THE NEW YORK OBSERVER

The ARELIGIOUS AND SECULAR NEWSPAPER, PUBlished on a double sheet, so as to be easily separated into two distinct papers.

In Religion it is free from sectarianism, and gives a full, fair and impartial report every week of all matters of general interest in all the denominations.

In Politics it is entirely free from party relations or affinities, discussing great principles with freedom and candor, and giving the full est and latest intelligence of all the movements of the day. It supports the Government with vigor, facility and zeal, in its efforts to crush the rebellion and restore the Union and preserve the Constitution. It criticises with freedom whatever measures are not adapted to the accomplishment of these ends; but its steady purpose, from the beginning of the war, has been and will be, to uphold the hands and strengthen the heart of the Government, while it puts forth its energies to protect us against the most unbuly rebellion that ever disturbed the peace of any country.

The N.Y. Observer is the most complete family newspaper in the world. In the variety of its Departments, in the fulness of its Information, in the extent of its Correspondence, in the number of minds enlisted in its Editorial and other columns, in the amount of money expended in procuring materials to enrich and adorn its pages, in the healthful, religious, conservative, genial tene that pervades the paper. In its stores of agreedue, biography, poetry, science, art and general literature, it will strive to exceed every other weekly paper. GREAT INDUCEMENTS.

The proprietors of the New York Observer offer the following valuable premiums for new subscribers. In all cases, the new subscribers must be those who have not in their own or others' names taken the paper during the past year.
