

TO CORRESPONDENTS.

"A. L. T., of Mass."—Mr. J. T. Foster resides in Jersey City opposite N. Y., a letter addressed to him there would probably meet attention.

"H. W. P. of N. Y."—We have sent you all the numbers of Chapman's Drawing Book that have been issued. The delay in this, as well as in the other case, is perplexing, but we cannot help the matter. \$5, received and credited for Duggan's work.

"L. K., of N. Y."—If you wish your invention brought into notice, the best thing you can do, both for yourself and the public, is to publish an engraving of it in the Sci. Am.

"S. R. V., of Pa."—You must write a great deal plainer and more to the point before we can publish your communications.

"D. P. G., of Va."—Your invention about the chimney is of such a kind that we do not see how it could be patented. The best way for you to do, is to keep the secret to yourself and erect the chimney to accomplish the object stated, and teach others how to do it for a good remuneration.

"J. R. W., of Mass."—Your subscription will now expire with No. 9 Vol. 6.

"G. H. S., of Ill."—It would cost about \$2, to send the article mentioned by express.

"E. L. B., of N. Y."—We have no copies of Webster's Work on Patents for sale, and can do not know where they can be obtained.

"H. T. P., of S. C."—Your letter containing \$20 came safe and the amount has been placed to your credit. It is all correct, and we send the compasses if you desire.

"A. S., of Ohio."—You cannot obtain a good work upon watch making in this city.—\$1 received.

"N. S. M., of Conn."—Your Lathe was shipped by steamboat Hero last Friday (May 3rd) directed to Middletown, Conn.

"J. W. M., of Me."—We shipped to your address last Saturday, (May 4th) a concentric lathe, we were obliged to send by an Eastport brig, no vessel being up for Calais.

"W. H. L., of Miss."—We are unable to give you such information as you desire. We advise you to address Messrs. Merrick & Towne, of Philadelphia, they can undoubtedly give the full particulars.

"S. D. P. of Va."—Before we can take up an application for a patent, a model must be furnished. We have placed the funds to your credit, and await your further action. The expense of an engraving is independent of the patent fees.

"R. R., of Conn."—We do not know of any such patent as you refer to, and think there is none in existence. \$1 received.

"C. J. A., of Pa."—The answer in the last paper was not intended for you, although the initials were the same. We cannot learn anything respecting the instrument you speak of, although we have made enquires of several mathematical instrument makers. Perhaps you mistake the name.

"Subscriber," Halifax."—The machines you enquired for cost from \$600 to \$800, according to the sizes and lengths to be made—occupy a space of 3 to 5 square feet,—power required is about 4 horse. The inventor prefers that you should address him for further particulars, we were obliged to do so in order to obtain what is here given.

"C. O. P., of Mich."—All the information you ask for can be found in No. 16 of this volume. You cannot expect to obtain a patent on anything which you know is old.

"J. P., Jr. of Mass."—We think that you can get a patent. The first thing to be done is to construct model.

"H. J., of Ohio."—Steam has been employed for the same purpose before, and no patent could be secured on the principle, but you can use it as there is no patent on it.

"G. H. E., of S. C."—There is no patent whatever on the galvanized chain pumps. Look out for sham patentees.

"J. S. LeC., of Texas."—The same invention as you have, is described on page 26 Mechanics Mirror of 1846. It was tried in England and was a failure.

"W. H. S., of Md."—We believe that your packing is new and patentable and that it will work well. Will write.

"J. A. H., of Ia."—We cannot give you all the information desired about bronzing powder. We have long been in search of it, and although we know considerable on the subject, still we do not know enough to warrant us in giving it as correct and practicable for your use. Mr. D.'s subscription will not expire until 52. The papers have been sent regularly every week.

"S. R., of La."—The common way for you to pursue, is to file a caveat, to secure the leading features of your invention until the rest is perfected.

"F. McL., of Pa."—The best plan for you to pursue is to talk over the matter quietly with I., and we have no doubt but you will settle the difficulty easier than by going to law.

"R. S. I., of S. C."—Your idea is a capital one, but we do not see how the rotary motion is given to the movable ring.

A. H., of La.; J. E. B., of Geo.; W. M. B., of Ala.—Your orders for Cameras were attended to and shipped this week. We hope you will receive them safely.

"N. B., of Mo."—The engraving of your Clutch, has been unavoidably excluded from our columns for some weeks. It will appear in our next—sure.

Money received on account of Patent Office business, since May 1st, 1850:—

S. D. P., of Va., \$20; T. Z., of N. Y., \$30; H. W. T., of Conn., \$20; G. F. N., of Vt., \$25; and T. H. R., of N. Y., \$15.

Back Volumes Scientific American.

We are positively no longer able to supply No 1 of the present Vol.—orders for this number cannot be filled,—subscribers will please bear this in mind.

We are no longer able to supply back Volumes of the Scientific American, complete, of 1, 2, 3 and 4. Our readers will please bear this in mind. Of Vols. 3 and 4 we can furnish sets of about 40 numbers each (not consecutive,) for one dollar per set; of Vols. 2 and 3, sets of about 50 Nos. (containing both Vols.) at the same price (one dollar). We have parcels done up ready for mailing of all the different Vols. referred to above, and on receipt of \$1, either of the sets ordered will be immediately forwarded by mail.

Notice

Whenever any of our friends order numbers they have missed—we shall always send them, if we have them on hand. We make this statement to save much time and trouble, to which we are subjected in replying, when the numbers called for cannot be supplied.

ADVERTISEMENTS.

Terms of Advertising.

One square of 8 lines, 50 cents for each insertion. " 12 lines, 75 cts., " " " 16 lines, \$1.00, " " Advertisements must not exceed 16 lines, and cuts cannot be inserted in connection with them for any price.

A LIST OF VALUABLE SCIENTIFIC AND MECHANICAL BOOKS,

FOR SALE AT THE SCIENTIFIC AMERICAN OFFICE. Ranlett's Architecture, 2 Vols., bound, \$12.00 Minife's Drawing Book, 3.00 American Steam Engine, Plate and Book of Description, 3.00 Scribner's Mechanics, Tuck, Gilt, 1.25 Treatise on Marine and Naval Architecture, published monthly, 12 Nos., each .75 Leonard's Mechanical Principles, 1.50 Mahan's Civil Engineering, 3.00 Morfit's Chemical Manipulations, 2.50 Annual of Scientific Discovery for 1850, 1.00 Duggan's great work on the Stone, Iron, and Wood Bridges, Viaducts, &c., of the United States' Railroads. Published monthly in parts to be completed in 12 parts. Parts 1, 2, 3 and 4 now ready, each .75 N. B. This work is supplied to subscribers only.

WOODWORTH'S PLANING MACHINE—For sale. The right to use this justly celebrated labor-saving machine in the following States, viz. Pennsylvania and Virginia west of the Allegheny Mountains, Ohio, Indiana, Kentucky, Tennessee, Wisconsin, Iowa, Missouri, Arkansas, Texas, Louisiana, Florida, Georgia, Alabama and Mississippi. For particulars apply to Elisha Bloomer, 304 Broadway, or to E. P. Norton, Esq., Cincinnati, Ohio. 34 6*

PATENT RIGHT FOR SALE.—One half of the Right in the Gutta Percha Collapsible Oil Can, is for sale, to raise funds to bring them into market. The Patent is dated April 9, 1850. For terms apply to the patentee, DAVID G. STARKEY, at 200 Mulberry st., N. Y. 34 1*

FOR SALE.—An Iron Planer, planes 6 ft. wide, is 4 ft. high and 22 ft. long; a vertical bar and apparatus for boring cylinders—other machinists' tools, steam engine and shafting. If not disposed of previous to the 20th inst., will then be offered at auction. Enquire of JAMES FROST, Fulton Avenue, near Gold st., Brooklyn. 34 2*

Patent Office.

128 FULTON ST.

NOTICE TO INVENTORS.—Inventors and others requiring protection by United States Letters Patent, are informed that all business relating to the procurement of letters patent, or filing caveats, is transacted at the Scientific American Office, with the utmost economy and despatch. Drawings of all kinds executed on the most reasonable terms. Messrs. Munn & Co. can be consulted at all times in regard to Patent business, at their office, and such advice rendered as will enable inventors to adopt the safest means for securing their rights.

Arrangements have been made with Messrs. Barlow and Payne, Patent Attorneys, in London, for procuring Letters Patent in Great Britain and France, with great facility and dispatch.

MUNN & CO., 128 Fultonstreet, New York.

NEW STYLE AND IMPROVED SLIDE LATHE.—SCRANTON & PARSHLY, New Haven, Conn., will sell the best slide Lathe for \$150 to \$200 less than ever before sold. They are built in the most substantial manner—the heads geared and arbors large and of the best cast steel; the slide rest is held to the bed by guides, fed by a screw 2 in. diameter, and feeds from 5/8 to the in. to 5 1/2-in. pitch, working several hundred different pitch threads within these extremes. Besides the regular lathe feed it has the facing up feed. It is admirably adapted for holding and boring boxes, cylinders and turning and cutting screws. One extra large size centre rest and reversing pulleys go with each lathe. The 12 ft. lathe weighs 4000 lbs. turning 3 ft. 5 in., price \$450. The 15 ft. 7 in. lathes 450 lbs., turning 12 feet, \$500, swings 28 in. For further particulars address as above, (p. p.) Other lathes for sale as heretofore. 34tf

THE UNIVERSAL COUNTERFEIT AND ALTERED BANK NOTE DETECTOR AT SIGHT.—New Improvement—15 illustrations on steel. A System of Infallible Detection, applicable to all Banks in the United States, now in circulation or hereafter issued. Complete in Seven Rules with seven Diagrams and 15 illustrations on steel. Price \$1, including a magnifying glass: mailable.

Address H. C. Foote, 763 Greenwich st., N. Y., or Messrs. Munn & Co., Office of the Scientific American, or Messrs. Stringer & Townsend, 222 Broadway, N. Y. 34 1

COTTON, WOOLEN AND SILK MANUFACTURERS' DEPOT.—ANDREWS & JESUP, No. 70 Pine st., N. Y., dealers in articles for the use of Cotton, Woolen and silk manufacturers, and agents for the sale of shearing, carding, burring, napping, wool-picking, flock-cutting and waste machines, regulators, satin and jean warps, &c. Weavers' reeds and heddles, bobbins and spools, of every description, made to order. Sperm, lard and olive oils and oil soap. 34tf

FOR SALE.—A second-hand Upright Steam Engine of six horse power, with Cylinder Boiler of 22 feet long, 24 inches diameter, together with fly-wheel and shaft, pump, furnace, and bars, in complete—This engine is one of Burden's make: has been used in all about four months, and is in capital order. The engine will occupy about 3 feet square, fly-wheel weighs about 550 lbs., and will be sold for the low sum of \$550, delivered on ship board in good order. A draft for the above amount may be sent to 34 MUNN & CO.

MACHINE BANDS, RUBBER HOSE, &c.—After 20 years devoted to the manufacture of India Rubber, the undersigned feels confident of his thorough practical knowledge of the quality of goods in his line. The three factories now owned and operated by him, turn out large quantities of all kinds and styles of rubber goods in use, mostly vulcanized rubber. Orders for railroads, factories and merchants executed with intelligent regard to wants and best interest of the customer. Warehouse 23 Courtland st., N. Y.; 1 factory at Great Barrington, Mass., with whole flow of Housatonic river for power; 1 at New Brunswick, N. J., by steam power; 1 at Piscataway, N. J., waterpower. These 3 factories embrace machinery and apparatus costing over \$50,000—enabling the owner to execute orders with more promptness than any other establishment in the United States. 33 HORACE H. DAY.

THE YANKEE NATION.—An Independent Literary Journal, containing Original Novelties, Tales of Adventure, Stories, Flashes of Wit, Biography, Poetry; Historical, Humorous, and Scientific Sketches; Editorial Chat, and Literary Reviews; together with the News of the day, Miscellaneous Items, and Original Articles on almost every subject of interest to this "Universal Yankee Nation." The Yankee Nation is edited with great care; and the most popular and spirited writers are engaged to contribute to its columns. As a Miscellaneous Weekly Newspaper, designed for general amusement and instructions, the Yankee Nation is unequalled by any paper in the country, and its contents cannot fail to be appreciated by every reader of taste.

Terms to Subscribers.—One Copy, one year, \$2, invariably in advance. Subscriptions, or orders from local Agents, should be addressed to Hotchkiss & Co., 13 Court St., Boston. 30tf

IMPORTANT INVENTION.—A new article of Machine Belting, made of a material never hitherto used for that purpose is 25 per cent. of power saved by its use. Its expense is 25 per cent. less than the patent stretched leather, or india rubber Belting. All sizes made and constantly kept on hand, from 1 inch in width to 30 inches.

CERTIFICATE.—J. McCarthy.—Having had several of your Flexible Cement Belts in use in our mill for the last 3 or 4 months, we cheerfully testify to their superiority, in many respects over any kind of belting we had hitherto used. ELIZUR CLARK, & Co. This Belting is warranted to give satisfaction, or the money will be refunded. Manufactured only at Salina, Onondaga Co., N. Y. Orders are respectfully solicited. Address JOHN MCCARTHY. 32 5*

SASH AND BLIND MACHINE.—Patented by Jesse Leavens, of Springfield, Mass., is the best Sash and Blind Machine now in use. The Machine cost \$300 at the shop where they are made, near Springfield—extra charge for the right of using. The machine does all to a Window Sash and Blind except putting them together. Orders from abroad will be promptly attended to, by addressing JESSE LEAVENS, Palmer Depot, Mass. 22 20t*

MACHINERY.—S. C. HILLS, No. 12 Platt Street, N. Y., dealer in Steam Engines, Boilers, Iron Planers, Lathes, Universal Chucks, Drills, Kase's, Von Schmidt's, and other Pumps, Johnson's Shingle machines, Woodworth's, Daniel's and Law's Planing machines, Dick's Presses, Punches, and Shears; Morticing and Tenoning Machines, Belting, machinery oil; Beal's patent Cob and Corn Mills; Burr Mill, and Grindstones, Lead and Iron Pipe, &c. Letters to be noticed must be post paid. 33tf

VENTILATION.—The Subscriber being desirous of making arrangements for the extension of a system of Ventilation, for which he has lately obtained Patents in the United States and Canada, as widely as possible, would be glad to hear of persons in the United States who would undertake its management in such sections and localities as might be agreed upon, especially New York and Boston. The whole operation is natural or spontaneous, and whilst it thoroughly ventilates it also, by the same operation in cold weather, warms the building to which it is applied—floors and all—and with an economy in fuel, (the quantity of external air kept in circulation considered) far beyond any other means in use. It may be applied to buildings already erected, and cheaper than the present pernicious hot-air system, but if a good dwelling house be erected for the purpose, it can be applied to such building for a sum in many cases less than the estimate would be for furnishing it in the usual manner, without the ventilation. The subscriber wants no money down, but is willing to alienate his right for a trifling reservation on each building ventilated. Letters post-paid to the lines will receive immediate attention until the first of June next. H. RUTTAN, Coburg, Canada West, 8th April, 1850. 32 6*

THE AMERICAN UNION.—The most carefully written and best arranged Paper in the United States. This Popular Paper is supplied with Selected Stories Humorous Sketches, Tales of Travel; Romances, Sketches of Real Life, Biographies, Poetry Serious Sentimental, and Humorous; Gems from New Works, Local Matters, Reviews Agricultural Treasuries, Scientific Novelties, Anecdotes, Glimpses of the Law, Opinions, Correspondence, Foreign and Domestic News, Congressional and Legislative Intelligence, Accidents and Casualties, Financial Articles, Markets, Miscellaneous Editorial Articles, amusing sketches, facts and fancies, such as never before has been in one publication. As a General Family Paper it is unsurpassed for the variety and completeness of its contents, and for the great care that is taken, while it shall amuse, to instruct and elevate the mind to a sense of its natural dignity. For the old, it will be found stored with experience—for the young, it will possess a charm that will not contaminate or cloy the taste. Published weekly by R. B. FITTS & CO., 22 School Street, Boston, Mass. Terms—Two Dollars per annum, payable in advance. 32 8*

MANUFACTURERS' SUPPLY STORE.—The subscribers would call the attention of manufacturers generally, to his stock of articles for the use of factories, both cotton and wolle, consisting of every variety and kind used by them, which he can offer at as fair rates as any other establishment in this or any other market. He has also constantly on hand a full assortment of Leather Belting, revetted, stretched, and cemented, of all sizes, made from the best material, and in the best manner, warranted equal, if not superior to any made in this country, and at prices which must be satisfactory to those wishing a superior article. He is also agent for the sale of Cotton and Woolen Machinery of the most improved kinds. Those favoring him with a call will be satisfied, both in regard to quality and price. P. A. LEONARD, 66 Beaver st. 23 3m*

TWO PAINTERS AND OTHERS.—American Anatomic Drier, Electro Chemical graining colors, Electro Negative gold size, and Chemical Oil Stove Polish. The Drier, improves in quality, by age—is adapted to all kinds of paints, and also to Printers' inks and colors. The above articles are compounded upon known chemical laws, and are submitted to the public without further comment. Manufactured and sold wholesale and retail at 114 John st., New York, and Flushing, L. I., N. Y., by QUARTERMAN & SON, Painters and Chemists N. B.—The drier for printers' inks will effect a great saving, as the boiled oil, used by painters, will answer the purpose, without further preparation. 22 3m*

ATTENTION.—Lumbermen, Mill Owners and Sawyers, who are still using the old stiff jointed Noddle Pin in your saw mills, know ye not that G. Hotchkiss, of Windsor, N. Y., has invented and received letters patent for the "Equilibrium Noddle Iron," a new article that will prove the "ne plus ultra" for connecting the pitman and saw, as it has given entire satisfaction wherever tried, even by those who would hardly look at it at first. Its peculiar advantages are lightness and durability, being attached directly to the lower stirrup by a four pointed knuckle or pivot, in such manner that it can vibrate in either direction. It drew the first premium on miscellaneous articles at the State Fair at Syracuse. All orders (post paid) addressed to HOTCHKISS & SAGE, Windsor, Broome Co., N. Y., will receive immediate attention. 32 5*

MATTEAWAN MACHINE WORKS.—Locomotive Engines, of every size and pattern. Also tenders, wheels, axles, and other railroad machinery. Stationary engines, boilers, &c. Arranged for driving cotton, woolen and other mill. Cotton and woolen machinery of every description, embodying all the modern improvements. Mill gearing, from probably the most extensive assortment of patterns in this line, in any section of the country. Tools, turning lathes, slabbing, planing, cutting and drilling machines. Together with all other tools required in machine shops. Apply at the Matteawan Co. Work, Fishkill Landing, N. Y., or at No. 66 Beaver st. New York City, to WILLIAM B. LEONARD, Agent. 24tf

FOREIGN PATENTS.—PATENTS procured in GREAT BRITAIN and her colonies, also France, Belgium, Holland, &c., &c., with certainty and dispatch through special and responsible agents appointed, by, and connected only with this establishment.— Pamphlets containing a synopsis of Foreign Patent laws, and information can be had gratis on application. JOSEPH P. PIRSSON, Civil Engineer, 53tf Office 5 Wall street, New York.

TO IRON FOUNDERS AND MACHINISTS in the Northern and Eastern States.—The Subscriber, sole agent for the sale of rights to make and sell the celebrated Bogardus Horse Power, will contract with any one disposed to manufacture the best horse power in the world, upon reasonable terms. Address GEORGE VAIL, Morristown, N. J. 1am 1y*

IRON FOUNDERS FACING DUST.—An approved article of Sea Coal Dust t mix with moulding sand; also superior Charcoal Foundry Blacking, Lehigh Blacking, Soapstone and Black Lead Dust, Fire Clay, &c.—for sale by G. O. ROBERTSON, City office 4 Library Place, (formerly Little Green street), near the Post Office, N. Y. 32 2*

JONATHAN TAYLOR, Machinist, Montgomery, Alabama, begs leave to inform inventors and the public in general, that he is prepared to make patterns and models to order. He is also desirous of being appointed agent for the disposal of all kinds of patent machinery. Office on Commerce street, two doors from the Exchange Hotel. All letters must be post-paid. 32 10*
