TO ALL WHO CAN READ.

The Weekly Sun Doubled in Size Without Increase in Price.

With the beginning of the year 1872 THE WEEKLY SUN will be double its present size, and will contain eight pages instead of four, making it equal in dimensions to any other weekly secular journal published in this country. At the same time its price will not be increased. It will be furnished to subscribers at the uniform rate of one dollar a year for each copy. To this rate no exception will be made, and no reduction will be possible, either to clubs or agents. Every subscriber who sends a dollar will receive a copy for a year.

While THE WEEKLY SUN will thus furnish as much reading matter as other papers published at double or treble the price, it will contain new features which will add greatly to its interest and value as a family newspaper. Its independence of opinion and its unqualified hostility to Tweedism and Grantism, and every form of public robbery, bribery, and corruption will be maintained, while in point of political news its readers may rely upon always receiving the most accurate as well as the freshest intelligence that can possibly be obtained. The enlargement will enable us also to devote additional space to valuable agricultural intelligence, and to print interesting stories and romances more extensively than hitherto. For miscellaneous reading, presenting the quaint and humorous aspects of life, and for useful information respecting not only what takes place in this metropolis and this country, but in all other parts of the world, we shall now have ample room.

In its new form THE WEEKLY SUN will be the cheapest paper of its class in the United States; and we appeal to such of our readers as approve its ideas and objects, and find it interesting and valuable, not only to renew their own subscription, but to recommend the paper to their friends and neighbors.

The coming year is destined to be a memorable one in the history of the country. We are on the eve of a most significant Presidential election, and political movements will for many months be watched with unusual interest. As a journal, free from the trammels of party, THE WEEKLY SUN will continue to uphold the principles of true republican government. Its readers are invited to sustain it in that work. The truth, irrespective of party prejudice or official influence, will always be told in its columns.

Terms of the Weekly Sun—

A journal containing eight large pages, published every Wednesday morning—To all mail subscribers, whether single or in clubs, one dollar a year each, always in advance. DAILY SUN, by mail, 50 cents a month, or \$6 a year. SEMI-WEEKLY SUN, by mail, \$2 a year. Address THE SUN, New York city.

HARPER'S PERIODICALS FOR 1872.

The Publishers take pleasure in announcing that they have secured for the new Volumes of HARPER'S MAGAZINE, HARPER'S WEEKLY, and HARPER'S BAZAR, the most brilliant and fascinating array of literary and artistic attractions ever offered simultaneously to the American public.

"Middlemarch," a new serial story by GEORGE ELIOT, to commence in HARPER'S WEEKLY for December 16.

"Blade-o-Grass," by B. L. FARJEON, Author of "Joshua Marvel," with many beautiful illustrations, is just commenced in HARPER'S BAZAR.

"The Golden Lion Gramercy," by ANTHONY TROLLOPE, with illustrations, to commence in the February Number of HARPER'S MAGAZINE.

"A new Novel by Miss THACKERAY, whose writings have won deserved popularity by their purity of tone, genial imagination, and fascinating style, will be commenced early in the year.

The great Spanish statesman, EMILIO CASTELAR, will furnish an important and interesting paper for an early number of HARPER'S MAGAZINE on "Republicanism in Europe."

Mr. GEORGE WILLIAM CURTIS, under the now familiar sobriquet of "AN OLD HAGELOR," will continue his weekly contributions to the BAZAR entitled "Manners upon the Road."

"PORTE CRAYON" will begin in an early number of the Magazine, and will continue his interesting life and character in the Southern States under existing conditions.

These unprecedented attractions will require occasional literary Supplements to HARPER'S BAZAR and HARPER'S WEEKLY, which will be included in the regular issue, free of charge to subscribers.

The readers of HARPER'S MAGAZINE, WEEKLY and BAZAR are to be congratulated on the rich and tempting intellectual repast provided for their enjoyment, and upon the rare privilege of sitting down to their monthly or weekly feast of paper and flow of soul with such a select and excellent company of entertainers as GEORGE ELIOT, WILKIE COLLINS, ANTHONY TROLLOPE, CHARLES LEVER, PROFESSOR DE MILLE, B. L. FARJEON, GUSTAVE DORE, MISS MULOCK, MISS BRADDOCK, GEORGE WILLIAM CURTIS, M. D. CONWAY, PORTE CRAYON, BAYARD TAYLOR, B. H. STODARD, JOHN HAY, HARRIET PRESCOTT SPOFFORD, EUGENE LAWRENCE, DR. L. I. HAYES, THOMAS NAST, SOL EYTINGE, JUN., CHARLES PARSONS, W. L. SHEPPARD, JULES TAVERNER, and many others of high rank in the world of letters and art.

In securing this unprecedented array of splendid names, the Publishers are only carrying out their original design, and fulfilling what they conceive to be the legitimate duty of the conductors of widely circulated and popular periodicals. They intend that wherever their periodicals circulate they shall exert a healthful influence in every department of literature and art; and that in the future, as in the past, they shall be not only unsurpassed but unapproachable in the sphere of illustrated journalism.

HARPER'S MAGAZINE, WEEKLY, and BAZAR meet and satisfy the intellectual wants of the great mass of intelligent American readers; and in treating of literary, political, social, or domestic themes, offer an amount of wholesome instruction, recreation, and amusement which will be sought elsewhere in vain. They represent, therefore, for every American household the Graphic Literature of the World.

Diamond Pointed STEAM DRILLS.

THE adoption of new and improved applications to the celebrated Leschot's patent, have made these drills more fully adaptable to every variety of ROCK DRILLING. Their unequalled efficiency and economy are acknowledged, both in this country and Europe. The Drills are built of various sizes and patterns: WITH WITHE, WITHOUT, and with or without a uniform rate, of THREE TO FIVE INCHES PER MINUTE in hard rock. They are adapted to CHANNELLING, GADDING, SHAFTING, TUNNELLING, and open cut work; also, to DEEP BORING FOR TESTING THE VALUE OF MINES AND QUARRIES. TEST CORES taken out, showing the character of mines at any depth. Used either with steam or compressed air. Simple and durable in construction. Never need sharpening. Manufactured by THE AMERICAN DIAMOND DRILL CO., No. 61 Liberty St., New York
