

PATENTS

The First Invention that presents itself to one who has made any improvement or discovery is: "Can I obtain a Patent?" A positive answer can only be had by presenting a complete application for a Patent to the Commissioner of Patents.

Those who have made inventions and desire to consult with us, are cordially invited to do so. We shall be happy to see them in person, at our office, or to advise them by letter.

PATENTS INTRODUCED.—A gentleman of 10 years' California experience, returns soon to San Francisco, and will introduce good patents in the Pacific States on favorable terms.

1868. Scientific American THE BEST PAPER IN THE WORLD.

Published for Nearly A QUARTER OF A CENTURY.

This Splendid Newspaper, greatly enlarged and improved, is one of the most reliable, useful, and interesting journals ever published.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, people in every profession of life, will find the SCIENTIFIC AMERICAN to be of great value in their respective callings.

The yearly numbers of the SCIENTIFIC AMERICAN make a splendid volume of nearly one thousand quarto pages, equivalent to nearly four thousand ordinary book pages.

Address MUNN & CO., 37 Park Row, New York.

The Publishers of the Scientific American, in connection with the publication of the paper, have acted as Solicitors of Patents for twenty-two years.

A Handsome Bound Volume, containing 150 Mechanical Engravings, and the United States Census by Counties, with Hints and Receipts for Mechanical, mailed on receipt of 25c.

Advertisements.

A limited number of advertisements will be admitted on this page at the rate of \$1 per line. Engravings may head advertisements at the same rate per line, by measurement, as the letter press.

ASBESTOS

THIS Indestructible Mineral differs from all others in possessing fibrous-like fibers which render it capable of being woven into cloth. It is now manufactured (after being crushed or ground) into a fire and water-proof coating for roofs, which can be applied with a brush, and a cement for joints and fissures in stone, wood and metal.

P. B. Sheldon's whereabouts, something of interest to him. Address soon N. Mead, Peekskill, N. Y.

TO MANUFACTURERS AND CAPITALISTS.—Proposals are invited for the patent rights, or an exclusive license to manufacture a new fire-arm possessing the following advantages:
