

ATENTS

The First Inquiry that presents itself to one who has made any improvement or discovery is "Can I obtain a Patent?" A positive answer can only be had by presenting a complete application for a Patent to the Commissioner of Patents.

Messrs. MUNN & CO., in connection with the publication of the Scientific American, have been actively engaged in the business of obtaining patents for over twenty years—nearly a quarter of a century.

Those who have made inventions and desire to consult with us, are cordially invited to do so. We shall be happy to see them in person, at our office, or to advise them by letter.

In Order to Apply for a Patent, the law requires that a model shall be furnished, not over a foot in any dimensions, smaller, if possible.

The model should be neatly made of any suitable material, strongly fastened, without glue, and neatly painted.

When the invention consists of a medicine or compound, or a new article of manufacture, or a new composition, samples of the article must be furnished, neatly put up.

Reissues.—A reissue is granted to the original patentee, his heirs, or the assignees of the entire interest, when by reason of inadvertence or defective specification the original patent is invalid.

Interferences.—When each of two or more persons claims to be the first inventor of the same thing, an "interference" is declared between them, and a trial is had before the Commissioner.

Caveats.—A caveat gives a limited but immediate protection, and is particularly useful where the invention is not fully completed, or the model is not ready.

Quick Applications.—When, from any reason, it is desired to apply for Patents or Caveats, in haste, without a moment's loss of time, they have our office to write or telegraph us, that we can prepare and mail the necessary papers at less than an hour's notice, if required.

Foreign Patents.—American Inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries.

Patents are Granted for Seventeen Years, the following being a schedule of fees:— On filing each caveat, \$10

Patent Claims.—Persons desiring the claim of any invention, patented within thirty years, can obtain a copy by addressing a note to this office, giving name of patentee and date of patent, when known, and inclosing \$1 as a fee for copying.
