TO CORRESPONDENTS.

"A. M. O., of Wisconsin."-Such bits as you want could be had on application to T Wood, corner of Chatham and Duane sts. The price can be had on application to him. Your method of operating them may answer a good purpose. It is not new.

"A. E. F., of Conn."-To speak plainly W., of La., \$60. and to the point, we must candidly state that the device you offer as an improvement on the steam engine-is of no value whatever. Experiments made years ago prove the correctness of our views. Go no further, for disappointment will surely follow. You have been misinformed in regard to Patent Laws. Patents are granted for 14 years only, not 28. -Inventors are required to make oath to their inventions when application is made.

"W. H. S., of N. Y."-You are correct, for proof see page 230, Vol. 5, Scientific American. Dr. Fitch's claim is there published.

"P. O., of Conn."-It is all nonsense, and we advise you to pay no attention to such statements. You can obtain a patent unless your invention has been in use for more than two years.

"H. J. B. C., of N. C."-Agricultural plaster is worth \$1,50 per barrel, each containing about 300 lbs., we should think. Patagonia Guano is worth here \$2,50 per hundred, a good article.

them to furnish it. \$7 received.

"G. H. R., of Ill."-We have reconsidered your case, and we are of the opinion that in Haines & Esterley's patents, the principle of elevating is essentially the same as yours. If you obtained a patent at all, the claim would be very limited and we advise you not to apply. The difference between yours and the one above mentioned is merely mechanical and could not be regarded as an invention. We feel assured that you would have difficulty in getting the patent through. \$6 received and credited to each subscriber.

"L. B. G., of Pa."-You are at liberty to consult us in regard to the novelty of your improvements. We will give you an opinion without charge. \$1 received.

"A. J. R., of N. Y."-We do not think it possible for you to succeed. We can see neither novelty nor utility in the plan you propose for preventing cars from running off the track. It would not inspire any confidence on the part of those who would be likely to take interest in such inventions.

"E. F. P., of Ohio."-Certainly if the principle is new you can obtain a patent. You had better consult us before going any further.

"S. M., of O."-The cost of preparing the papers for an application for a patent, vary from \$15 to \$50 according to the amount of labor necessary to make the drawings.

"Publisher of the 'Chronicle,' of N. Y. Please accept our thanks for your manifested kindness. We have entered Mr. E.'s name as you directed and forwarded the back numbers to the "Chronicle."

"T. R., of N. Y."-Your requests have been attended to. Shall await your arrival here, or further instructions by letter.

"N. McQ., of Ala."-There is nothing patentable in your plan for raising water. It has been done before.

"W. T. M., of S. C."-We will attend to Mr. I.'s business upon receipt of the model.

"S. K., of Ind."-We are unable to com-

business, since Dec. 17, 1850 :-

\$30; H. D. G., of N. Y., \$20; U. P., of Conn., \$20; A. T., of N. Y., \$30; G. F. D., of Vt., \$60; N. N. G., of Me., \$30; H. D. P., of Mass., \$25; C. F. B., of Ga., \$35; and G. E.

Patent Claims.

Persons desiring the claims of any invention which has been patented within fourteen years can obtain a copy by addressing a letter to this office; stating the name of the patentee, and the year the patent was granted (adding the month of the year when convenient), and enclosing one dollar as fee for copying.

Standing Notice to Subscribers.

Henceforth, parties ordering the Scientific American will be supplied with the papercommencing at the time the order is received, unless they particularly mention that the back Numbers of the present Volume are desired. We have on hand over 3,000 sets of the Numbers already published, and shall be happy to furnish all new subscribers with completesets whenever requested.

The present volume of the Scientific American will be the most valuable encyclopedia, er year book of inventions we have yet published, and every person ordering it should not fail to receive the back numbers, to render his volume complete.

Those desiring Volume 5 of the Scientific "T. K., of Pa."—Not having such infor-mation as you desired, we addressed Messrs. Wheeler, Melic & Co., Albany, requesting complete, (unbound,) for \$2. We would also say, that whenever our friends order numbers they have missed-we shall always send them if we have them on hand. We make this statement to save much time and trouble, to which we are subjected in replying, when the numbers called for cannot be supplied.

> ADVERTISEMENTS. Terms of Advertising : One square of 8 lines, 50 cents for each insertion 12 lines, 75 cts., " " " " 16 lincs, \$1.00 Advertisements should not exceed 16 lines, and cuts cannot be inserted in connection with them for any price.

Patent Office.

128 FULTON ST.
