

rights.
Messrs. MUNN & CO., in connection with the publication of the SCIENTIFIC AMERICAN, have been actively engaged in the business of obtaining patents for over twenty
years—nearly a quarter of a century. Over Fifty thousands inventors have had benefit from our counsels. More
than one third of all patents granted are obtained by this
arm.

than one third of all patents granted are obtained by this firm.

Those who have made inventions and desire to consult with us, are cordially invited to do so. We shall be happy to see them in person, at our office, or to advise them by letter. In all cases they may expect from us an honest opinion. For such consultations, opinion, and advice, we make no charge. A pen-and-ink sketch, and a description of the invention should be sent, together with stamps for return postage. Write plainly, do not use pencil nor pale lik; be brief.

All business committed to our care, and all consultations, are kept by us secret and strictly confidential. Address MUNN & CO..37 Park Row. New York.

Prellumnary Examination.—In order to obtain a

dress MUNN & CO..3: Park Row, New York.

Prelluminary Examination.—In order to obtain a

Prelluminary Examination make out a written description of the invention in your own words, and a rough
pencil or pen and ink sketch. Send these with the fee of

\$5 by mail, addressed to MUNN & CO., 37 Park Row, and
in due time you will receive an acknowledgment thereoi, followed by a writtenreport in resard to the patentability of your in provement. The Preliminary Examination
consists of a special search, which we make with great
care, among the models and patent at Washington to
ascertain whether the improvement presented is patentab. c.

In Order to Apply for a Patent, the law requires that a model shall be furnished, not over a foot in any dimensions,—smaller, if possible. Send the model by express, pre-paid, addressed to Munn & Co., 37 Park Row, N. Y. together with a description of its operation and ments. On receipt thereof we will examine the invention carefully and advise the party as to its patentability, free of charge.

Creccipt thereof we will examine the invention carefuly and advise the party as to its patentability, free of
the model should be nestly made of any suitable materials, strongly fastened, without glue, and neatly painted. The name of the inventor should be engraved or painted upon it. We need the inventor should be engraved or painted upon it. When the inventor consists of an improvement upon some other machine, a full working model of
the whole machine will not be necessary. But the model
must be sufficiently perfect to show, with clearness, the
sature and operation of the unprovement.

New medicines or medical compounds, and useful mixarts of all kinds, are patentable.

When the invention consists of a medicine or compound,
or a new article of manufacture, or a new composition,
samples of the article must be turnsbea, neatly put up
also, send us a full statement of the largedients, proportions mode of preparation, uses, and merits.

\*\*Meissures.--A reissue is granted to the original pat-

tions mode of preparation, uses, and merits.

\*\*Reissues.\*\*—A reissue is granted to the original patentee, the heirs, or the assignees of the entire interest, when by reason of an insufficient or detective specification the original patent is invalid, provided the error nas arisen trom inadvertence, accident, or mistake without any fraudulent or deceptive intention.

A patentee may, at his option, have in his reissue a separate patent for each distinct part of the invention comprehended in his original application, by paying the required fee in each case, and complying with the other required fee in each case, and complying with the other required fee in each case, and complying with the other respirate specification descriptive of the part or parts of the invention claimed in such division; and the drawing may represent only such part or parts. Address Monna & Co., 37 Park Now, for full particulars.

Interference,—When each of two or more persons claims to be the first inventor of the same thing, an "interference" is declared between the same thing, an "interference" is declared between them, and a trail is had before the Commissioner. Nor does the fact that one of the parties has already obtained a patent prevent such an interference; for, although the Commissioner has no power to cancer a patent arready issued, he may if he finds that another patron was the prior inventor, give him also a patent, and thus place them on an equal footing before the courts and the public

Qrilek Applications.—When, from any reason, parties are desirous of a ppying for Patents or Caveats, in SFEAT HASTE, without a moment's loss of time, they have only to write or telegraph us specially to that effect, and we will make special exertions for them. We can prepare and mail the necessary papers at less than an hour's notice if required.

prepare and mail the necessary papers at less than an hour's notice. If required.

Foreign Patents... Americ'n inventors should bear in mind that, as a general rule, any invention that is variable to the patentee in this country is worth equally as as much in England and some other foreign countr's, Five Patents... American, English, French, Beigian, and Prussian-myll scure an inventor exclusive monopoly to his discovery among one flunded by the most intelligent people in the world. The sacilities of this most intelligent people in the world. The sacilities of this ness and steam communication are such that patents can be obtained through the Scientific Americans of the most intelligent people in the world. The sacilities of this ness and steam communication are such that patents as the obtained through the Scientific American by Americans in foreign countries are obtained through the Scientific American and a Synogsis of the Patent Laws of various countries will be furnished on application to Messrs Minn & Co., For instructions concerning Foreign Patents, Reissues, interferences, Hints on Selling Patents, Rules and Proceedings at the Patent Office, the Patent Laws, etc., see our Instruction Book. Sent free by mail on application. Those who receive more than one copythereof will oblige oy presenting them to their friends.

Address all communications to MILNN & CO., New York City.

No. 37 Park Row, New York City. Office in Washington, Cor. F and 7th streets.
