# ATENTS The parties consulted are honorable men, the inventor does to built buil The First Inquiry that presents uself to

than one third of all patents granten are obtained by this firm. Those who have made inventions and desire to consult with us, are cordially invited to do so. We shall be happy to see them in person, at our office, or to advise them by letter. In all cases they may expect from us an *homest* opinion. For such consultations, opinion, and a divice, or make no charge. A pen-and-ink sketch, and a description of the invention should be sent, together with stamps for return postage. Write plainly, do not use pencil nor pale ins', be brief. All business committed to our care, and all consulta-tions, are kept by us secret and strictly confidential. Ad-dress MUNN & CO. 37 Park Row, New York.

In Order to Apply for a Patent, the law requires that a model shall be furnished, not over a foot in any di-mensions,—smaller, if possible. Send themodel by express, pre-paid, addressed to Munn & Co., 37 Park Row, N. Y., together with a description of its operation and merits. On receipt thereof we will examine the lavention careful-ly and advise the party as to its patentability, free of charge.

On ceceipt thereof we will examine the tavenility, free of ly and advise the party as to its patentability, free of charge. The model should be neatly made of any suitable mate-rials, strongly fastened, without glue, and neatly paint-ed. The name of the inventor should be engraved or paint-ed upont. When the inventor consists of an improve-ment upon some other machine, a full working model of the whole machine will not be necessary. But the model must be sufficiently perfect to show, with clearness, the nature and operation of the improvement. New medicines or nedical compounds, and useful mix-tures of all kinds, are patentable. When the invention consists of a medicine or compound, samples of the article must be furnished, neatly put up. Also, send us a full statement of the ingredients, propor-tions, mode of preparation, uses, and merits. **Preliminary Examination.-**.fn order to obtain a

tions, mode of preparation, uses, and merits. **Preliminary Examination.**--fin order to obtain a **Preliminary Examination make out a written descrip-**tion of the invention in your own words, and a rough pencil or pen-and-ink sketch. Send these with the fee of §5 by mail, addressed to MUNN & CO., 37 Park Row, and in due time you will receive an acknowledgment there-of, followed by a written report in regard to the patentabil-ity of your in provement. The Preliminary Examination consists of a special search, which we make with great care, among the models and patents at Washington to ascertain whether the improvement presented is patent-able. able

Quick Applications.—When, from any reason, parties are desirous of applying for Patents or Caveats, in GREAT HASTE, without a moment's less of time, they have only to write or telegraph us specially to that effect, and we will make special exertions for them. We can prepare and mail the necessary papers at less than an bour's notice, if required.

& CO., 37 Park Row, for full particulars.
Ca veats. --A Caveat gives a limited but immediate protection, and is particularly useful where the invention is not fully completed, or the model is not ready, or further time is wanted for experiment or study. After a Caveat has been filed, the Patent Office will not issue a patient of the same invention to any other person; without giving notice to the Caveator, who is then allowed three months time to file in an application for a patent. A Caveat, to be of any value, should contain a clear and concise description of the invention, so far as it has been completed, illustrated by drawings when the object admits in order to file a Caveat the inventor needs only to send us a letter containing a sketch of the invention, with a description in his own words. Address MUNN & CO., 37 Park Row, N. Y.
Additions can be made to Caveats at any time. A Caveat runs one year, and can be renewed on payment of \$10 a year for as a long a period as desired.

Jean for as long a period as desired. Interferences.--When each of two or more persons claims to be the first inventor of the same thing, an "in-terference" is declared between them, and a trial is had before the Commissioner. Nor does the fact that one of the parties has already obtained a patcent prevent such an interference; for, although the Commissioner has no pow-er to cancel a patcent already issued, he may, if he finds that another person was the prior inventor, give him also a patcent, and thus place them on an equal footing before the courts and the public

A patent, and thus place them on an equily footing before the courts and the public Foreign Patents, --American Inventors should bear anable to the patentee in this country is worth equally as as much in England and some other forek n countries. Five Patents--American, English, French, Belgian, and Prussian--Mill secure an inventor exclusive monopoly to his discovery among ONE HUNDEED AND THIETY MILLIONS of the most intelligent people in the world. The tacili-ties of business and steam communication are such that patents can be obtaine, a broad by our citizens almost as easily as at home. The majority of all patents taken out by Americans in foreign countries are obtained through the SOIENTIFIC AMERICAN PATENT A GENOY. A Circolar containing further information and a Synopsis of the Pat-ent Laws of various concerning Foreign Patents, Reissues,

# Scientific American.

PATENT CLAIMS .- Persons desiring the claim of any invention, patented within thirty years. can obtain a copy by addressing a note to this office, giving name of patentee and date of patent, when known, and i closing \$1 as a fee for copying. We can also furnish a sketch of any patented machine to accompany the claim, at a reasonable additional cost. Address MUNN & CO. Patent Solicitors, No. 37 Park Row, New York,

RECEIPTS.-When money is paid at the office for subscriptions, a receipt for it will be given; but when subscribers remit their money by mail, they may consider the arrival of the first paper a bona-fide acknowl edgment of their funds.

 ADDITIONAL TESTIMONIALS.
 LORG EDDY, Sullivan Co., N. Y, at Basket Station, }

 N. Y. & Eric Railway, April 3, 1867.
 Mr. GEORGE TALLOCT, New York:
 Dear Sir - You will oblige me by scading some of Your pamphiets to answer the numerous questions asked me by many mill owners who are constantly coming to see my mill perform. Our Reynolds Turbine Wheel is usaufacturing all kinds of lumber very rapidly. To day we timed the 54-inch circular saw and found it cut through a 30-inch hemlock log, 30 feet long, in about 26 seconds. My impression is that this speed of sawing has never becen excelled, if ever competed with.
 Hoping you will be eminently successful in your business. I remain yours truly, JOHN McDUFFIE.
