# THE RISE AND PROGRESS OF INVENTIONS

During the period of Fourteen Years which has ed since the business of procuring patents for inventors was nenced by MUNN & Co., in connection with the publication of elapsed siz this paper, the number of applications for patents in this country and oad has yearly increased until the number of patents issued at United States Patent Office last year (1859) amounted to 4,538; a hr while the number granted in the year 1845-fourteen years ago numbered 502--only about one-third as many as were granted to our own clients last year; there being patented, through the Scien-tific American Patent Agency, 1,440 during the year 1859. The increasing activity among inventors has largely augmented the number of agencies for trausacting such business.

In this profession, the publishers of this paper have become iden tified with the universal brotherhood of Inventors and Patentees at home and abroad, at the North and the South; and with the increased activity of these men of genius we have kept apace up to this time, when we find ourselves transacting a larger business in this profession than any other firm in the world. We may safely assert that no concern has the combined talent

and facilities that we possess for preparing carefully and correctly applications for patents, and attending to all business pertaining thercto.

FREE EXAMINATION OF INVENTIONS.

Persons having conceived an idea which they think may be patent. able are advised to make a sketch or model of their invention, and submit to us, with a full description, for advice. The points of novelty are carefully examined, and a reply written corr with the facts, free of charge. Address MUNN & CO., No. 37 Park row, New York.

PRELIMINARY EXAMINATIONS AT THE PATENT OFFICE. The advice we reuder gratuitously upon examining an invention does not extend to a search at the Patent Office, to see if a like invention has been presented there, but is an opinion based upon what knowledge we may acquire of a similar invention from our long experience, and the records in our Home Office. But for a fee of \$5, accompanied with a model or drawing and description, we have a special search made at the United States Patent Office, and report setting forth the prospects of obtaining a patent, &c., made up and mailed to the inventor, with a pamphlet, giving instructions for further proceedings. These preliminary examinations are made through our Branch Office, corner of F and Seventh streets, Washington, by experienced and competent persons. Over 1,500 of t examinations were made last year through this office, and as a Over 1,500 of thes sure of prudence and economy, we usually advise inventors to have a preliminary examination made. Address MUNN & CO., No. 37 Park-row, New York.

## CAVEATS.

Persons desiring to file a caveat can have the papers prepared on reasonable terms, by sending a sketch and description of the inven-tion. The government fee for a caveat is \$20. A pamphlet of advice regarding applications for patents and caveats furnished gratis on application by mail. Address MUNN & CO., No. 37 Park-row, New York.

HOW TO MAKE AN APPLICATION FOR A PATENT. Every applicant for a patent must furnish a model of his inven ion, if susceptible of one; or if the invention is a chemical produc tion, if tion, he must furnish samples of the ingredients of which his compo sition is composed for the Patent Office. These should be securely packed, the inventor's name marked on them, and sent, with the government fee, by express. The express charges should be prepaid. Small models, from a distance, can often be sent cheaper mail. The safest way to remit money is by draft on New York, parable to Munn & Co. Persons who live in remote parts of the country can usually purchase drafts from their merchants on their New York correspondents; but if not convenient to do so, there is butlittle risk in sending bank bills by mail, having the letter registered by the postmaster. Address MUNN & CO., No. 37 Park-row New York.

REJECTED APPLICATIONS. We are prepared to undertake the investigation and prerejected cases, on reasonable terms. The close proximity of our Washington Agency to the Patent Office affords us rare opportuni-ties for the examination and comparison of references, models, drawings, documents, &c. Our success in the prosecution of rejected eases has been very great. The principal portion of our charge is generally left dependent upon the final result. All persons having rejected cases which they desire to have prosgen

All persons having rejected cases which they desire to have pros-ecuted are invited to correspond with us on the subject, giving a brief history of their case, enclosing the official letters, &c. FOREIGN PATENTS. We are very extensively engaged in the preparation and securing

of patents in the various European countries. For the transaction o this business we have offices at Nos. 66 Chancery Lane, London; 29 evard St. Martin, Paris; and 26 Rue des Eperonniers, Brussels We think we can safely say that three-fourths of all the European patents secured to American citizens are procured through our

Inventors will do well to bear in mind that the English law does not limit the issue of patents to inventors. Any one can take out a patent there.

Circulars of information concerning the proper course to be pur sued in obtaining patents in foreign countries through our Agency the requirements of the different Patent Offices, &c., may be had gratis upon application at our principal office, No. 37 Park-row, New York, or either of our branch offices.

CAUTION TO INVENTORS. MUNN&CO. wish it to be distinctly understood that they

neither buy nor sell patents. They regard it as inconsistent with a

proper management of the interests and claims of inventors, to partiproper management of the interests and claims of inventors, so part a cipate in the least apparent speculation in the rights of patentees They would also advise patentees to be extremely cautious into whose hands they entrust the power to dispose of their inventions. Nearly fifteen years' observation has convinced us that the selling of pat-ents cannot be conducted by the same parties who solicit them fo others, without causing distrust.

## BUSINESS CONDUCTED CONFIDENTIALLY.

We would inform inventors that their communications are treated with the utmost confidence, and that the secrets of inventors confided to us are never divulged, without an order from the inventor or his acknowledged representative.

### TESTIMONIALS.

The annexed letters, from the last three Commissioners of Patents, e commend to the perusal of all persons interested in obtaining

we commen Patents:-Messre 

Mesers. MUNN & Co.:-Gentlemen : It gives me much pleasure to y that, during the time of my holding the office of Commissioner say that, during the time of my holding the office of Commissioner of Patents, a very lurge proportion of the business of inventors be-fore the Patent Office was transacted through your agency, and that I have ever found you faithful and devoted to the interests of your clients, as well as eminently qualified to perform the duties of Patent Attorneys with skill and accuracy. Very respectfully, Your obedient servant, WM. D. BISHOP.

CORRESPONDENTS sending communications for publication in our columns are requested to avoid writing on both sides of

- et of paper. This fault, though common to persons una tomed to writing for the press, gives great trouble to the printer (especially in long articles), and, when combined with illegibility of handwriting, often causes interesting contributions to be regretfully consigned to our waste-paper basket.
- G. B., of Ga.-We think Tusch's soaping brush is a good household article. It can be used anywhere. It was pat-ented May 23, 1860.
- H. G., of N. Y .- Letters Patent are granted for 14 years. Minors can take patents, but the benefits of it must revert to the parents. In making assignment of a patent granted to a minor, it is necessary that the father should also sign the docu
- D. R., of Ill.-The product made on a patented ma chine is not protected by the Letters Patent. If you buy a pat-ented machine for making brick, you are confined to the manu-facture in your own territory, but you can sell the brick where you
- L. C. S. & Co. and A. R. B., of Conn.-We have inquired for tungsten steel but cannot find that any has yet been imported to this city.
- J. G. W. L., of La.-We cannot tell how long the oil wells of Pennsylvania will continue to yield, but recent reports e principal oily districts represent th e supply as gr diminishing in all the wells, thus involving the necessity of sink ing new ones to keep up the supply. We are informed that there is a tract of country in Pennsylvania, about 200 miles long by 30 wide, in which oil can be obtained anywhere by sinking wells.
- E. W. E., of Ala. You can stain black walnut or pine in initiation of rosewood, by mixing some carmine with a cra-nish, for the red streaks, and using a little copperas and logwood in solution, to make the black streaks. You can make a cheap red stain for wood with a strong solution of red Brazil wood mixed
- A.'W. & S., of Tenn--We know of no way to prevent your millstones from heating but to reduce the speed. In some of the back numbers of our paper you will find m gestions on the subject by practical millers. any valuable sug-
- S. C., of N. Y.-A head of water 60 feet high would drive an engine similar to a steam engine. It is by this plan that the water is raised at the Washington Water Works.
- R. O. D., of D. C.-Ericsson's air engine is altogether too heavy in proportion to its power to drive a flying machine; a yoke of oxen would be about as suitable.
- K. N., of Wis.-No soap possesses the astonishing properties of removing oil, paint, pitch and tar directly from cloth. Any good soan, however, will remove oil, but when tar and pitch get upon cloth these substances must first be softened with a little warm butter, after which the soap should be applied for their removal. Benzole and refined turnentine, mixed with alcohol, are the best substances which can be employed for removing paint from cloth. Considerable railroad iron is still imported from England, but it is not equal to the best American. In a few years ce, we think American iron will be manufactured as cl e English. as th

C. L. R., of N. Y .- There is a difference of opinion among engineers about the expediency of putting tallowinto the when laying it by for the winter. We think it is better to dry it thereaghly and then close it perfectly air-tight.

C. H., of La.-You have doubtless seen before this time the same idea as yours, in regard to the crank motion, in our

W. N., of Mass .- The colored rings which you saw in the mirror, when standing between it and the light, were produced by refraction. The light from the lamp passed twice through the glass, once on its way from the lamp to the metal back of the mir-ror, and again on its return towards the eye; in this passage it was decomposed by the rays of different colors being bent or refracted, some more than the others. Light is never increased, but alway diminished, by passing through glass or anything else.

#### MONEY RECEIVED

At the Scientific American Office on account of Patent Office business, for the week ending Saturday, dct. 20, 1860:-J. P. M., of R. I., \$250; L. P., of Mass., \$25; W. & F., of N. Y..

Specifications, drawings and models belonging to parties with the following initials have been forwarded to the Patent

ties with the following initials have been forwarded to the Patent Office during the week ending Saturday, Oct. 20, 1860:--P. D. Van D., of N. Y.; C. R. O., of N. Y.; J. S. & Mc C., of Ohio; C. M. # USEFUL HINT TO OUR READERS.

- BOUND VOLUMES .- Persons desiring the first volume of the New Series of the SCIENTIFIC AMERICAN can be supplied at the office of publication, and by all the periodical dealers ; price, \$1.50; by mail, \$2, which includes postage. The volume, in sheets, complete, can be furnished by mail; price \$1. Vol. II. is now bound and ready for delivery. The price for this volume is the same as that charged for Vol. I.
- SUBSCRIBERS TO THE SCIENTIFIC AMERICAN who fail to get their papers regularly will oblige the publishers by stating their complaints in writing. Those who may have missed certain num-bers can have them supplied by addressing a note to the office of nublication
- GIVE INTELLIGIBLE DIRECTIONS. We often receive letters with money inclosed, requesting the paper sent for the amount of the enclosure, but no name of State given, and often with the name of the Post-office also omitted. Persons should be careful to write their names plainly when they address publishers, and to name the Post-office at which they wish to receive their paper, and the State in which the Post-office is located.

### RATES OF ADVERTISING.

THIRTY CENTS per line for each and every insertion, payable in advance. To enable all to understand how to calculate the amount they must send when they wish advertisements published, we will explain thatten words averageone line. Engravings will not be admitted into our advertising columns; tofore, the publishers reserve to themselves the right to reject any advertisen ent sent for publication.

**FOR SALE.**—AN 8-HORSE (MONTGOMERY patent) Boiler; all in petfect order except the tubes; will be sold or traded for machinery or hardware, at \$75-cost new, \$750. Address Post Office box No. 187, Harrisburg, Pa. 18 3

LLUSTRATED CATALOGUE OF RULING Pens and Bookbin ders' Machinery; new and splondid edition. Those in the trade wishing it, will apply to W. O. HICKOK. Har-risburg, Pa. 18 2\*

THE WEAVER'S GUIDE.—TWO HUNDRED samples of different kinds of weaving, from 2 harness upwards to 16, with drafts and explanations. Frice \$5 per coly. Address for particulars or copies, E. KELLERMANN, Mocsup, Conn. 17 4\*

SWISS MATHEMATICAL DRAWING INSTRU-D ments of the finest finish in large quantities, constantly on hand, for sale by JAMES W. QUEEN & CO., No. 924 Cheetnut-street, Philadelphia. N. R.-An illustrated sheet of the instruments in full size, with priced list, sent by mail free on application. 17 5\*

5.000 AGENTS WANTED-TO SELL FIVE **5. UUU** new inventions—one very recent, and of great value to families. All pay great profits to agents. Send four stamys and get 80 pages particulars. EPHRAIM BROWN, Lowell, Mass. 17 13°

THE BLANDY PORTABLE STEAM SAW MILL THE BLANDY PORTABLE STEAM SAW MILL, nfter a fierce contest with numerous competitors, having mare powerful machinery, was awarded the first premium at the United States Fair, at Cincinnati, Ohio, 18%, as the smoothest workins-, ensiset handled and facted: cutine mill. We cut, in the presence of the awarding committee and thousands of spectators, 875% fort first-class inch lumber, out of two logs, in 8 minutes 15 seconds. All the machinery worked by two hands. Also the first, premiums at Ohio State Fairs for 1887, 1868 and 18%, and is the national premium and champion mill. The Blandy Patented Portable Steam Engine was described and illustrated on page 373, Vol. II. (new series), of the SCHENTRIO AMERICAN. Send for circular. 17 de H. & F. BLANDY, Zanesville Ohio, CANVASSERS WANTED IN ALL PARTS OF the United States-Profilable employment. Particular atten-tion is requested to the liberal offers we make to all persons engag-ing in the sale of our large type quarto PICTORIAL FAMILY BIBLE, with about One Thousaud Engravings. On receipt of the established price (\$60; the Pictorial Family Bible, with a well-bound Subscription Book, will be carefully boxed and forwarded by er-press, at our risk and expense, to any central town or willage in the United States, excepting those of California, Oregon and Texas. Our books are sold by canvasers, and are well-known to be the most saleable. Address, post-1wid, ROBERT SEARS, Publisher, No. 181 William-street, New York. 1

A CHANCE FOR A GOOD BUSINESS MAN.— the advertiser has just purchased the business, good-will, dcc., dcc., of a large (comm ssion and Machinery Business, well located in the State of New York, edioying the patronage of several large railroad companies. He wiskes a partner, with not less than \$5,000 cash capital, who must be acquantated with the business, ofthoroughly correct habits, and able to influence orders and consignments. None others will be treated with. Addrese, with name and refer-cnce, which will be confidential, T. I. F., Post Office Box No. 1,511, Baltimore, Md. 18 2\*

HOWARD ASSOCIATION, PHILADELPHIA, Pa.-A benevolent Institution, established by special endow-ment far the relief of the Sick and Distressed, afflicted with Viru-lent and Lepidemic Diseases; opon to patients in all parts of the United States. Valuable reports on diseases of a virulent character, and on the new remedies employed in the Dispensary, sent to the afflicted, by mail, free of charge. Address Dr. J. SKILLIN HOUGHTON, Acting Surgeon Howard Association, No. 2 South Ninth-street, Philadelphia, 1'a. 16 2"

A GOOD CHANCE FOR MANUFACTURING.— The subscribers have for sale a very valuable property, com-rising about 13 acres, suitable for Cotton, Paper or any other manu-facturing purposes. There are several large springs of pure Water on the pueniese. The Building is four storier high, Sox100 feet; the basement walls are 2% feet thick; the whole building is put up in the most substantial manner. In addition thereto, is an octagon Wheel-house, two stories high, 34x8i feet, containing a large from overshot Water Wheel, built by Barton, of Troy. Attached to the property are 11 good Dwellings and a Store. The situation of this state, and is within fifteen minutes' ride of the Huidson river and one mile of the New York and Erie Branch Railroad. If not sold by the first of January, it will be to rent. This property is now in complete order, and ready for operation. For further particulars, inquire of the subscrihers, at Cornwal, Orange courty, N.Y. 18 5\*00 ORR & CO.

**\$100** PER MONTH MADE BY ANY AC-tive person, with the cheapest and best Stencil Tools in the market. Before purchasing elsewhere, be sure to send for mv latest circular and samples, which are free. Address D. L. MIL-LIKEN. Brandon. Vt. 18 2 LIKEN, Brandon, Vt.

ABORATORY OF CHEMISTRY.—CONSULTA-tions and advices on chemistry applied to arts and manufac-tures, agriculture, metallurgy, mining surveys. Information on chemical fabrications, with drawinga, such as colors, varuishes, coal oile, paper, gas, candles, soapa, dycing, animal black, manures, acida, alkalice, salts, india-nubber, guta-percia, do. Address Professor H. DUSSAUCE, chemist (from the Conservatoire Imperial of Arts and Manufactures Parls), New Labanon, N. Y. I<sup>\*</sup>

PHOTOGRAPHIC PAPER FOR TAKING A true likeness of articles, such as Laces. Embroideries, Ambro-types, Flowers, Leaves, éc., in a moment's t me. Only 25 cents for one package of six sheets. Address S. E. FORD, Post Office Box No. 183, Collinsville, Conn.

SOMETHING NEW.-JUST OUT, GENTLE-mens' Water-proof Cloth Conts, Sporting Coats and Leggings and a variety of new styles of Water-proof Clothing, from the new factory of the N. Hayward Company. For sale by the New York agent, at No. 181 Broadway. [18tf] SAM. C. BISHOP.

A NILINE AND ANILINE DYES-ASSORTED as amples, with directions for 118e, sent to any part of the country on receipt of \$1. 1\* No. 424 Broadway, New York.

GET THE BEST.-LAPHAM'S STEAM TRAP all degrees of pressure. Will be sent to responsible parties on trial. For circular or Trape, address C. A. DURGIN, No. 335 Broadway, New York.

A MACHINIST AND DRAUGHTSMAN, AC customed to the management of a Machine Shop, wants a situ ation. Address A., care of T. D. Stetson, No. 5 Tryon-row, Ne York.

HOUSEHOLD ARTICLE FOR EVERYDAY non-Patent for sale, A self-sonping Strabbing Bath or Nail Brash. Cun be got up cheap : an excellent apportunity to pricke money. Patent granked May 22, 1860. Address WM. TUSCH, Hox No. 773 New York Post Office. 18

NEW AND PERFECT BARREL MACHINERY, consisting of a Head-turner, Stave-dresser, Jointer and Crozer, and especially adapted to rice tierces, sugar and molasses hogsheads, and to tight or slack work of every description. They are at once the simplest, cheapest and most efficient Machines made. Liberal terms offered to agents and others to sell Machines and Rights. For full descriptive circulars, address C. B. HUTCHINSON, Auburn, N. Y. 18 4c

THE ACAMINE LAMP.—THIS LAMP (BURN-ing coal oil, &c., without a glas chimney) having met with so high a desree of commendation and favor, the patentee is about to provide more spitable facilities for its exhibition than it has hitherto enjoyed. Partiee, however (in the meantime), who are desirous of examining the invention in New York, where it will be exhibited, or of negotiating for an interest or patent rights for the same, will please address W. H. RACEY (care of T. W. Geissanhainer), No. 298 Broadway, New York.

CHARLES A. SEELY, CHEMIST, NO. 424 Broadway, New York.—Analyses of ores, minerals, articles of commerce, &c. Advice and instruction in chemical processes generally; advice on chemical patents. 1\*

FOR SALE—JOHNSON'S PATENT FOR AN improved steam generator and superheater, warranted not to consume more than one pound of coal per hore-power per hour. Address JOHN JOHNSON, Box 313, Biddeford, Maine. 175\*

THE TINMANS' MANUAL AND BUILDERS' AND MECHANICS' HANDBOOK.—This work contains 204 parces, 50 diagrams and patterns, and several hundred rules, tables, and secolpts for tinmen, builders and mechanics. Just proliminad, Price \$1. Single copies sent by mail, postage paid, on receipts of price. Sold by agama. Address I. R. BUTTS & CO., Boston, Mass.

**PORTER'S IMPROVED GOVERNOR.** The reputation of these governors is well established. Par-ties troubled with unsteady power may send for them in entire con-fidence. They never fal. The numerous valves in use are all equally good, if well made; the form of the opening is immaterial. The governors are warranted to work perfectly with any and all valves, which move freely and close toterably tight. A style is made expressly adapted to waterwheels, to which they

close toterably tight. A style is made expressly adapted to waterwheels, to which they will give a perfectly un form motion, under any variation of resist-

will give a perfectly un form moreous, used and ance. I have long done with troubling my customers for certificates; but an able to refer to a large number of particles now using this gover-not a majority of the States of the Union. I will end a sovernor to any responsible party for trial. If it does not operate perfectly it may be returned. A liberal discount to the trade, whose orders will always be promptly filled. CHARLES T. PORTER.
