

PATENTS

The first inquiry that presents itself to one who has made any improvement or discovery is: "Can I obtain a Patent?" A positive answer can only be had by presenting a complete application for a Patent to the Commissioner of Patents.

Messrs. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, have been actively engaged in the business of obtaining patents for over twenty years—nearly a quarter of a century.

Those who have made inventions and desire to consult with us are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter.

Preliminary Examination.—In order to obtain a Preliminary Examination, make out a written description of the invention in your own words, and a rough pencil or pen-and-ink sketch of the same.

In Order to Apply for a Patent, the law requires that a model shall be furnished, not over a foot in any dimensions—smaller, if possible. Send the model by express, prepaid, to MUNN & CO., 37 Park Row, N. Y., together with a description of its operation and merits.

Reissues.—A reissue is granted to the original patentee, his heirs, or the assignees of the entire interest, when by reason of an insufficient or defective specification the original patent is invalid, provided the error has arisen from inadvertence, accident, or mistake without any fraudulent or deceptive intention.

Interferences.—When each of two or more persons claims to be the first inventor of the same thing, an "interference" is declared between them, and a trial is had before the Commissioner. Nor does the fact that one of the parties has already obtained a patent prevent such an interference; for, although the Commissioner has no power to cancel a patent already issued, he may, if he finds that another person was the prior inventor, give him also a patent, and thus place them on an equal footing before the courts and the public.

Quick Applications.—When, from any reason, parties are desirous of applying for Patents or Caveats, in great haste, without a moment's loss of time, they have only to write or telegraph us specially to that effect, and we will make special exertions for them. We can prepare and mail the necessary papers at less than an hour's notice, if required.

Foreign Patents.—American Inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five Patents—American, English, French, Belgian, and Prussian—will secure an inventor a monopoly to his discovery among ONE HUNDRED AND THIRTY MILLIONS of the most intelligent people in the world.

Patents are Granted for Seventeen Years, the following being a schedule of fees:— On filing each Caveat.....\$10 On filing each application for a Patent, except for a design.....\$15 On issuing Original Patent.....\$20 On appeal to Commissioner of Patents.....\$20 On application for Reissue.....\$30 On application for Extension of Patent.....\$50 On granting the Extension.....\$50 On filing a Disclaimer.....\$10 On filing application for Design (seven years).....\$10 On filing application for Design (fourteen years).....\$15 In addition to which there are some small revenue-stamp taxes. Residents of Canada and Nova Scotia pay \$500 on application.

Patent Claims.—Persons desiring the claim of any invention, patented within thirty years, can obtain a copy by addressing a note to this office, giving name of patentee and date of patent, when known, and enclosing \$1 as a fee for copying. We can also furnish a sketch of any patented machine to accompany the claim, at a reasonable additional cost. Address MUNN & CO., Patent Solicitors, No. 37 Park Row, New York.

RECEIPTS.—When money is paid at the office for subscriptions, a receipt for it will be given; but when subscribers remit their money by mail, they may consider the arrival of the first paper a bona-fide acknowledgment of their funds.

CITY SUBSCRIBERS.—The SCIENTIFIC AMERICAN will be delivered in every part of the city at \$4 a year. Single copies for sale at all the News Stands in this city, Brooklyn, Jersey City, and Williamsburg, and by most of the News Dealers in the United States.

Advertisements.

A limited number of advertisements will be admitted in this page on the following terms:— Seventy-five cents a line, each insertion, for solid matter; one dollar a line for space occupied by engravings.

4000 Book Pages a Year THE BEST NEWSPAPER IN THE WORLD. Published Twenty-Two Years.

This paper differs materially from other publications being an illustrated weekly paper containing 16 large pages, devoted to the promulgation of information relating to the various Mechanical and Chemical Arts, Photography, Manufactures, Agriculture, Patents, Inventions Engineering, Mill Work, etc.

Every number contains several beautiful engravings of new machines. All the most valuable discoveries are delineated and described in its issues, so that, as respects inventions, it may be justly regarded as an illustrated Repertory, where the inventor may learn what has been done before him in the same field which he is exploring, and where he may bring to the world a knowledge of his own achievements.

The contributors to the SCIENTIFIC AMERICAN are among the most eminent scientific practical men of the times. Mechanics, Inventors, Engineers, Chemists, Manufacturers, Agriculturists, and people in every walk of life, will find the SCIENTIFIC AMERICAN to be of great value in their respective callings. Its counsels and suggestions will save them hundreds of dollars annually, besides affording them a continual source of knowledge.

An official list of all Patents granted, together with the claims thereof, is published weekly. The form of the SCIENTIFIC AMERICAN is adapted for binding and preservation; and the yearly numbers make two splendid volumes of nearly one thousand quarto pages.

Published Weekly, \$3 a year, \$1.50 half-year, 10 copies for 1 year, \$25. Specimen copies sent gratis. Address MUNN & CO., No. 37 Park Row, New York.
