PATENT OFFICES, American and European,

MUNN & CO., No. 37 Park Row, New York.

For a period of nearly twenty-five years Munn & Co. have occupied the position of leading Solicitors of American and European Patents, and during this extended experience of nearly a quarter of a century, they have examined not less than fifty thousand alleged new inventions, and have prosecuted upward of thirty thousand applications for patents, and, in addition to this, they have made at the Patent Office over twenty thousand Preliminary Examinations into the novelty of inventions, with a careful report on the

This wide experience has not been confined to any single class of inventions but has embraced the whole range of classification, such as Steam and Air Engines, Sewing Machines, Looms and Spinning Machinery, Textile The model should be neatly made of any suitable materials, st

Engineering, Metallurgy, Metal Working, Navigation, Paper Making, Philo- | Designs, Trade Marks, and Compositions can be patented for sophical Instruments, Presses, Printing and Stationery, Railroads and Cars, Sports, Games, and Toys, Stone Working, Surgical Apparatus, Wearing Ap parel, Wood Working.

MUNN & Co. deem it safe to say that nearly one-third of the whole number of applications made for patents during the past fifteen years has passed through their Agency.

CONSULTATIONS AND OPINIONS FREE.

Those who have made inventions and desire to consult with us are cordially invited to do so. We shall be happy to see them in person, at our office, or to advise them by letter. In all cases they may expect from us an honest opinion. For such consultation, opinion, and advice, we make no charge. A pen-and-ink sketch and a description of the invention should be

sent. Write plainly, do not use pencil or pale ink.

If a SPECIAL SEARCH at the Patent Office is required, which embraces a personal examination of all patented inventions and a report in writing, a fee of \$5 is charged. This examination is only advised in doubtful cases.

To Apply for a Patent, a model must be furnished, not over a foot in any dimension. Send model to Munn & Co., 37 Park Row, New York, by express, charges paid, also a description of the improvement, and remit

The model should be neatly made of any suitable materials, strongly fast-Manufactures, Agriculture and Agricultural Implements, Builders' Hardened, without glue, and neatly painted. tures of all kinds.

When the invention consists of a medicine or compound, or a new article of manufacture, or a new composition, samples of the article must be furnished, neatly put up. Also, send us a full statement of the ingredients, pro portions, mode of preparation, uses, and merits.

EUROPEAN PATENTS.

American inventors should bear in mind that, as a general rule any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five Patents—American, English, French, Belgian and Prussian—will secure an inventor exclusive monoply to his discovery among one hundred and thirty millions of the most intelligent people in the world. The facilties of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. Munn & Co, have prepared and taken a larger number of European patents than any other American Agency. They have Agents of great experience in London, Paris Berlin, and other cities.

For instructions concerning Foreign Patents, Reissues, Interferences, Hints on Selling Patents, Rules and Proceedings at the Patent Office, the Patent Laws, etc., see our Instruction Book. Sent free by mail on application Those who receive more than one copy thereof will oblige by presenting it to their friends.

RECEIPTS.--When money is paid at the office for subscriptions, a receipt for it will be given; but when subscribers remit their money by mail, they may consider the arrival of the first paper a bona-fide acknowledgment of their funds.

Advertisements.

The value of the Scientific American as an advertising medium cannot be over-estimated. Its circulation is ten times greater than that of any similar journal now published. It goes into all the States and Territories, and is read in all the principal libraries and reading-rooms of the world. We invite the attention of those who wish to make their business known to the annexed rates. A business man wants something more than to see his advertise ment in a printed newspaper. He wants circulation. If it is worth 25 cents per line to advertise in a paper of three thousand circulation, it is worth \$2.50 per line to advertise in one of thirty thousand.

VELOCIPEDES.

NOTICE.—All Persons are Hereby Cautioned against making, purchasing, or using Velocipedes which are not duly licensed by me. I am the owner of letters patent, No. 36,161, dated August 12, 1862, reissued March 2, 1869, in which are the following claims:—First, In combination with the saddle-seat for the rider, the employment and use of a crank axle, arms, and foot-rests, so arranged that power applied by the feet of the rider shall give motion to the vehicle. Second, The combination of the following elements, namely, a saddle-seat for the rider, a cranked axle for propelling the vehicle by power applied by the feet of the rider, and a steering mechanism so constructed that the direction of travel of the vehicle may be governed by the rider.

These patent claims cover all Velocipedes, and all made without my anthority are direct and palpable infringements of my rights, and all infringers of the same will be prosecuted.

Licenses to make, sell, and use Velocipedes will be granted by me, after examination by their Coursel. Man-

prosecuted.
Licenses to make, sell, and use Velocipedes will be granted by me, after examination by their Coursel. Manufacturers are taking out licenses under my Patents, the royalty is \$5 and \$3 on each Velocipede, according to grade STEPHEN W. SMITH.

LARGEST, CHEAPEST, & BEST.

SPRING HAS COME! THE SKIES ARE BRIGHT!

THE PROSPECTS CHEERING!

Rural, Literary and Family Weekly. ENLARGED, BEAUTIFIED, IMPROVED!

THIS FAMOUS WEEKLY was nearly doubled in Size, and vastly improved in Style and Contents, on the commencement of Vol. XX., and is now by far the

LARGEST, CHEAPEST, AND BEST Paper of its Class in the World.

THE RURAL NEW YORKER has long been noted for the Ability, Variety, Taste, and Usefulness of its Contents, and the correctness and beauty of its Typography and Appearance—making it a welcome visitor to tens of thousands of Homes in City, Village, Suburb, and Country, where it is regarded as the

FAVORITE FIRESIDE WEEKLY, THE RURAL NEW YORKER has no rival in its peculiar and important sphere of Journalism, and is daily increasing in favor with those who wish a paper which combines Choice Literary and Family Reading with Useful, Instructive, Scientific, and Practical information concerning

RURAL AND DOMESTIC AFFAIRS.

THE RURAL NEW YORKER not only contains Literary Sketches, Stories, Poems, Reading for the Young, etc., but treats of the Sciences, Arts, Modes and Manners, Domestic and Rural Economy, and various other matters of interest to the intelligent, refined, and progressive members of community, in both Town and Country. WHEREIN IT EXCELS. WHEREIN IT EXCELS.

THE RURAL NEW YORKER has no equal—indeed, greatly excels,—in Variety and Value of Contents, its Sixteen Large Double Quarto Pages (of five columns each) comprising more Rural, Scientific, Literary, Educational, Miscellancous, News, and General Matter, interspersed with appropriate and beautiful Illustrations, than any other journal,—rendering it the best and most Complete Rural, Literary, Family, and Business Newspaper.

THE BEST TALENT. THE RURAL NEW YORKER employs the Best Talent in its various Departments. It has Seven Editors and nearly Twenty Special Contributors (including Journalists, Authors, etc., of great experience and high reputation), beside Correspondents throughout the States, Canada, and Europe.

CIRCULATION AND FACILITIES.

CIRCULATION AND FACILITIES,
THE RURAL NEW YORKER has a Continental Circulation, its Subscription List being More THAN DOUBLE (and probably treble) that of any other Journal of its Class. With offices in New York City and Rochester—the great Business and Commercial Metropolis, and the Heart of a famed Rural District—it possesses unequaled facilities, and aims to demonstrate the truth of a recent remark of an exchange, that "The RuraL is the most elegantly printed, ably edited, widely circulated, and heartly weicomed paper, as a whole, which now finds its way among the people."

[37] A New Quarter begins with April, and hence now is a good time to subscribe. All who cultivate Fruits Flowers, Vegetables, etc., on a small scale (in city, village, or suburb), need the RuraL, while Farmers, Planters, Stock Breeders, Wool Growers, Dairymen, Poultry Fanciers, etc., will find it invaluable.

FORM, STYLE, TERMS, ETC.

THE RURAL NEW YORKER is not a monthly of only 12 issues a year, but a Large and Splendid Weekly, in double quarto form—the Largest Illustrated Paper in America! Printed in extra style, arranged in Departments, superior in Value, Purity, and Variety of Contents, and Adapted tothe Wantsof All, the Rural is the paper for You, Your Family, and Friends. Tryit and decide to the Wantsof All, the Rural is the paper. You can begin with the year (Jan. 2), now, or at any
