A New Kind of Razor

You'll be surprised at the way "The Real" Safety Razor shaves—different from any other razor. It shaves clean and keen—smooth and easy. It doesn't pull or break hairs. "The Real" is the only perfect razor for self-shaving. The rigid handle and the anti-cut guard make it better than the ordinary razor—better control of the blade on face, strop or hone—quicker work possible—no cutting. It's better than other "safety razors" because it's a razor—not a hoe. Made of the very finest razor steel—full concave—2 1/4 in. blade. A \$2 bill buys it—of your dealer if he has it—if not, from us. If the first shave isn't right—you may have your money back.

Conklin's

"The Pen That Fills Itself"

IF WE COULD PUT A CONKLIN SELF-FILLING PEN into your hand at this moment instead of merely telling about it; if you could press the lever, and fill the pen and write with it—we know for a certainty you'd never be satisfied with any other. Will you let us prove to you that the CONKLIN is really the superior pen we say it is? All we ask is that you send our beautiful new illustrated catalogue.
