750.—CASES FOR HOLDING CIGARS, ETC.—H. B. Wheatcroft, S. B. Guernsey, and F. J. Terrell, New York city. March 11, 1869.

759.—SPINNING MACHINERY MATERIALS.—Thomas Mayor, Providence, R. I. March 11, 1869.

Facts for the Ladies.

I purchased a Wheeler & Wilson Sewing Machine about ten years ago, and while learning to use it, without instruction, broke one needle; after that for more than nine years, I had the machine in almost daily use, doing all my family sewing, and very much for friends and others, and instructed seven persons in the use of the machine, without breaking a needle. My machine has never cost one penny for repairs. I have sewed hours with a worrisome babe in my lap, working upon fabrics of the most delicate texture, as well as upon men's and boys' clothes of the heaviest material. I have made garments for the cradle, the bridal, the hospital, and the funeral. Entering into every vicissitude of life, my machine has become, as it were, a part of my being. Mrs. M. L. Peck. Mexico, N. Y.

**PATENT OFFICES,**  
**American and European,**  
 OF  
**MUNN & CO.,**  
 No. 37 Park Row, New York.

For a period of nearly twenty-five years MUNN & Co. have occupied the position of leading solicitors of American and European Patents, and during this extended experience of nearly a quarter of a century, they have examined not less than fifty thousand alleged new inventions, and have prosecuted upwards of thirty thousand applications for patents, and, in addition to this, they have made at the Patent Office over twenty thousand Preliminary Examinations into the novelty of inventions, with a careful report on the same.

This wide experience has not been confined to any single class of inventions but has embraced the whole range of classification, such as Steam and

Air Engines, Sewing Machines, Looms and Spinning Machinery, Textile, Manufactures, Agriculture and Agricultural Implements, Builders' Hardware, Calorifics, Carriages, Chemical Processes, Civil Engineering, Brick Making, Compositions, Felting and Hat Making, Fine Arts, Fire-arms, Glass Manufacture, Grinding Mills, Harvesters, Household Furniture, Hydraulics and Pneumatics, Illumination, Leather Manufactures, Mechanical Engineering, Metallurgy, Metal Working, Navigation, Paper Making, Philosophical Instruments, Presses, Printing and Stationery, Railroads and Cars, Sports, Games, and Toys, Stone Working, Surgical Apparatus, Wearing Apparel, Wood Working.

MUNN & Co. deem it safe to say that nearly one-third of the whole number of applications made for patents during the past fifteen years has passed through the Agency.

CONSULTATIONS AND OPINIONS FREE.

Those who have made inventions and desire to consult with us are cordially invited to do so. We shall be happy to see them in person, at our office, or to advise them by letter. In all cases they may expect from us an honest opinion. For such consultation, opinion, and advice, we make no charge. A pen-and-ink sketch and a description of the invention should be sent. Write plainly, do not use pencil or pale ink.

If a SPECIAL SEARCH at the Patent Office is required, which embraces a personal examination of all patented inventions and a report in writing, a fee of \$5 is charged. This examination is only advised in doubtful cases.

To Apply for a Patent, a model must be furnished, not over a foot in any dimension. Send model to Munn & Co., 37 Park Row, New York, by express, charges paid, also a description of the improvement, and remit \$15 to cover first Government fee, revenue and postage stamps.

The model should be neatly made of any suitable materials, strongly fastened, without glue, and neatly painted. The name of the inventor should be engraved or painted upon it. When the invention consists of an improvement upon some other machine, a full working model of the whole machine will not be necessary. But the model must be sufficiently perfect to show, with clearness, the nature and operation of the improvement.

THE GREAT ADVANTAGES

OF MUNN & CO.'S AGENCY are that their practice has been ten-fold greater than any other Agency in existence, with the additional advantage of having the assistance of the best professional skill in every department, and a Branch Office at Washington, which watches and supervises all their cases as they pass through official examination. If a case is rejected for any cause, or objections made to a claim, the reasons are inquired into and communicated to the applicant, with sketches and explanations of the references; and should it appear that the reasons given are insufficient, the claims are prosecuted immediately and the rejection set aside and usually

WITHOUT EXTRA CHARGE.

MUNN & Co. are determined to place within the reach of those who confide to them their business the highest professional skill and experience.

Caveats are desirable if an inventor is not fully prepared to apply for Patent. A Caveat affords protection for one year against the issue of a patent to another for the same invention. Caveat papers should be carefully prepared.

Reissues.—A patent, when discovered to be defective, may be reissued, by the surrender of the original patent and the filing of amended papers. This proceeding should be taken with great care.

Patents can be Extended.—All patents issued prior to 1861, and now in force, may be extended for a period of seven years upon the presentation of proper testimony. The extended term of a patent is frequently of much greater value than the first term, but an application for an extension, to be successful, must be carefully prepared. MUNN & Co. have had a large experience in obtaining extensions, and are prepared to give reliable advice.

Interferences between pending applications before the Commissioners are managed and testimony taken; also Assignments, Agreements and Licenses prepared. In fact there is no branch of the Patent Business which MUNN & Co. are not fully prepared to undertake and manage with fidelity and dispatch.

Designs, Trade Marks, and Compositions can be patented for a term of years; also new medicines or medical compounds, and useful mixtures of all kinds.

When the invention consists of a medicine or compound, or a new article of manufacture, or a new composition, samples of the article must be furnished, neatly put up. Also, send us a full statement of the ingredients, proportions, mode of preparation, uses, and merits.

EUROPEAN PATENTS.

American inventors should bear in mind that, as a general rule, any invention that is valuable to the patentee in this country is worth equally as much in England and some other foreign countries. Five Patents—American, English, French, Belgian and Prussian—will secure an inventor exclusive monopoly to his discovery among ONE HUNDRED AND THIRTY MILLIONS of the most intelligent people in the world. The facilities of business and steam communication are such that patents can be obtained abroad by our citizens almost as easily as at home. MUNN & Co. have prepared and taken a larger number of European patents than any other American Agency. They have Agents of great experience in London, Paris, Berlin, and other cities.

For instructions concerning Foreign Patents, Reissues, Interferences, Hints on Selling Patents, Rules and Proceedings at the Patent Office, the Patent Laws, etc., see our Instruction Book. Sent free by mail on application. Those who receive more than one copy thereof will oblige by presenting it to their friends.

Address all communications to  
**MUNN & CO.,**  
 No. 37 Park Row, New York City.  
 Office in Washington, corner of F and 7th streets.

Schedule of Patent Office Fees:

On each Caveat.....	\$10
On filing each application for a Patent, (seventeen years).....	\$15
On issuing each original Patent.....	\$20
On appeal to Commissioner of Patents.....	\$30
On application for Reissue.....	\$30
On application for Extension of Patent.....	\$50
On granting the extension.....	\$50
On filing a Disclaimer.....	\$10
On an application for Design (three and a half years).....	\$10
On an application for Design (seven years).....	\$15
On an application for Design (fourteen years).....	\$30

In addition to which there are some small revenue stamp taxes. Residents of Canada and Nova Scotia pay \$500 on application.

RECEIPTS.—When money is paid at the office for subscriptions, a receipt for it will be given; but when subscribers remit their money by mail, they may consider the arrival of the first paper a bona fide acknowledgment of their funds.

CITY SUBSCRIBERS.—The SCIENTIFIC AMERICAN will be delivered in every part of the city at \$3.50 a year. Single copies for sale at all the News Stands in this city, Brooklyn, Jersey City, and Williamsburg, and by most of the News Dealers in the United States.

Advertisements.

The value of the SCIENTIFIC AMERICAN as an advertising medium cannot be over-estimated. Its circulation is ten times greater than that of any similar journal now published. It goes into all the States and Territories, and is read in all the principal libraries and reading-rooms of the world. We invite the attention of those who wish to make their business known to the annexed rates. A business man wants something more than to see his advertisement in a printed newspaper. He wants circulation. If it is worth 25 cents per line to advertise in a paper of three thousand circulation, it is worth \$2.50 per line to advertise in one of thirty thousand.

RATES OF ADVERTISING.

Back Page.....\$1.00 a line.  
 Inside Page.....75 cents a line.  
 Engravings may head advertisements at the same rate per line, by measurement, as the letter-press.

STEAM AND WATER GAGES, STEAM Whistles, Gage Cocks, and Engineers' Supplies.  
 JOHN ASHCROFT, 50 John St., New York.

Mothers! Give your Children Sweet Quinine

Send for specimen, with premium list.  
 16 4 I. W. ENGLAND, Publisher SUN, New York.

Peat!! Peat!! Peat!!!

THE VULCAN PEAT MANUFACTURING Company have a Machine for preparing fuel peat, and which is believed far superior to any hitherto invented. Its merits are compactness, efficiency, and rapidity of manipulation, non-liability to derangement from stones, or other foreign material, and producing, in a given time, an unprecedented quantity of most superior fuel at a cost not exceeding \$1.50 a ton. The undersigned will, without charge, give the value by analysis of any peat sample—say a pound—sent to him free of expense.  
 J. B. HYDE, Gen'l Ag't, 119 Broadway.

Independent Steam BOILER SUPPLY, OR Feed Pump. RELIABLE FOR HOT OR COLD WATER. Circulars sent free. COPE & CO., No. 118 East 2d st., Cincinnati, Ohio.  
 14 3eow

IMPORTANT.

THE MOST VALUABLE MACHINE for planing irregular and straight work, in all branches of wood working is the Combination Molding and Planing Machine Co.'s "Variety Molding and planing machine." Our improved guards make it safe to operate. Our combination collars save one hundred per cent; and for planing, molding, and cutting irregular forms, our machine is unsurpassed. The Variety Machine sold by the Gear's is a direct infringement on the Grosvenor and other Patents owned solely by us, and the public will please notice the deeds given by Mr. Gear cover only the Gear Patent, being no protection to the purchaser against the rights of our Patents. Infringements on which we are now prosecuting. The Gear Patent, without our improvement, has for many years been discarded by mechanics as impracticable, in fact we have had on hand, ever since the introduction of our improvements, several of the old Gear Machines, which cannot sell even at prices slightly above the value of old iron. All our machines are sold and delivered in New York, but the right to use a machine goes with it, and we will protect all parties who may purchase machines from us, not only under the Grosvenor and Tice Patents, which constitute the practical value of the machine, but also under the Gear Patent. Attention is called to cuts of our Variety Machine (in the issue of this journal of December 9th, 1868), of which we are the sole lawful makers, and other parties building or vending like machines, are doing so without the slightest legal authority, subjecting themselves and patrons to heavy damages, the collection of which we are determined to prosecute to the fullest extent of the law. All communications for us should be addressed to COMBINATION MOLDING AND PLANING MACHINE CO., 424 East 23d st., or Box, 3,230, Post Office, New York city. 16 1f eow

MORE IMPORTANT.

THE VARIETY, UNIVERSAL, AND OPTICAL MACHINE made by the C. M. and Planing Machine Co. are direct infringements on the GEAR PATENT, which is the FOUNDATION of all Machines of this character worthy of note. They own the GEAR PATENT for the State of New York, and a portion of Mass., ONLY, and have no right to sell their machines to be used ELSEWHERE. They "SELL and DELIVER in New York." EXAMINE YOUR BAIT BEFORE BITING. They refuse to lay themselves liable, though willing that OTHERS should become liable. We OWN and BUILD ALL THE LATEST and ONLY VALUABLE IMPROVEMENTS on the Original Machine, and we WARRANT OUR MACHINES SUPERIOR to ANY OTHERS MADE, and give DEEDS of RIGHT to USE EVERY PART OF THEM. For further particulars, before purchasing, address  
 A. S. & J. GEAR & CO.,  
 NEW HAVEN, CONN.,  
 OWNERS and LAWFUL MANUFACTURERS FOR ALL THE UNITED STATES, except New York.

A BOOK THAT EVERYBODY SHOULD HAVE.

WELLS' EVERY MAN HIS OWN LAWYER, AND BUSINESS FORM BOOK. Is a complete and reliable guide in all matters of law and business transactions for EVERY STATE IN THE UNION.

THE ENTIRE LEADING PRESS OF THE COUNTRY unqualifiedly indorse the work. We make a few short extracts from the press: "As a legal adviser always at hand to instruct the reader how to proceed in suits and business transactions of every and all kinds; as a form book to enable the least learned to draw up deeds, mortgages, agreements, leases, orders, wills, etc.; as a guide with regard to the laws of the various States concerning exemptions, liens, limitation of actions, collection of debts, usury, and so on, this volume is certainly invaluable to men of business, and it is not surprising that a hundred thousand copies have so soon found their way into the homes and country houses of the multitude. In addition, the work contains a full digest of the action of the Government relative to reconstruction and the freedmen, the General Bankrupt Law, the Patent Laws, Pension Laws, the Homestead Laws, the Internal Revenue Laws, etc. The publisher has determined to make this work complete, and, to our thinking, he has succeeded. No business man or woman can with safety be without it."—New York Times.

"This work is one of the most valuable issues of the press of this country. It contains so much that every man in business should know, but which none have the time to acquire from voluminous works, that it is truly indispensable."—New York Dispatch.  
 "Such a useful book cannot be too highly commended. A more comprehensive digest could not be desired."—New York Weekly Tribune.  
 "There should be a copy of it in every family."—New York Weekly.  
 "The most implicit confidence can be placed upon the work as authority on all the subjects of which it treats."—Philadelphia Age.

"You can purchase in this book what may be worth hundreds of dollars to you."—St. Louis Dispatch.  
 "It contains just the kind of information every business man stands most in need of."—Sunday Mercury.  
 "Every man, no matter what his business may be, should have a copy."—Pittsburgh Dispatch.  
 "There is no better book of reference."—Phrenological Journal.  
 "The book is prepared to meet all the ordinary contingencies of business life, and it treats them clearly, distinctly, and well."—Round Table.  
 "It contains a vast amount of just such matters as every one ought to be acquainted with in the prosecution of all ordinary business."—N. Y. Christian Advocate.  
 "It is the best business guide ever published."—De Bow's Journal, St. Louis.  
 "Every one should have a copy."—N. Y. Eve. Post.  
 "It is invaluable."—Cincinnati Enquirer.  
 "Indispensable to every household."—Cincinnati Commercial.  
 "This work is worthy of the popularity it has acquired as a convenient and reliable manual."—N. Y. Herald.  
 The work is published 12mo size, 650 pages. Price in full leather binding \$2.50; in half library, \$2. Sent post paid on receipt of price.  
 Good reliable agents wanted everywhere. They will send the best selling book published. Liberal inducements given. Address  
 JOHN G. WELLS, Publisher,  
 432 Broome street, New York.
