Scientific American.

TO CORRESPONDENTS.

"J. O. of N. Y."-We should like to see the carbonic acid liquid tested, to decide its economical value in the salt business, but we have doubts about it. The best kind is made sued at Syracuse. The ink is different for subscription to No. 48, Vol. 6. printing, because it is mixed with oil or soap which prevents it from adhering like a dye to have shipped each of you one of Alcott's

"W. M., of N. Y."-Mr. Morse tried to print letters before he used his present mode but found that the plan now used by him was quickest, and this is our opinion also. We do not believe it would do so well; if you can your respective places for execution. Please make it work as fast-then you have got a follow the instructions which accompany each valuable improvement, but the merit of it will of your documents, and return the papers to stand or fall by this test. The Patent Office appears to be willing to grant a patent for any telegraph on the chemical side of the question.

"S. A. R., of Ala."-A case of drawing instruments can be purchased here for from \$10 to \$50. The highest priced ones are the cheapest in the end. Benj. Pike & Son, 166 Broadway, can supply you: we do not keep them for sale.

"C. J. T., of Ky."-Personally we are not interested in the rights of "Wood's Patent Shingle Machine," but communications in regard to it can be addressed to this office, as we see the owners every week. The machine gives good satisfaction to all who have used it, and the rights are fast being disposed of.

W. W. B., of R. I."-Your plan seems to be a very good one, but we cannot encourage you to offer it, as it is not probable that the enterprise can be carried into effect at present. A powerful opposition would manifest itself the moment it would be likely to succeed. The Common Council is the proper source to ap-

"P. C., of Me."-It occurred several years ago; the project has never been revived, and will not be, in our opinion. It is entirely impracticable, and too expensive in the bargain.

"L. F. H., of Vt."—The drawing of your churn has been examined: it is entirely dissimilar to Mr. W.'s, and strikes us as being novel; but you could not obtain a valid patent, for the reason that you have had it in use too long.

"D. M., of Ohio."—Your letter has been handed over to the best engine builder in the city for attention.

"L. L., of Pa."-Since noticing Dr. Gesner's light we have received several letters in regard to it. We presume that Messrs. Walworth, Nason & Guild, 79 John street, will answer all letters sent to them, post paid.

"J. McC., of N. Y."-As soon as we receive advices from L. & J., in regard to the belting; the amount of your bill will be enclosed. We have furnished them with the substance of your letter.

"S. H., of Pa."-We do not think we shall be able to do anything with your discovery; applications of this kind are constantly being made to us, but we find no time from our other business to attend to them. You might advertise it through the papers

"M. & B., of Mich."-Your sample of wheat was received in fine order, and immediately forwarded to the Patent Office. You may look daily for the result of Mr. Carpenter's application.

"D. B. P., of S. C."-We were gratified to learn that your manufacturing enterprise has been so successful, and we are sincerely obliged to you for the fine list of subscribers you sent us. You understand the philosophy of success in business, it is apparent, and so long as you retain so many in your employ that appreciate and take the "Scientific American," your interests are safe. The agent of an other manufacturing establishment wrote us the other day, enclosing in his letter \$20 for subscriptions, adding a note at the bottom that he considered the "Scientific American" as useful in his village as the use of lucubrating oil to his machinery-i. e., either were indispensable.

"R. M. C., of N. Y."-Get an engraving published in the Sci. Am. It will be of immense benefit to you.

"B. A."—We are obliged to you for your article on Steam versus Water Power.

"L. L. M., of Mass."-The expences of a patent are indeed small in comparison with the benefits you will receive from it-be assured of that in your case.

"H. W. S., of N. Y."—The \$2 received by solar evaporation—this plan is largely pur- from you on the 6th inst., will pay up your

> "G. S. G., of Pa., and J. M., of Del."-We Lathes, according to your directions. They were sent Aug. 7th.

J. E. L., of N. Y.; H. H. M., of Ill.; P. McK of S. C., and D. M. G. of Me .-

Your specifications have been forwarded to this office as soon as executed.

Money received on account of Patent Office business, since August 1st, 1850 :-

I. Z. A. W., of Phil., \$37: A. & P., of Mass., \$10; M. N., 2nd, of Pa., \$40; T. R. of Conn., \$15; A. C., of N. Y., \$20; N. J. W., of Mass., \$10; J. W. & Co., \$45, and W. H. S., of Phila., \$40.

Back Volumes Scientific American.

We are obliged to inform our patrons that

pense in producing this valuable work, he would esteem it as a marked favor if the subscribers would be prompt in remitting for the completion of the Volume. Like many other co-laborers engaged in the field of extending useful publications. Mr. Duggan has not met sufficient encouragement to induce one of less determination than himself to go forward. His intention however is to complete the work, relying upon the generosity of the American Engineer for support, which we have no doubt in the end he will receive.

Sir Isaac Newton told Mr. Conduit that he had often heard his mother say that when he was born he was so little that they might have put him into a quart mug.

A sea-cow has been caught near Jupiter Creek, in Florida, which weighs 1,500 pounds. Barnum, it is said, has bought it.

Important Notice to us:

Whenever any of our friends order numbers they have missed—we shall always send them, if we have them on hand. We make this statement to save much time and trouble, to which we are subjected in replying, when the numbers called for cannot

10 IRON FOUNDERS, &c.--Fine ground And bolted Sea Coal, to mix with moulding sand, an approved article ground from selected lump; Charcoal Foundry Blacking; Bolted Lebigh, Scapstone, Black Lead Foundry Facing; also Fire Clay, and Iron and Brass Founder's superior Moulding Sand, in barrels, for sale by G. O. ROBERTSON, New York. City Office 4 Liberty Place, Maiden Lane, near the Post Office. AMERICAN AND FOREIGN PATENT

AMERICAN AND FOREIGN PATENT AGENCY.

WE WOULD remind our numerous friends throughout the country, that we still continue to conduct the business of procuring Letters Patent for new inventions in this and all foreign countries, where the right is recognized Since making arrangements with those eminent attorneys, Messrs. Barlow, Payre & Parken, Editors of the London Patent Journal, we have secured and managed through them, several foreign applications, with the utmost economy and facility. Inventors and others, desiring advice upon this subject, can correspond confidentially with the Editors of this paper.

PATENT ROCK DRILLING MACHINE

The celebrated Rock Drilling Machine, invented by Messrs. Foster & Bailey, of this city, and described with an engraving on page 153 of Vol. 3 of the Scientific American; is now offered for sale in rights to suit purchasers. The machine has been thoroughly tested upon all kinds of rock, and its superiority over every other drilling machine that has yet been invented, must be apparent to every one who has had experience in using machines for this purpose. A silvermedal was awarded to the inventors by the American Institute, and while it was exhibiting at the Fairfor a few days, it attracted crowdsto witness its simple but successful operation. A model of the machine with the "Silver Medal," may be seen at the Scientific American Office, and any letters of enquiry concerning the purchase of rights may be addressed, (post-paid) to MUNN & CO.

P. S.—A valid patent is secured on the above, and DATENT ROCK DRILLING MACHINE

(post-paid) to
P. S.—A valid patent is secured on the above, and
the public are cautioned not to infringe the claims.
Patent Rights for sale for any State, county, or sec-Patent Rights for sale for any sease, tion, and working drawings furnished to the purchator, and working drawings furnished to the purchator.

A LIST OF VALUABLE SCIENTIFIC AND MECHANICAL BOOKS,

FOR SALE AT THE SCIENTIFIC AMERICAN OFFICE Ranlett's Architecture, 2 Vols., bound, \$12,0 ft Minife's Drawing Book, 3,00 ("Scientific American," Vol. 4, 40 Nos., unbound, 1,00 scription 3,00 We are obliged to inform our patrons that complete sets of all the past Volumes are entirely exhausted.

Those desiring to secure Volume 5 but have delayed subscribing at first, are advised to remit \$2 without delay or they may be disappointed in getting a volume at all, should they wait until the Nos. are all published?

Duggan's Work on Bridges.

Subscribers to Duggan's Work upon Bridges whe have paid only \$5, are notified that the balance of the subscription is now due. As Mr. Duggan has been subjected to a great extended to the subscriber of the subscriber of

THOS. PROSSER & SON, Patentees,							
August 6, 1850. 28 Platt st., New York.							

Woodworth's PATENT PLANING Machine 1850 to '56.—Recent decisions having finally established all the claims of this patent, the subscriber is prepared to dispose of the right to use the machine in the unoccupied Counties and Towns in the State of New York and in Northern Pensylvanis.

These machinese as made by the subscriber at one operation radius to a thickness plane tony groups. ration reduce to a thickness, plane tongue, groove, head and rabbet all kinds of lumber in a better manner and four times as expeditiously and cheaply as such work can be done by hand or by any other machine For exclusive or single rights, apply to JOHN GIBSON, Planing Mills, Albany, N. Y. 37 6eow*

CLOCKS FOR CHURCHES, PUBLIC Buildings, Railroad Stations, &c.—The subscriber having made important improvements in the construction of Clocks, especially in the apparatus for ber having made important improvements in the construction of Clocks, especially in the apparatus for counteracting the influence of the changes of temperature upon the pendulum, and in the retaining power, (which keeps the clock going while being wound up) together with a most precise method of a djusting the pendulum to correct time, are prepared to furnish time-keepers of a very superior quality, both for accuracy of time-keeping and durability. They speak with confidence, from having tested their performance for several years. The terms of payment will be so arranged as to afford purchasers ample apportunity to test their qualities. Address SHERRY & BYRAM, Oakland Works, Sag Harbor, Long Island.

CUTTING ENGINE FOR SALE.---The subscribers have for sale a superior and handsomely finished Cutting Engine, for cutting either spur, bevel or spiral gearing, in infinite variety, from the smallest up to 5 feet in diameter, the index having 26,000 holes. The machine has been but little used, and when new cost \$700 and is supplied with iron cones, loose and tight pullies for driving belts. Address

TALLEGT & CANFIELD,

Owego, N. Y.

MACHINISTS.--The 6 feet Planing Machine offered for sale, by Faulkner & Lewis, in the four previous numbers of this "paper, is now offered for the low sum of \$500. The finish is unexceptionably good in every particular, is worked by three pulley and one belt; the speed is 340 back to one forward; the rack is divided into fifths, which enables it to plane perfectly smooth, which can be tested before purchasing.

464*

JUST ISSUED -- A new edition of Minifie's Mechanical Drawing Book, substantially bound in paper, which can be forwarded through the mail.

Price \$3. For sale by MUNN & CO., Agents, New York.

TO THE THINKERS OF NEW YORK KNOX is desirous that every rational man in want of a hat, should, for a moment, think before deciding where they shall supply that want. hinkst that 123 Fulton st, is just the spot.

POWER PLANING MACHINES.—
scranton & Parshley, New Haven, Conn., have now finishing off 12 power Planers that will plane 8 feet long, 27 inches wide and 24 inches high; these planers are of the first quality, are self-feeding every way; the table is worked by arack and pir.ion: the bed is 12 feet long. With each planer there is a splining head and counter shaft, pullies and hangers. They weigh about 4000 lbs.; the price, boxed and ready to ship, is \$625. Also 12 hand lathes, with back gear on iron shears, and legs 7 feet long, swing 20 inches, about 700 lbs. weight—\$75. These lathes are of the first quality.

A LCOTT'S CONCENTRIC LATHES.—

We have on hand a few of those celebrated Lathes, which the inventor informs us will execute superior work at the following rates:—

Windsor Chair Legs and Pillars, 1000 per 11 hours. Rods and Rounds, 2000; Hoe Handles, 800; Fork Handles, 500; Broom Handles, 150 'per 11 hours. This Lathe is capable of turning under two inches diameter, with only the trouble of changing the dies and pattern to the size required. It will turn smooth over swells or depressions of 3-4 to the inch, and work as smoothly as on a straight line, and does excellent work. Sold without frames for the low price of \$25-boxed and shipped, with directions for setting up. Address, (post paid)

MUNN & CO., At this Office

PAINTERS AND OTHERS.--American Anatomic Price. Flores rican Anatomic Drier, Electro Chemical graining colors, Electro Negative gold size, and Chemical Oil Stove Point. The Drier, improves in quality, by age—is adapted to all kinds of paints, and also to Printers' inks and colors. The above articles are compounded upon known chemicallaws, and are submitted to the public without further comment. Manufactured and sold wholesale and retail at 114 John st., New York, and Flushing, L. I., N. Y., by QUARTERMAN & SON, Painters and Chemists

COTTON, WOOLEN AND SILK MANU-FACTURERS' DEPOT.—ANDREWS & JESUP. No. 70 Pine st., N. Y., dealers in articles for the use of Cotton, Woolen and silk manufacturers, and agents for the sale of shearing, carding, burring, napping, wool-picking, flock-cutting and waste machines, regulators, satinet and jean warps, &c. Weavers' reeds and heddles, bobbins and spools, of every description, made to order. Sperm, lard andolive oils and oil soap.

A PPARATUS FOR BORING CYLIN-A ders for sale—Price \$500, originally cost \$1000, and is as good as new.—A Vertical Boring Machine, eleven feet long, with apparatus for correctly boring iron cylinders of any size, from 8 inches to 4 feet diametor. This machine is in good order and complete, and the only reason for its being offered for sale is on the ground of the owner relinquishing business. The machinery will be preperly packed and placed on shipboard for the price above specified, (\$500). Letters concerning it was baddysaed (seet said) to this of concerning it may be addressed (post-paid) to this office. MUNN & CO. 46 tf

STEAM ENGINES AND BOILERS,--The TEAM ENGINES AND BOILERS.—The undersigned has for sale one engine of 12 horse power, 1 of6 and 1 of 5 horse power, new and of good quality; also one second-hand engine and boiler, 14 horse power, for \$950, in good repair; 1 of 6 horse power, in good working order, with boiler, for \$300. Steam Boilers made to order at the lowest cash prices and of the best materials; also planers, fan blowers, heaters, pumps, shafting pullies, &c., at No. 4 Howard st., New Haven, Ct. AARON KILBORN. 426*

WOOD'S PATENT SHINGLE MA_
strated and described in No. 23, Vol. 5, Scientific American, are offered for sale in Town, County and State
Rights, or by single machines. There are three sizes,
the first cuts an 18 inch shingle, price, \$100; 2nd cuts
44 inch, price \$110; 3rd, 29 inch, \$120. Orders addressed to J. D. Johnson, Redding Ridge, Conn., or to
Munn & Co., "Sci. Am." Office, will meet prompt
attention.

ACHINERY.--6. C. HILLS, No. 12 Platt
Street, N. Y., dealer in Steam Engines, Boilers, Iron Planers, Lathes, Universal Chucks, Drills
Kase's, Von Schmidt's, and other Pumps, Johnson's
Shingle machines, Woodworth's, Daniel's and Law's
Planing machines, Dick's Presses, Punches, and
Shears; Morticing and Tennoning Machines, Belting, machinery oil; Beal's patent Cob and Corn Mills,
Burr Mill, and Grindsicones, Lead and Iron Pipe, &co.
Letters to be noticed must be post paid.

BURR MILL STONES.--We have made ar rangements which will enable us to supply all kinds of French Burr, Holland and Esopus Mill Stones of the best material and manufacture, at the lowest prices. Burr Mill Stones made to order and warranted to be of the best quality; Burr Blocks for sale.—Orders addressed to MUNN & CO., post-paid, at this Office, will meet with prompt attention.
