Scientific American.

TO CORRESPONDENTS.

2J. M., of Ill .- We made no allusion to the blue and yellow calicoes: there is no necessity for giving them any chlorine; but all light clear blues should be bleached before they are dyed, or they will have a muddy ap-

W. Y. G., of Ky.—If you propose using a gate saw attach it to a crank on the main shaft by all means, muley saws are, however, much the best, and these latter are often judiciously run with a belt.

W. S. F., of Ohio-Your press will operate, butit is of no value inasmuch at you never can obtain any more pressure than can be derived from the weight of the ar

ticle to be pressed.

W. B.N., of N. Y.—We should suppose that your dis covery is a valuable one, for the present pictures are al negative.

A. H., of Me.-There is not the slightest patentable novelty in your force pump. We presume it would ope rate well, but no better than some others.

O. C. C., of N. Y.-If you wish to procure a good double force pump, apply to Messrs. Cowing & Co., at Seneca Falls, N. Y.; they are large and very reputable manu factures.

J. G. P., of Ohio-The brake which you describe an pears to be different in some respects from any thing which we have ever seen, but we fear it is too complica ted ever to become a successful competitor of the simple plan now in use.

F. W. C., of Ohio-A pen having a hollowholder to be used as a reservoirfor ink, which is fed to the pen by means of a tube, is an old device. Fountain pens of va rious construction have been employed to a very limited

W. R. S., of N. Y .- We have frequently seen a table and a settee combined in one piece of furniture. The plan which you describe embraces no new or patentable

N. K., of Pa .- Adoor fastener no larger than a very small tobacco box is patented by Mr. Kittle. of Buffalo, N. Y. If you will send us one we can better advise you in regard to its novelty.

E. T. M., of N. Y .- Such a life preserver as you de scribe is not new. Experiments were made in this city some three years ago with Ralston's Preserver, which operated as a perfect and positive protection to the bo dyof the wearer: the expense of the article is the only reason we can give why it has not been introduced into

J. H., of Ind.—We cannot furnish the information which you seek in regard to the Geological Alphabets. We do not know who sells them. S. W., of Ct.—The volume of Newton's Journal which

yon want cannot be furnished by any one that we

H. T. K., of Ohio-A band or clutch for clasping car riage hubs, secured by means of a screw bolt could not be patented. Such clasps are wellknown for other purposes, and their adaptation to this would not constitute a patentable feature.

G. E. of Wis -We do not discover anything in your alleged improvement in drills which could be patented. E. M., of N. Y .- Pumps having buckets secured to an endless chain for raising water are old and well known See Ewbank's Hydraulics, or any other work upon the subject. We find nothing new in your proposed plan.

M. M. G., of Ky.-The application of glass tubes to boilers for indicating the hight of water therein is not D. B., of Ct.-Perhaps the burnish is finished by hard

rubbing with a buffleather finisher.

P. R., of L.I.—It appears to us that it would have the

same effect if the steam was up or off: but how are you

then to apply it.

H. S., of Ind.—You may depend upon it, that you plan will not operate.

C. A. C., of Mass.—Get Clarke's work on Locomotives

it is now publishing in numbers at 62 1-2 cents each, by Blackie & Son, 117 Fulton st., this city. J. D. L., of Pa.-You can render linseed oil capable of

drying easily by boiling it for some time, and adding about 1 lb., of the sulphate of zinc to the gallon. T. M., of Mass.-Thelogotype is now practiced in one

office in this city; you could not obtain a patent. R. J. N., of Ga.—You will never be able to obtain any useful or valuable power from permanent magnets.

J. M., of N. Y.—The subject passed from our recollec-ion, but the new plan is not a good one. S. W. D., of Ohio—Ifyour plan for magnifying and re-

producing objects on a magic lantern is new, then you can obtain a patent, not otherwise. The person who makes an improvement on yours, cannot use your plan

W. F., of Liverpool-We have marked your subscription up to Jan. 1st, 1855. After deducting the f ll amount of your subscription up to the above date, we find there remains your due \$8,64.

C. G., of N. Y .- A machine (Foster's patent) for pick ing up stones was exhibited at the Crystal Palace-but it was incapable of doing what you claim for yours :send us a model.

O. W. C., of Wis -Arnot's Gothic Architecture published by Appleton & Co., of this city will answer your

M. C., of La.-We have carefully read your specifica tion of an improved process for tanning hides. A patent was obtained in England thirty years ago by Knowles & Dusenbury, for the same process, viz., extracting the air from skins in an air-tight vessel.

A. H. R., of Pa-Your specification and drawin

been sent to the Patent Office before your letter of the 4th reached us, but we think the former was correct as submitted.

Money received on account of Patent Office busines

for the week ending Saturday, Feb. 11:F. M. H., of O., \$30; C. & J., of R. L., \$35; J. S. S., of Md., \$30: J. R., Jr., of Mich., \$25; M. & B., of N. Y., \$25: T. B. S., of N. J., \$5: C. A. W., of Mass., \$50: F. C., & S., of N. Y., \$275; G. B., of N. Y., \$250; V. & K., of N. J., \$25; P. M., of N. Y., \$25; B. S. W., of R. I., \$110; S. H., of N.Y., \$5: A. H., of N. Y., \$10: J. V. S., of Ohio, \$25, S. H. D., of Mich., \$30; W. W. & Co., of N. Y., \$55; G. VaniZ., of N. Y., \$30; J. M., of Ct., \$25i: W. G., Jr., of N. Y., \$15; H, T., of Ct., \$30; A.P., of N, Y., \$25.

Specifications and drawings belonging to parties with the following initials have been forwarded to the Patent Office during the week ending Saturday, Feb. 11:

M. & B., of N. Y.: J. R., Jr., of Mich. : V. & K., of N.J. ., of O.; A. P., of N. Y.; S. H., of N. Y.; R. S. T. of N. C.; H. W. A., of N. Y.; J. V. S., of Ohjo.

A Chapter of Suggestions, &c

PATENT LAWS-The seventh edition of the American Patent Laws and Guide to the Patent Office, published by us, having been exhausted, we shall not be able tofurnish orders under ten days or two weeks. Those who have remitted money for copies will be supplied immediately on the issuing of a new edition.

PATENT CLAIMS-Persons desiring the claim of any invertion which has been patented within fourteen years, can obtain a copy by addressing a letter to this office stating the name of the patentee, and enclosing \$1 for fees for copying.

PATENTEES—Remember we are always willing to execute and publish engravings of your inventions, providing they are on interesting subjects, and have never ap peared in any other publication. No engravings are inserted in our columns that have appeared in any other journal in this country, and we must be permitted to have the engravings executed to suit our own columns in size and style. Barely the expense of the engraving is charged by us, and the wood-cuts may be claimed by the inventor, and subsequently used to ad-Vantage in other journals.

To Correspondents.—Condense your ideas into as brief space as possible, and write them out legibly, always remembering to add your name to the communication, anonymous letters receive no attention at this office If you have questions to ask, do it in as few words as possible, and if you have some invention to describe come right to the business at the commencement of your letter, and not fill up the best part of your sheet in making apologies for having the presumption to ad dress us. We are always willing to impart information if we have the kind solicited.

BACK NUMBERS AND VOLUMES-In reply to many interrogatories as to what back numbers and volumes of the Scientific American can be furnished, we make the following statement: Of Vols. 1, 2, 3, and 4—none. Of Vol. 5, all but six numbers, price, in sheets, \$1; bound, \$1,75. Of Vol. 6, all; price in sheets, \$2; bound, \$2,75. Of Vol. 7, all; price, in sheets, \$2; bound, \$2,75. Of Vol. 8, none comple, but about 30 numbers in sheets... which will be sold at 50 cents per set; of Vol. 9, none previous to Jan. 1st, 1854.

GIVE INTELLIGIBLE DIRECTIONS—We often receive letters with money enclosed, requesting the paper sent for the amount of the enclosure, but no name of State given and often with the name of the post-office also omitted Persons should be careful to write their names plainly when they address publishers, and to name the postoffice at which they wish to receive their paper, and the State in which the post-office is located.

RECEIPTS—When money is paid at the office for sub tions, a receipt for it will always be given, but when subscribers remit their money by mail, they may con sider the arrival of the first paper a bonafide acknow ledgment of the receipt of their funds.

American and Foreign Patent Agency.

MPORTANT TO INVENTORS.—The undersigned having for several years been extensively engaged in procuring Letters Patentfor new mechanical and chemical inventions, offer their services to inventors upon the most reasonable terms. All business entrusted to their charge is strictly confidential. Private consultations are held with inventors however, need not incur the expense of attending in person, as the preliminaries can all be arranged by letter. Models can be sent with safety by expense, or any other convenient medium. They should not be over 1 foot square in size, if possible.

Having Agents located in the chief cities of Europe, our facilities for obtaining Foreign Patents are unequalled. This branch of our business receives the especial attention of one of the members of the firm, who is prepared to advise w th inventors and manufacturers at all times, relating to Foreign Patents.

MUNN & CO., Scientific American Office,

PUROPEAN PATENTS.—MESSRS. MUNN & CO. pay especial attention to the procuring of Patents in foreign countries, and are prepared to secure patents in all nations where Patent Laws exist. We have our own special agedits in the chief European cities; this enables us to communicate directly with Patent Departments, and to save much time and expense to applicants

THE WATER-CURE JOURNAL AND HERALD THE WATER-CURE JOURNAL AND HERALD OF REFORMS—Devoted to Hydropathy, its Philosophy and Practice, to Physiology and Anatomy, with Illustrative Engravings, to Dietetics, Exercise, Clothing, Occupations, Amusements, and those Laws which govern Lifeand Health. Published monthly, in convenient formfor binding, at one dollar a year in advance, by Fowler & Wells

"Every man, woman, and child who loves health,—who desires happiness, its direct result,—who wants to live while he does live,' livetill he dies,' and really live instead of being a mere walking corpse, should become at once a reader of this Journal, and practice its precepts."—[Fountain Journal.

23 4

THE AMERICAN PHRENOLOGICAL JOURNAL—A Repository of Science, Literature, and General Intelligence: devoted to Phrenology, Physiology, Education, Psychology, Agriculture, Horticulture, Architecture, the Arts, and Sciences, and to all those Progressive Measures which are calculated to reform, elevate, and improve mankind. Illustrated with numerous portraits and other engravings. A heautiful quarto

vate, and improve mankind. Illustrated with numerous portuaits and other engravings. A beautiful quarto. Published at \$1 a year in advance, by Fowlers & Wells, 131 Nassau st., New York.

"A Journal containing such a mass of interesting matter, devoted to the highest happiness and interests of man, written in the clear and lively style of its practiced editors, and afforded at the 'ridiculously low price' of one dollar a year, must succeed in running up its present large creatation (50,000 copies!) to a much higher figure."—[N. Y. Tr. Dunce.

REWARD—For an Invention to PreThe State of the Mark Alteration of Bank Notes. To
Chemists and others. In order to prevent the loss and
annoyance occasioned by the Alteration of Bank Notes. To
Chemists and others. In order to prevent the loss and
annoyance occasioned by the Alteration of Bank Notes
either by changing the name of the Bank, or the denomination of the Bill, as practiced by counterfeiters, and
to procure an effectual barrier to such practices, by encouraging the invention of materials, such as ink and
paper, of a nature to afford in eitheror in any combination of them, the desired protection—the Executive
Committee of the Association of Banks for the Suppression of Counterfeiting, will pay the sum of Five Mundred Dollars to any person who shall invent the best
mode, in the opinion of the Committee, of accomplishing the object named. All plans to be submitted to the
undersigned on or before the 25th day of March next,
and to be accompanied with such explanations of the
materials and processes as the party applying may be
willing to disclose. Each applicant to loige with the
Treasurer of the Association, Henry M. Holbrook, Eq.,
for the term of three menths, the sum of one hundred
dollars, which shall be paid to any person who shall, during that time, alter, by removing and printing anew,
any material portion of a bill or note prepared in accordance with the plan submitted, in such a manner that
the alteration would, in the judgment of the Committee,
be likely to pass unsuspected. Andif, at the end of said
three months, no one has been able to effect such alteration, and the Committee are satisfied that the materials
proposed will stand all the tests which the present
knowledge of chemistry affords, then the hundred dollars will be returned, and the reward pad over to the
successful applicant, and the hundred dollars deposited
by each of the other applicants to be returned to them
respectively. Per order of the Executive Committee,

J. M. GORDON, Secretary,
Columbian Bank, Boston,

United States Patent Office.

Washington, Jan. 26, 1854.

NTHE PETITION of Allen & Wm. A Crowell, of patent granted to them on the 20th day of June, 1840, for an improvement in Churns, for seven years from the expiration of said patent, which takes place on the 20th day of June, eighteen hundred and fifty-four—It is ordered that the said petition be heard at the Patent Office on Monday, the 29th day of May next, at 12 o'clock, M.; and all persons are notified to appear and show cause, if any they have, why said petition ought not be granted.

Persons opposing the extension are required to file in

ought not be granted.

Persons opposing the extension are required to file in the Patent Office their objections, specially set forth in writing, at least twenty days before the day of hearing; all testimony filed by either party to be used at the said hearing must be taken and transmitted inaccordance with the rules of the office, which will be furnished on annoration.

with the rules of the office, which will be furnished on application.
Ordered, also, that this notice be published in the Union, Intelligencer, and Evening Star, Washington, D. C.; Pennsylvanian, Philadelphia, Pa.; Scientific American, New York; and Enquirer, Cincinnati, Ohio, once a week for three successive weeks previous to the 29th day of May next, the day of hearing.

CHARLES MASON,
Commissioner of Patents.
P.S.—Editorsof the above papers will please copy and send their bills to the Patent Office, with a paper containing this notice.

SALE—An Established Steam Planing Mill and Sash Factory in one of the healthiest of our Southern cities. There are are Beardslee's, Woodworth's, and Daniel's Planing Machines, of the best make. All of Fay's machines for the manufacture of sashes and blinds. Leaven's Patent Sash Machine, circular saws, &c. The engine is forty horse power, boilers nearly new. One of the proprietors being about to retire from business, the whole or one half will he sold on advantageous terms. Address P. E. HAMM, Esq., City Treasurer's Office, Philadelphia.

TO PIPE MAKERS—And Iron Founders general-ly—G. Peacock's Patent Core Bar, for making all kinds of branches, elbows, curve pieces, or straight pipe of all shapes and sizes. This improvement has been put to the greatest test, never failing to save fifty per cent Apply to G. PEACOCK, West Troy, N. Y. 22 3*

FELTING FOR STEAM BOILERS & PIPES—Manufactured by J. H. Bacon, Winchester, Mass, for sale at W. & J. MORRISON'S, No. 9 Maiden Lane, N. Y., and T. O. BACON & CO.'S, corner of Union and North sts, Boston, Mass.

AWRENCE SCIENTIFIC SCHOOL-Harvard AWRENCE SCIENTIFIC SCHOOL—Harvard University. The next Term of this Institution will open on the second day of March, 1854, and continue 20 weeks. Instruction by Recitations, Lectures, and Practical Exercises, according to the nature of the study, will be given in Astronomy by Messrs, Bond, Betanyby Prof, Gray, Chemistry, analytical and practical by Prof, Horsford. Comparative Anatomy and Physiology, by Prof, Wyman, Engineering by Prof, Eustis, Mathematics by Prof, Pierce, Mineralogy by Prof, Cooke, Physics by Prof, Lovering, Zoology and Seclogy by Prof, Agassiz. For fur ther information concerning the School application may be made to Prof. E. N. HORSFORD, Dean of the Faculty, Cambridge, Mass.

WANTED—A good permanent situation, either to run a stationary engine or takecharge of machinery, where capability and a faithful discharge of duty would meet with a liberal recompense, by a person who is and has been for several years past, running a locomotive on one of the railroads out of New York. Good references given. Address J. C. GORDON, 438 Fourth Avenue. (On parle Francais.)

HINGLE MACHINES—Wood'spatented improvement in Shingle Machines, is unquestionably the best ever offered to the public. The undersigned is now at the West, offeringrights in this machine for sale. It is a rare opportunity for a safe and profitable investment in a machine without a rival, for the purpose to which it is applied. Parties wishing to correspond with me can do so byaddressing

J. D. JOHNSON,
2ltf. Bridgeport, Ct.

ATHEMATICAL AND OPTICAL INSTRUMENTS—The subscriber begs leave to bring to the
notice of the professional community his new and extensive assortment of the above Instruments, which he
partly imported direct from the most celebrated makers
in Europe, and partly had manufactured under his own
personal supervision. The undersigned would particually invite attention to his very large and complete
assortment of the justly celebrated Swiss Mathematical
Drawing instruments, for the sale of which, in this couniry, he has the sole agency, and which he canfurnish at
rom \$5 to \$200 per case. Those Drawing Instruments
received theprize medal at the London and New York
Exhibitions. Orders from any part of the Union promptly executed, and price list sent if required.

21 feow 224 Chestnut st, Philadelphia, Pa.

pig iron.—The subscriber has always on handla stock of the best brands of American and Scotch Rr Iron, for sale at the lowest market price. G. O. ROEERTSON, 136 Water st. cor. Pine. N. Y. 13 14cov

NEW HAVEN MANUFACTURING COMPANY NEW HAVEN MANUFACTURING COMPANY
—New Haven, Conn., (successors to Scranton & Parshley) have on hand Power Planers, to plane from 3 to 12 feet; slide lathes from 6 to 18 feet long; 3 sizes of hand lathes, with and without shears; and counter shafts; universal chucks; drill presses, index plates, bolt cutters, and slide rests. The N. H. M. Company also have the right for Harrison's patent Flour and Grist Mill for the term of five years, and are prepared to furnish these superior mills at short notice. They are unequalled by any other mill, and will grind from 20 to 180 bushels per hour, and will run without heating, being self-cooling. They weigh about 1400 hs, are of the best French burr stone, 30 inches in diameter; are snugly packed in a cast-fron frame, price of mill \$200, packing \$5. For cuts, prices, and further particulars apply post paid, as above, or to S. G. HILLS, agent N. H. M. Co., 12 Platt st., N. Y.

EIGHING AND PACKING MACHINE—This wanchine is particularly adapted for the weighing and packing of ground spices, coffee, teas, saleratus, cream tartar, British lustre, arrowroot, drugs, prepared flour, farina, starch, cocca, oat meal, yeast powders, seeds, snuff, ground herbs, or any like material, which may require to be put in packages, from ources to point y hand are manifest. One of these machines will, with the sid of me person, weigh accurately, and pack neatly, from 4to 5.000 packages per day. It requires very little power to run it, and is not liable to get out of repair. Having purchased the exclusive right to manufacture and sell throughout the United States, we are prepared to execute orders for the machines or sale of sectional rights, on reasonable terms. N. B. HARKIS & Co., Proprietors of the Excelsior Steam Spice Mils, Philadelphia, Pa.

A MERICAN RAILROAD JOURNAL—This Journal, the oldest in the world devoted to the Rail-A MERICAN KAILROAD JUURNAL—This Jouran al, the oldest in the world devoted to the Railroad interest, will hereafter centain, in addition to its usual contents, a full and comprehensive department of Railway and Mechanical Engineering, prepared under the direction of a practical engineer and mechanic.—Improvements in Railways, Railway Equipments, and especially in Locomotives, will be duly described and ilustrated. Inventors and improvers will find the Jaurnal the best advertising medium, as it is taken by nearly all Railroad Companies and Engineers in the country. Published every Saturday at No. 9 Spruce st, by JOHN H. SCHULTZ & CO., at \$5 a year in advance.

PORTABLE STEAM ENGINES—GEORGE VAIL

& CO. Speedwell Iron Works, Morristown, N. J.
LOGAN VAIL & CO., No. 9 Gold st, N. Y., are prepared
to furnish Portable Steam Engines from four to eight
horse power, with locomotive boilers. These engines
are recommended for their simplicity, durability, and
economy, being made from the best materials and designed for practical use. They are placed on wheels convenient to be moved from place to place, and are shipped in working order; for plantation use, machinists, or
others wanting small power, these engines will be found
superfor to any others in use. A Silver Medal was
awarded at the late Fair of the American Institute, and
a premium in cash of \$100 at the Maryland State Fair,
held at Baltimore in October last. Persons writing us
by mail will be particular to give their address in full.

MICHIGAN CENTRAL R.R. LINE
1) W. WHITING Freight Agent for R.R.
and theenormous new steamers "Plymouth" and "Western World," and also General Forwarder, will forward
freight of any kind, by any mode of conveyance, to any
destination, with dispatch and at the low strates; has
trucks and machinery (having been a practical machinist has all the skill necessary) for the safe and expeditious handling of any machine or heavy article, such as
Locomotives, Steam Engines and Boilers, Engise Lathes,
Church Belis, Safes, &c. Mark packages care "D W.
Whiting, Buffalo; "goods thus consigned take precedence with the above boats in all cases.

Haven, Ct., manufacturer of Machinists' Tools, and Steam Engines, has now finishing off 25 Engine Lathes, 6 feet shears, 4 feet between centers, 15 inches swing, and weighs about 1100 lbs. These Lathes have back and screw genr, ib rest, with screw feed, and the rest is so arranged that the tool can be adjusted to any point the work may require, without unrastening the tool, hence they possess all the good qualities of the jib and the weight lathe; they are of the best workman abip. Price of Lathe with count shaft and pulleys, 4155 cash. Cuts, with full description of the lathe, can be had by addressing as above, post-paid. Also four 30 horse power vertical Steam Engines with two cylinders. Trice of engine with pump and heater, \$500 cash. For particulars address as above.

B. HUTCHINSON'S PATENT STAVE Cutting Machines—The best in use, and applicable asiks to thick and thin staves, for barrels, hogsheade, &c.; also his Head Cutting and Turning, and Stave Joint and Turning and Crozing Machines. This machinery reduces the expense of manufacturing at least fifty per cent. For machines or territorial rights, apply to C. B. HUTCH. INSON & CO., Syracuse, N. Y.

NGINEERING.—The undersigned is prepared to furnish specifications, estimates, plansin general or detail of steamships, steamboats, propelers, high and low pressure engines, boilers and mach.nery of every description. Broker in steam vessels, machinery, boilers, &c. General Agent for Ashcroft's Steam and Vacura, Gauges, Allen & Noyes' Metallic, Self-adjusting Conical Packing, Faber's Water Gauge, Sewell's Salimometers, Dudgeon's Hydraulic Lifting Press, Roebling's Patent Wire Rope for holisting and steering purposes, etc., etc., CHARLES W. COPELAND, 20tf Consulting Engineer, 64 Broadway.

BEARDSLEE'S PATENT.—Practical operation of these Machines throughout every portion of the United States, in working all kinds of wood, has proved them to be superior to any and all others. The work they produce cannot be equalled by the hand plane. They work from 100 to 200 feet, lineal measure, per minute. One machine has planed over twenty millions of feet during the last two years, another more than twelve millions of feet of feet Spruce flooring in ten months. Working models can be seen at the Crystal Palace, where further information can be obtained, or of the patentee at Albany, N. Y. Itf.

MINING MACHINERY—Of most approved con-struction, farnished by FRED'K COOK & CO, Hud-son Machine Works, Hudson, N. Y.

B. ELY, Counsellor at Law, 52 Washington street,

Boston, will give particular attention to Patent
Cases. Refers to Messrs Munn & Co., Scientific American. Boston, will give particular attention to Refers to Messrs Munn & Co., Scientific Am

EONARD'S MACHINERY DEPOT, 109, Pearl 1st., and 60 Beeaver, N. Y.—Leather Banding Manufactory, N. Y.—Machineit's Tools, a large assortment from the "Lowell Machine Shop," and other celebrated makers. Also, a general supply of mechanics' and manufacturers' acticles, and a superior quality of oak tanned Leather Belting.
