for railway companies, steam engine builders, &c., whose orders are respectfully solicited, and shipped at short notice—terms moderate. Also a few second-hand tools, one 16 ft. and one 8 ft. iron planer, two slide lathes, 12 and 16 ft., and one 8 ft. face lathe. 42 3*
CLAUDE LORRAINE OR LANDSCAPE MIRRORS—A pleasing and beautiful instrument for viewing clouds, landscapes, &c., particularly adapted for use in the country and at the sea shore. As the mirror condenses or diminishes the view into a true perspective effect, the instrument is invaluable to the artist, and a very desirable companion to the tourist. The Mirror produces instantaneously the most charming reflection of scenery, buildings, &c. McALLISTER & BRO., Opticians, 728 Chesnut st., Philadelphia.
McAllister's Priced and Descriptive Catalogue of Optical, Mathematical, and Philosophical Instruments furnished gratis on application, and sent by mail free of charge. 1*
FIVE HUNDRED THOUSAND LOOMS in the United States.—Wm. H. Howard's Comb Temples, patented May 26, 1857, are already in successful operation. The principle is new; it measures every pick to an equal length, indicates the number of picks per inch, leaves a smooth and equal selvage, without displacing threads or marking cloth; simple, cheap and durable, and destined to supersede all other self-acting temples. Orders for temples, or inquiries for rights to manufacture will receive immediate attention if addressed to GEO. C. HOWARD, 18th, below Market, Philadelphia. 42 4*
THE BEST PLANING MACHINE IN THE WORLD.—Patented Nov. 21, 1854 and Nov. 13, 1855. These patents were obtained for improvements upon the celebrated Woodworth Planing Machine. They received a Gold Medal at the last exhibition of the Massachusetts Charitable Mechanics' Association. Machines of all kinds and sizes constantly on hand, which are warranted to give entire satisfaction, and to be superior to any now in use. For further information address the patentee, JAMES A. WOODBURY, No. 1 Scollay's Building, Court st., Boston, Mass. 42 13*
A WALLET safe against pickpockets or loss sent for \$1. DICKINSON & BATE, Hudson, Mich. 40 4*
WANTED—Old Steam Boilers, 36 to 48 inches diameter, ten in number, or in all, 200 feet in length. Apply to E. WHITNEY, New Haven, Conn. 40 6
SPOKE TURNING MACHINES of Superior quality. Apply to WM. F. REED & CO., 56 Gold st. 41 4*
STEAM PLANING MILL FOR SALE.—Sited five miles from Boston by railroad, and on a stream of water navigable by large vessels. There are four good buildings, two boilers, and an engine of 90-horse power, in a new brick building. Fine stone wharf, where lumber is discharged and stored. The proprietor is compelled to sell in consequence of increasing ill health, and the terms of sale will be made very easy, allowing a term of years on mortgage for two-thirds of the purchase money. This affords an unusual opportunity for an active energetic mechanic, as the mill is now doing a profitable and safe business. For further information inquire of V. B. PALMER, Advertising Agent, Scollay's Building, Court st., Boston, Mass. 41 2*
WOODWORTH PLANERS, STEAM ENGINES, &c.—Twenty-seven years' experience enables me to furnish Woodworth's Planers of all kinds, or both sides, planing and matching, rabbeting, beading, or for moldings or clapboards, in any variety of beautiful construction and great power. Ample evidence of the superiority of my machines will be furnished from parties that have other machines in the same mill. Every machine will be accompanied, if desired, with written warranty. As some parties have been supplied with machines of another make when they supposed they were getting mine, I would advise that purchasers should by none unless my name is on in full. Matteawan steam engines, machinists' tools, cotton and woolen, sash, blind and door machinery, leather banding, &c., furnished at the manufactory at Matteawan, N. Y., or at 62 Courtland street, N. Y. S. B. SCHENCK, Agent. 39
1000 YOUNG MEN can make over 100 per cent. on their profits. Apply (enclosing one stamp) to M. J. COOK, Detroit, Mich. 41 2*
COMMERCIAL AGENTS, able and honest men from New England or New York. A. W. HARRISON, Philadelphia, Pa. 35 13*
L. A. ORCUTT'S Foundry Furnishing Mill, Albany, N. Y. Foundry Facings and foundry materials of every description. Charcoal \$225 per barrel, sea coal per bbl. \$175, softstone per bbl. \$150. Also Rectifying Coal, and Russell's Patent Roofing Materials. 39 4*
INGERSOLL'S IMPROVED HAY PRESS.—The best portable Hand Power Press in use for the purposes of Baling Hay, Straw, Broom Corn, Husks, Hair, Hides, Moss, Hemp, Rags, Wool, Cotton, &c. Prices from \$60 to \$200. Also an improved press for ornamental composition work. Price \$50 and \$65. Also Ingersoll's Patent Saw for felling down trees. This is a perfectly portable machine, has been thoroughly tested during the past winter. Price \$75. All orders filled promptly. Also State and County rights for sale. Circulars containing full information sent on application to the FARMER'S & MECHANIC'S MANUFACTURING CO., Green Point, Kings co., L. I. 37 2*
MACHINERY—WM. MONTGOMERY & CO.'S Portable Upright Steam Saw Mills (embracing Lund's patents), price \$1,500 and \$2,000. Grist Mills, Shingle Machines, Sugar Mills, Pulleys and Shafting, Steam Engines and Boilers, manufactured at the Yongkers Machine Works, Westchester co., N. Y. Office in New York City, 229 Broadway, Room 25 1-2. WM. MONTGOMERY & CO. 38 3*
HARRISON'S GRIST MILLS—20, 30, 36 and 48 inches diameter, at \$100, \$200, \$300, and \$400, with all the modern improvements. Also, Portable and Stationary Steam Engines of all sizes, suitable for said Mills. Also Saws, Elevators, Belting, &c. Apply to 29 3/4 W. S. C. HILLS, 12 Platt st., N. Y.

DR. D. BREED, late Assistant and acting Chief Examiner in the U. S. Patent Office, has established at Washington, D. C., a chemical laboratory for experiment and analysis, in order to test and improve processes of manufacture, and mechanical devices employed in the chemical arts, and to procure and defend patent rights. After many years devoted to chemistry (having studied in the German laboratories) Dr. Breed feels confident in offering his services as a practical chemist to inventors and others interested in the chemical arts and manufactures. 33 5*
PUMPS—BURNAP'S Patent Excelsior Pumps are acknowledged to be the best and most durable force pump in use, and are fast taking the place of all others for steamers, factories, breweries, &c. See engraving in No. 34, this Vol. Scientific American. Address BURNAP & BRISTOL, Albany, N. Y. 34 13*
WOODWORTH'S PATENT PLANING MACHINES of every kind and all prices. A large assortment on hand; and I am prepared to construct any machine to order from ten days to two weeks, and guarantee each machine to be perfect in its construction, and give purchasers entire satisfaction. The patent has expired, and we do not renew it. I make the business exclusive, manufacturing nothing but the Woodworth Machines, and for that reason can make a better article for less money; and with my fifteen years' experience I fully guarantee each machine to come up to what I am willing to recommend, that is, that each machine shall be more than equal to any other manufactured for the same price. JOHN H. LESTER, 57 Pearl st., Brooklyn, N. Y., three blocks above Fulton Ferry. 35 14*
STEAM PUMPS, Boiler Feed Pumps, Stop Valves, Oil Cups, Cocks, Steam and Water Gauges, sold by JAMES O. MORSE & CO., No. 79 John street, New York. 41 13
PECK'S PATENT DROP PRESS.—The best machine in use for stamping jewelry, ornaments, tinware, swedging iron, &c. Supply of all sizes on hand and made to order by the patentee, MILLO PECK, New Haven Conn. State rights for sale. 40 4*
BOILER FLUES.—All sizes, and any length desired, promptly furnished, by JAMES O. MORSE & CO., No. 79 John street, New York. 41 13
WROUGHT IRON PIPE—Plain and galvanized sold at wholesale, by JAMES O. MORSE & CO., No. 79 John street, New York. 41 13
ENGRAVING ON WOOD AND MECHANICAL DRAWING, by RICHARD T. EYCK, Jr., 123 Fulton street, N. Y., Engraver to the Scientific American. 164f
TO INVENTORS AND MANUFACTURERS.—Rooms with power, for the exhibition of machinery, can be had in the Depot Buildings, corner of Elm and Franklin sts. The location is extremely desirable for its prominence and convenience to the business part of the city. Apply to T. BENNETT, on the premises. 43 14
MACHINE BELTING, Steam Packing, Engine Hose.—The superiority of these articles manufactured of vulcanized rubber is established. Every belt will be warranted superior to leather, at one-third less price. The Steam Packing is made in every variety, and warranted to stand 300 degs. of heat. The hose never needs oiling, and is warranted to stand any required pressure. Together the receipts selectees are those adapted to mechanical purposes. Directions, prices, &c., can be obtained by mail or otherwise, at our warehouse. NEW YORK BELTING AND PACKING COMPANY John H. Cheever, Treasurer, No. 6 Dey street, N. Y. 40 14
AMERICAN FIRE ALARM TELEGRAPH.—Under patents to Channing & Farmer of May 4, 1852, and May 19, 1857. Contractors wishing to erect a Signal System, an Alarm System, or both combined, in any northern city, except California cities, Boston and Philadelphia, or in New Orleans, will please address WM. F. CHANNING, Boston. 40 3*
\$1,000 FOR A VALUABLE consideration we have furnished to J. R. STAFFORD, Practical Chemist, 16 State st., N. Y., a selection of one hundred of our Choicest Receipts for Cooking Baking, &c., the same being in constant use in our Hotel. The receipts selectees are those adapted to the best adapted to the use of private families. SIBBON LELAND & CO. Metropolitan Hotel, Broadway, New York April 6, 1857.
The above receipts have been added to J. R. Stafford's Family Receipt Book, which now contains more than 250 of the most valuable receipts that have ever been published. The above book also contains a chart 23 by 33 inches, on which are 24 splendidly engraved Anatomical Illustrations of the Human Body. This magnificent chart should be hung up in every family sitting-room. The Book and Chart will be sent free of postage on receipt of 12 cents or stamps, by J. R. STAFFORD, Practical Chemist, 16 State st., New York. 38 14
BOILER INCrustATIONS PREVENTED.—A simple and cheap condenser manufactured by Wm. Burdon, 102 Front st., Brooklyn, which takes every particle of lime or salt out of the water, rendering it as pure as Croton, before entering the boiler. Persons in want of such machines will please state what the bore and stroke of the engines are, and what kind of water is to be used. 27 14
FORBES & BOND, Artists, 89 Nassau st., N. Y., Mechanical and general Draughtsmen on wood, stone, &c.
LAP-WELDED IRON BOILER TUBES.—Prosser's Patent.—Every article necessary to drill the tube-plates, and set the tubes in the best manner. 18 14 THOS. PROSSER & SON, 28 Platt st., N. Y.
50 STEAM ENGINES.—From 3 to 40-horse power also portable engines and boilers; they are first class ones and will be sold cheap for cash. WM. BURDON, 102 Front st., Brooklyn. 27 14
GOLD QUARTZ MILLS of the most improved construction will crush more quartz and do it finer than any machine now in use, and costs much less. WM. BURDON, 102 Front st., Bro. Kyn. 27 14
OIL! OIL! OIL!—For railroads, steamers, and for machinery and burning.—Pease's Improved Machinery and Burning Oil will save fifty per cent., and will not gum. This oil possesses qualities vitally essential for lubricating and burning, and found in no other oil. It is offered to the public upon the most reliable, thorough, and practical test. Our most skillful engineers and chemists pronounce it superior and cheaper than any other, and the only oil that is in all cases reliable and will not gum. The Scientific American, after several tests, pronounced it "superior to any other they have ever used for machinery." For sale only by the inventor and manufacturer. F. S. PEASE, 61 Main st., Buffalo, N. Y.
N. B.—Reliable orders filled for any part of the United States and Europe. 40 14
NEW HAVEN MFG. CO.—Machinists' Tools, Iron Planers, Engine and Hand Lathes, Drills, Bolt Cutters, Gear Cutters, Chucks &c., on hand and finishing. These Tools are of superior quality, and are for sale low for cash or approved paper. For cuts giving full description and prices, address, "New Haven Manufacturing Co., New Haven, Conn. 40 14
HARRISON'S 30 INCH GRAIN MILLS.—Latest Patent.—A supply constantly on hand. Price \$200. Address New Haven Manufacturing Co., New Haven, Conn. 40 14
WOODWORTH'S PATENT PLANING MACHINES—Patent expires Dec. 27th, 1856. Machines constantly on hand, together with steam engines and boilers of all sizes. Lathes, planers, drills, circular saw mills, belting of leather and rubber of the best quality. Orders respectfully solicited at the Machinery Depot, 163 Greenwich st., N. Y. A. L. ACKERMAN. 36 8
