

About this ELGIN In Particular

"The Watch That's Made for The Majority."

It is second nature when thinking of watches to think of ELGIN. The name ELGIN stands for various grades of watches—varying according to the number of jewels, character of materials and workmanship entering into the construction.

The ELGIN in particular that we mention is the G. M. WHEELER Grade Movement. This designates an ELGIN of popular price—*"The Watch That's Made for the Majority"*. A 17-jewel, finely adjusted movement which can be had in the various sizes for men's and boys' use, and in the models now so popular. Ask your jeweler to show it to you.

The FURNACE for Home and Church

THE perfume of June roses and the warm breath of clean Underfeed heat may seem to have no connecting link of thought. As a matter of fact, it is the wise man who builds for cold weather when the days are warm, and purchases a heating plant which will give him June heat in December. Not only in thousands of homes, but in hundreds of churches, it has been conclusively proved that the

Peck-Williamson Underfeed Furnace
Saves **1-2 to 2-3** on Coal Bills

Cheerful, all-the-year-round testimony is given by those who have discovered the modern method of putting to work a furnace that will **PAY FOR ITSELF**.

In the Underfeed *all the fire is on top*. Coal is fed from below. Smoke and gases which are wasted in other furnaces, must pass through the flame of an Underfeed, and are consumed and converted into *clean heat*. *Cheapest* low grade slack coal yields as much heat as high grade anthracite. *You save the difference in cost.*

REV. C. E. CUNNINGHAM, Pastor of the Presbyterian Church, Yazoo City, Miss., recently wrote to an Alabama inquirer as follows:

"You will make no mistake getting a Peck-Williamson Underfeed Furnace, if your experience will be the same as that of the Presbyterian, Baptist and Methodist Churches of this place. We have two of them. They have not only been wonderfully economical investments, but also have given the greatest satisfaction. We burn nothing but Pittsburgh slack. After two Winters' use I cannot commend this furnace too highly."

We want to send you a lot of fac-simile testimonials as strong as this one, with our Underfeed Booklet. Heating plans and services of our Engineering Department are yours—**FREE**. Write to-day, giving name of local dealer with whom you prefer to deal.
