## Scientific American.

\*. PEESONS who w ite to us, expecting replies through this column, and those who may desire to make con-tributions to it of briefinteresting facts, must always observe the strict rule, viz., to furnish their names, otherwise we cannot place confidence in their com-munications.

ume: therefore, when our subscribers order missing numbers and do not receive them promptly, they may reasonably conclude that we cannot supply them.

- J. J. W. A., of Md.-The "cheapest artificial stone" which we know of is made by mixing sand and lime to-gether, then molding it like brick, and allowing it to
- F. D., of N. J.—Any of the resin gums dissolved with turpentine will paste labels on tin. Lac or a copal varnish will answer your purpose.
- W. & P., of Pa.-James Bogardus, of this city, manu factures mills capable of grinding sand and any other refractory substance.
- J. W., of Iowa .- Pure white lime, with about on ouuce of dissolved glue to the gallon, is the best white-wash for the interior of houses. For an outside white wash, add one ounce of salt to the gallon of lime and half a pint of sweet milk.
- M. W, of Ga.-The only novelty in your ferry pro peller is the arrangement for shifting it to let vehicles pass. There are steam ferries in England on which a cog-wheel, arranged in the center of the boat and driven by a steam-engine, picks up a chain whose ends are fastened to both shores. One of this kind runs across Portsmouth harbor between Portsmouth and Gos-
- R. H. S., of N. C.-It is supposed by some persons that the mouth of the Mississippi is higher than its source, be ause of the increased diameter of the earth toward its equator. If this were true, of course the river would be running up hill, a feat which the "father of waters" is scarcely able to execute, we think, without employing a force pump of considerable
- C. L. W., of Fla.-No distinct work has ever been issued devoted to the history of rotary steam-engines. In Vol. IV. of the Scientific American, which we are unable to supply, you will find an excellent history of this class of engines.
- E A., of S C .- To "run the gauntlet" is to walk be tween the lines formed by a regiment of soldiers consisting of 3,000 men, each man striking the culprit with a rod, a treatment notat all agreeable.
- A. A. W., of N. Y.-In Vol. IV. of the Scientific AMFRICAN, page 192, you will find an illustration of a rotary steam-engine exactly like yours. We cannot
- D. R., of N. C.-We do no not know the address of any one engaged in the manufacture of common bottle glass. By addressing H. J. Baker & Bro., of this city, you can probably ascertain.
- C. F., of Ohio .- Applications for the extension of patents must be made before the original term expires. All needful information upon this subject you will find in No. 32 of the present volume of the SCIENTIFIC AMB-
- J. M., of N. Y.—We overlooked the notice to which you refer. Address Secreta y, Society of Arts, London. W. C., of Ind .- You ought by all means to have your improvement illustrated in the SCIENTIFIC AMERICAN. It goes among the very class you want to reach-mechanics and manufacturers-and circulates in every State in the Union. We are glad to know that you propose to get us a club of subscribers for the new volume. We will send you a prospectus for the purpose of getting up your list.
- H. K., of Mass .- The question of the potato rot was discussed by us at the close of the last volume, and un-less some very novel views are brought forward we are not prepared to enter the arena again.

Money received at the Scientific American Office on account of Patent Office business, for the week ending Saturday, May 14, 1859 :-

D. C. S., of N. Y., \$25; W. D. T., of N. Y., \$25; R. F. W., of N. H., \$30; J. R. R. M., of Ill., \$25; H. B., of N. Y., \$20; T. P. M., of N. J., \$25; D. B. R., of Ill., \$30; D. W., of L. IMPORTANT TO INVENTORS.

IMPORTANT TO INVENTORS.

AMERICAN AND FOREIGN PATENT A SOLICITORS.—Messrs. MUNN & CO., Proprietors of the Scientific American, continue to procure patents for inventors in the United States and all foreign countries on the most liberal terms. Our experience is of thirteen years' standing, and our facilities are unqualed by any other seency in the world. The long experience we have had in preparing specifications and drawings has rendered us perfectly conversant with the mode of doing business at the United States Patent Office, and with most of the inventions which have been patented. Information concerning the patentability of inventions is freely given, without charge, on sending a consultation may be had with the firm, between nine and four o'clock, daily, at their principal office. 37 Park Row. New York. We established, over a year ago, a Branch Office. This office is under the general superintendence of one of the firm, and is in daily communication with the Principal Office in New York, and personal attention will be given at the Patent Office, are cordially invited to call at our office.

We are very extensively engaged in the preparation and securing of patents in the various European countries. For the transaction of this business we have offices at Nos. 66 Chancery Lane, London; 29 Boulevard St Martin, Paris; and 35 Rue des Eperonniers, Brussels. We think we may safely say that three-fourths of all the European patents accured to American etizens are procured through our Agency.

Inventors will do well to bear in mind that the English law does not limit the issue of patents to inventors. Any one can take out a patent there.

Circulars of information concerning the proper course to be pursued in obtain ing patents to inventors. Any one can take out a patent there.

Circulars of information concerning the proper course to be pursued in obtaining patents bring the order of the branches.

The annexed letters from the last two Commissioners of Patents we commend to the person of all per-

of the branches.

The annexed letters from the last two Commissioners of Patents we commend to the perusal of all persons interested in obtaining patents:—
MESSERS MUNN & CO.—I take pleasure in stating that while I held the office of Commissioner of Patents, MORE THAN ONE-FOURTH OF ALL THE BUSINESS OF THE OFFICE came through your hands. I have no doubt that the public confidence thus indicated has been fully deserved, as I have always observed, in all your intercourse with the Office, a marked degree of promptness, skill, and fidelity to the interests of your employers.

Yours, verytruly, CHAS. MASON.

Immediately after the appointment of Mr. Holt to the office of Postmaster-General of the United States, he addressed to us the subjoined very gratifying testimonial:—MUNN & CO. It officed would be readed.

he addressed to us the subjoined very granifing destruction and the addressed to us the subjoined very granifing destruction bear testimony to the able and efficient manner in which you discharged your duties as Solicitors of Patents while I had the honor of holding the office of Commissioner. Your business was very large, and you sustained (and, I doubt not, justly deserved) the reputation of energy, marked ability, and uncompromising fidelity in performing your professional engagements.

Very respectfully, your obedient servant.

J. HOLT.

Communications and remittances should be addressed to No. 37 Park-row, New York.

No. 37 Park-row, New York.

INVENTORS' EXCHANGE, 37 PARK ROW, and 145 Naesau Street, New York, adjeining and over the Patent Offices of Munn & Co.—Perms, Regulations, &c.:—1. All persons sending Models, Designs, Drawings, or other articles, occupying one square foot or less will be charged \$\frac{3}{2}\$ per year.—payable \$\frac{3}{2}\$ semi-annually—in advance. 2 Two dollars extra for every additional square foot, not exceeding in allifive square feet: when larger, a special agreement will be nade. 3. When the patentee or his agent (other than ourselves) is present, to exhibit his invention and effect sales, the charge per week will be by special agreement. 4. Any Models, Drawings, &c., may be taken away at any time, but no deduction will be allowed from the entrance fee. 5. Persons wishing us to act as agents, can so inform us, and we will send a Power of Attorney to be signed and returned.

Patent Reports kept on hand, to which the public can at all times have access. All who have valuable inventions, and not the means to bring them out, and those who have patents that are infringed upon by others, are especially invited to call. Manufacturers can here advantageously exhibit specimens of their goods on the above terms, and should they wish our services, we will act as agents for a reasonable commission. Having a hall for exhibition (150 by 40 feet) in the center of all business, and agents in every section of the country, our facilities for negotiating patents cannot be surpassed. Pamphlers containing a list of Patents on exhibition and for sale, will be sent to any one. on the receipt of six letter stamps. Persons who send Models, &c., must in all cases prepay transit expenses, and mark their packages:—'Inventors' Exchange, 37 Park Row, New York City.'' And when they desire answers, will enclose a letter stamp.

CROZIER'S PATENT BARREL MA-CHINERY—Five hundred barrels can be made in a day by one set of machines. For machines or rights for State or county, apply to PETER WELCH, Oswego, N.Y., or to the agents, SLIPPER & GOADBY, No. 2 Broadway, New York.

THE ENTIRE OR ANY PORTION OF THE right to Gardiner's Combined Chair and Lounge for sale. Illustrated in No. 37 of the present volume of the SOLENTIFIC AMERICAN. Apply to F. J. GARDNER, Washington, N. C. 378\*

ENGLISH, FRENCH AND GERMAN BOOKS, periodicals, &c., imported to order-by the single copy or in quantity-for the public and trade. Orders forwarded per steamers as often as once a week, and all commissions promptly attended to by JOHN WILEY, 56 Walker st., New York.

\*\* Catalogues furnished gratis or mailed on receipt of postage stamps.

JENK'S PATENT AUTOMATIC FLY AND MOSQUITO TRAPS—Goes by clockwork, catches them by the quart, and k list them by machinery. Will be found, in use, to be the most perfect trap ever introduced. Price \$\$ 50. The trade supplied on most liberal terms by the patentee,

STEPH. WM. SMITH, 534 Broadway, New York. Orders by mail particularly attended to.

37 1\*

ESTERBROOK AND MONCK TON STAIR
BUILDER.—The "American Stair Builder" contains a complete ex osition of the whole subject of planning and constructing staircases and handralis in an entirely new and original manner, together with de igns for staircases, handralis, newels and balusters, &c. 240 distinct designs. 1 vol. 4to. Price \$6. For sale by JOHN WILEY, 56 Walker st., New York.

\*\*Copies mailed on receipt of price.

27 lt

A SUBSTITUTE FOR LEAD PIPE.—A New and Valuable Article, viz., a Semi-Elastic Pipe or Hose which can be used with pumps of any kind, for suction, forcin, or conducting water in any and every place where hipe is required. Its properties are :—It imparts no deleterious effects to the water, nor in any way effects it unpleasantly after a few days use; it is sufficiently elastic to be bent into curves, and it is unaffected by heat or cold: it will not burst if water is frozen into it; it is not injured by exposure to the sun or atmosphere; it is composed of ingredients indestructible, except by fire. Samples of it have been tested by use for three years, without the least apparent decay, and it can be made to bear pressure as high as 400 lbs. to the square inch. Price not far from that of lead pipe. Circulars with prices and particulars furnished by the manufacturers. BOSTON BELTING COMPANY, corner of Summer and Chauncey streets, Boston, Mass.

31 13\*

Chauncey streets, Boston, Mass. 31 13\*

PATENT COMPOSITION BELITS—PATENT PACKING—The Company have on hand and are ready to supply all orders for their superior Composition Machine Belting. They are proof against cold, heat, cill, water, gasee, or friction, and are superior to leather in durability, and much cheaper in cost. The compositiongives to these belts uniform durability and great strength, causing them to hug the pulley so perfectly that they do more work than any other belts of the same inches. The severest tests and constant use in all sorts of places during the last 14 months has proved their superiority, and enables the Company to fully guarantee ever belt purchased from them. Manufacturers and mechanics are invited to call, examine, and test these belts. The Patent Packing for planed joints is in every way superior to any other article ever used for that purpose. A liberal discount allowed to the trade. "New York and Northampton Belting and Hose Co.," E. A. STERN, Treasurer, 217 Fulton st., New York.

PECKSTONE ON COAL GAS.—JUST REolume; price \$7 50. 37 1t JOHN WILEY, 56 Walker st., New York.

PLENDID PHOTOGRAPHS OF THE celebrated Corlies Steam Engine have just been taken, and will be mailed to any part of the country on the receipt of 75 cents in postage stamps, by addressing W.M. A. HARRIS, care of Corliss Steam Engine Co., Providence, R. I.

USE OF LEAD PIPE FOR SERVICE PIPE.—
Now ready, Collection of Reports (condensed) and
Opinion of Chemists in regard to the use of Lead Pipe
for Service Pipe in the distribution of water for the
supply of cities. 1 vol., 8vo. Price \$150. Trade supplied by JOHN WILEY, 56 Walkerst., New York.

\*\*\* Copies mailed on receipt of price.

THE SCIENTIFIC AMERICAN SIGNS, for Munn & Co., were painted by Ackerman & Miller. Refer to the Commercial Agency, McKillop & Wood, Park Buildings. All communications for signs, banners, or other ornamental work, attended to with dispatch. ACKERMAN & MILLER, 101 Nassau st., next to the New York Herald Office. 27 3m\*

500 AGENTS WANTED-TO ENGAGE IN a new, honorable and lucrative business. For full particulars, address M. M. SANBORN, 343t\* Brasher Falk, N. Y.

WHITMAN'S TURBINE WIND WHEEL.

-Territorial or shop rights for sale. For particulars, inquire of the inventor, E. WHITMAN, at South Abington, Mass.

STEAM ENGINES, SLIDE LATHES, Planing Machines, Drills, &c.—Orders taken for all descriptions of machines for working in wood or the control of the control o

WARTH'S SELF-ACTING WOOD-TURN-ING IATHES.—The best and most practical now in use; one boy will accomplish the work of four men. State and County rights for sale. Address A. WARTH, care W. H. Bertling, 23 Chambers st., New York, or the manufacturers, who have machines of all sizes on hand. Also a general assortment of machinistat' tools. Circulars sent. Address CARPENTER & PLASS, 479 First ave., New York.

WOODWORTH PLANING MACHINES.—
Sash, Tenoning and Mortising Machines, Steam
Engines, Slide Lathes, Drills, &c., at greatly reduced
prices. Address CHARLES H. SMITH, 135 North
Third street, Philadelphia. 32 6\*

WELLS' PATENT IMPROVED CIRCU-lar Saw Mills, acknowledged the best in use. Also, Portable and Stationary Steam-Engines of supe-rior excellence; Water Wheels, Mill Gearins, &c. Address H. WELLS & CO., at their old stand, Flor-ence, Hampshire.county, Mass.

HARRISON'S 20 AND 30 INCH GRAIN
Mills constantly on hand. Address New Haven
Manufacturing Co., New Haven, Conn. 27 18

WROUGHT IRON PIPE FROM ½ OF AN inch to six inches bore; Galvanized Iron Pipe (a substitute for lead). Steam Whistles, Stop Valves and Cocks, and a great variety of fittings and fixtures for steam, gas, and water, sold at wholesale and retail. Store and Manufactory 76 John, and 29, 31 and 33 Platt st., New York.

JAMES O. MORSE & CO. 3118

GUILD & GARRISON'S STEAM PUMPS for all kinds of independent steam pumping, for sale at 55 and 37 First street, Williamsburgh, L. I., and 301 Pearl street, New York. GUILD, GARRISON & CO.

WOODWORTH PLANERS—IRON FRAMES
to plane 18 to 24 inches wide—at \$90 to \$110. For
sale by S. C. HILLS, 12 Platt street New York. 27 tf

WARREN'S TURBINE WATER WHEEL Damon, Jr. The vast number of these wheels now in operation, and the invarible success attendig them, is the best evideuce of their advantages over ordinary wheels in the economy of water power. The American Water Wheel Co. will send to applicants (enclosing two stamps) their pamphlet, containing engravings of turbines and a treatise on hydraulics. Address, A. WARREN, Agent, No. 31 Exchange st., Boston Mass. 32 9t\*

JOHN W. QUINCY & CO., IMPORTERS and dealers in Metals, Cut Nails, &c., 98 William street, New York.

GAGE COCKS, OIL CUPS, GAS COCKS, Steam Gages, Globe, Angle and Governor Valves. Flange Cocks, Pumps, &c., manufactured and for sa by HAYDEN, SANDERS & CO., No. 306 Pearl at New York.

HARRISON'S GRIST MILLS—20, 30, 36 AND 48 inches diameter, at \$100, \$200, \$300 and \$400, with all the modern improvements. Also, Portable and Stationary Steam Engines of all sizes, suitable for said Mills. Also, Bolters, Elevators, Belting, &c., &c. Apply to 8. C. HILLS, 12 Platt st., New York. 29 e3w

CORLISS' PATENT STEAM ENGINES—
On application, pamphlets will be sent by mall containing statements from responsible manufacturing companies where these engines have been furnished, for the saving of fuel, in periods varying from 2½ to 5 years. (The "James" Steam Mills," Newburyport, Mass., paid \$19,734 22, as the amount saved in fuel during five years. The cash price for the new engine and boilers was but \$19,600.) These engines give a perfectly uniform motion under all possible variations of resistance. Two hundred and fifty, varying from about 20 to 500-horse power, are now in operation. Boilers, shafting, and gearing.

CORLISS STEAM ENGINE CO.,
15 26\*

**POILER FLUES** FROM 1 % INCH TO SEVEN inches outside diameter, cut to any length desired, promptly furnished by JAMES O. MORSE & CO., 76 John st., New York.

OIL! OIL!—FOR RAILROADS, ST EAMERS, and for machinery and burning. Pease's Insproved Machinery and Burning Oil will save fifty per cent., and will not gum. This oil possesses qualities vitally essential for lubricating and burning, and found in no other oil. It is offered to the public upon the most reliable, thorough and practical test. Our most skillful engineers and machinists pronounce it superior and cheaper than any other, and the only oil that is in all cases reliable and will not gum. The Scientific American, after several tests, pronounced it superior to any other they have ever used for machinery." For sale only by the inventor and manufacturer, F. S. PEASE, 61 Mains t, Buffalo, N. Y. N. B.—Reliable orders filled for any part of the United States and Europe.

STEAM ENGINES, STEAM HOILERS, Steam Pumps, Saw and Grist Mills, Marble Mills, Rice Mills, Quartz Mills for gold quartz, Sugar Mills, Water Wheels, Shafting and Pulleys. The largest ascortment of the above in the country, kept constantly on hand by WM. BURDON, 102 Front street, Brocklyn, N. Y.

MACHINE BELITING, STEAM PACKING, ENGINE HOSE.—The superiority of these articles, manufactured of vulcanized rubber, is established. Every belt will be warranted superior to leather, at one-third less price. The Steam Packing is made in every variety, and warranted to stand 30 degs. of heat. The bose never needs oiling, and is warranted to stand any required pressure; together with all varieties of rubber adapted to mechanical purposes. Directions, prices, &c., can be obtained by mail or otherwise, at our warehouse. NEW YORK BELITING AND PACKING COMPANY. JOHN H. CHEEVER, Treasurer. Nos. 37 and 38 Park Row, New York.

THE AUBIN VILLAGE GAS-WORKS WERE erected last year by one city and several village companies to their entire satisfaction. Towns having only fifty consumers of gas can rely on the stock.paying dividends; and if one hundred, 10 per cent will be guaranted. For references, apply to the Company, No. 44 State street, Albany, N. Y.

CARY'S CELEBRATED DIRECT ACTING Self-Adjusting Rotary Force Pump, unequalled in the world for the purpose of raising and forcing water, or any other fluid. Manufactured and sold by CARY & BRAINARD, Brock port, N. Y. Also for sale by J. C. CARY, 240 Broadway, New York City.

FELT FOR STEAM BOILERS, PIPES, ship sheathing, marble-polishers, jewelle s, and calico printers' use, manufactured by JOHN H. BACON. Winchester. Mass.

A SUCCESSFUL, DURABLE AND ECONOMICAL ROTARY ENGINE. The Holy Patent Rotary Engine and Rotary Pump have now become well-known, and are in use for a wriety of purposes in almost every State in the Union. They are regarded by engineers and practical men to be among the most valuable improvements of the age. The patents has now run a little over four years, and has gained for itself a reputation unprecedented in the history of any patented article. The subscriber will dispose of exclusive State rights either to vend or to manufacture and vend the same. Full descriptions of the improvements, with certificates, &c., and any further information, can be obtained by addressing H. C. SILSBY, Seneca Falls, N. Y., who is also sole owner of the Holly Patent Turbine Water-wheel (the cheapest and best turbine wheel in use), rights of which are offered as above.

RON PLANERS AND ENGINE LATHES
of all sizes, also Hunc Lathes, Drills, Bolt Cutters, Gear Cutters, Chucks, &c. on hand and finishing.
These tools are of superior quality, and are for sale low
for cash or approved paper. For cuts giving full description and prices, address "New Haven Manufacturing
Co., New Haven, Conn.'
27 13

HOYT BROTHERS, MANUFACTURERS OF patent-stretched, patent-riveted, patent-jointed, Oak-Leather Belting; Store, 28 and 30 Spruce street. Manufactory, 210, 212, 214 and 216 Ethridge st., New York. A "Treatise on Machinery Belting" is furnished to application, by mail or otherwise—gratis.

LARD OIL MANUFACTURERS—MESSRS. Oil of the best quality, for machinery or burning, in Bullett st., four doors below Main, Louisville, Ky. 25 tf

BUTCHER'S IMPERIAL CAST STEEL FILES—The subscribers keep constantly on hand a very large assortment of the above celebrated files, which are acknowledged to be unequaled in quality, and to which the attention of railroad companies, engineers, and machinists is invited.

BARTON & SCOTT,
No. 18 Cliff st., New York.

SECOND-HAND MACHINERY AT VERY Downies of cash.—Steam-Engines. Blide Lathes, Planing Machines, Drille, Slotting Machines, &c.; also a variety of Mortising, Tenoning, and Sash Machines, &c., all warranted in good running order. Address CHARLES G. WILLCOX, 135 North Third st., Philadelphia, Pa.

HYDRAULIC JACKS OF 15, 20, AND 25 Hydraulic Presses of 15 tuns power, price \$150. For sale by JAMES O. MORSE & CO., 76 John and 29, 31 and 33 Plettsts., Naw York.

MESSIEURS LES INVENTEURS— Avis Important.—Les inventeurs non familiers Avis Important.—Les inventuer non familiers avec la langue Anglaise, et qui prefereraient nous communiquer leurs inventions en Francais, peuvent nous addresser dans leur langue natale. Envoyez neus un dessin et une description concise pour notre examen. Toutes communications seront recues en confidence.
